POLITICAL NOTES.

THE longer the Democrats look at the Cincinnati ticket the less they like it.

THE Democrats expect to see the Pope's toe at St. Louis and go the Republicans one better.—*Cincinnati Commercial.*

IT may now be said that Blaine's is the biggest "pullback" in the country, but, considering its immense size, he wears it gracefully.

AN ex-Congressman said in Boston, Friday night that Mr. Blaine told him two month ago that Hayes was the only man he was afraid of.

ADVICES from Oregon to the 19th say that the Legislature will probably be composed of forty-two Republicans, forty-four Democrats and four Independents.

THE mud machines may as well be set aside. There will be no use for them in the coming campeign unless the Democrats are a little more foolish than usual at St. Louis.

THE New York *Express* says: "The Democrat whose nomination will give us Indiana in October, and that State and New York in November, can be elected. No other need apply."

THE nominations receive hearty and unanimous approval from the Republican newspapers, while the Democratic press expresses equally hearty disgust. The latter fact is significant.

IF a man who has been in Congress, has been made a Major General, has been three times elected Governor of the third State in the Union, is unknown, how many of us shall ever become famous?

GEN. FITZHUGH LEE announces that he is not pledged to vote for Gen. Hancock at St. Louis, as report said he was. Like all the rest of the delegates he is in favor of the man who has the best chance of being elected.

VERY many papers think the Tilden and Hendricks ticket, first suggested by the New York *Sun*, the very thing. The Buffalo *Courier* believes a stronger ticket could not be made, since it would harmonize the party East and West and make success certain in doubtful States."

THE Augusta (Ga.) *Chronicle* says that the indications are that Hon. Alexander H. Stephens will be returned to Congress without opposition, either in the Convention or at the polls. His health is improving rapidly and it expects to hear of him in his seat before Congress adjourns.

BOTH factions in the Pennsylvania delegation had their revenge, one in killing Conkling, and the other in killing Blaine, and from that they extracted the nourishment of satisfaction, and left for home as satisfied as any set of men could be, who did not secure precisely what they wanted. —*Cincinnati Gazette.*

THE Executive Committee of the Independent Republican Central Committee of New York passed resolutions on Saturday evening approving the nomination of Hayes and Wheeler at the Cincinnati Convention, recognizing them "worthy standard-bearers of the cause of the peple against dictation of the machine party managers."

SPEAKING of Hayes, the Wilmington (Del.) *Herald*, a Democratic paper, says that the greatest card that his spokesman could offer for him was that he had gotten into the way of beating the Democrats, having defeated successively Thurman, Pendleton, and Allen, and being in the habit to beat Democrats, would do it again if nominated.

HANCOCK seems to be the coming man, so far as the Democracy of Pennsylvania are concerned. Hon. Wm. McClelland, Chairman of the State Committee, says in reply to an interviewer, "We cannot be defeated in Pennsylvania with Gen. Hancock," and Congressman Hopkins in the same connection is moved to remark: "The nomination of Gen. Hancock will drive the Republican party into bankruptcy. Its entire stock in trade, 'the bloody shirt,' will not be an available asset in the event."

A THEORY that Governor Hayes, the Republican candidate for President, is carefully reminded that he is indebted for his nomination to the personal welfare made upon Mr. Blaine by the Camerons of this State, is ingeniously pressed; and it is followed by the declaration that anybody who dares to resist these royalties is to be forever debarred the favor of the incoming Chief Magristrate. The latter may not know, perhaps, that we are accustomed to this sort of ostracism here-away, and that the intense enthusiasm for Blaine in Pennsylvania grew out of the longing of all classes to escape from under the galling fetters of the boasted Cameronian inferiority. And we beg to say to the incoming President Hayes that our good people saw in Blaine a release from an insupportable local despotism, which General Grant encouraged to the full, and they had a wild, insane idea that if Blaine was elected he might lift the lid from the cauldron in which they have been smothering. This is the plain, honest truth; and if Governor Hayes chooses to keep us where we have been for so many years, we have at any rate the delicious consolation of the eels, which, according to the fisherman's adage, did not really like the process of skinning, but they submitted because, poor things, they were used to it! —*Philadelphia Press.*

THERE was no rest in the Hayes' mansion Friday night. From long before twilight till after breakfast Saturday morning the Governor and his excellent wife were receiving the Orson-like embraces of the "first man" to congratulate His Excellency on his nomination.

We are coming, Father Rutherford,
Six hundred thousand more!

was the refrain that came up from railroad, canal, turnpike, corduroy road and the backs of horses, mules, jacks and other means of conveyance, as the "first man to congratulate Hayes" sped on in countless crowds to the Executive Mansion at Columbus. It was a terrible ordeal to the worthy couple. The bell-wire gave out at an early hour, and new comers had finally to be announced by an old-fashioned fish-horn. The rush of the "first man" finally became so great that the front door could not accommodate him, and hundreds of the fellows squeezed in unannounced over the stoop transom. When, at 3:30, the buck-board of Dan Reynolds swept up to the front gate, and Dan himself was shown in, redolent of perspiration and Sixth ward enthusiasm, the Governor's lady said she was sorry Rutherford had got it. But the crowd kept coming, and at this writing the Executive Mansion looks like the "Wigwam" on election day, surrounded, covered and filled with the "first man to congratulate Hayes."—*Cleveland Plain Dealer.*

IN whatever the Pennsylvania delegation may have differed, and however disgracefully they may have their dissensions at times, they should be credited with agreeing on one thing with sublime unanimity. When the rising sun first threw out his faintest rays to gild the day of the future Republican administration, with one accord the Pennsylvanians hastened thither to pay their devotions; and our venerable friend McMichael, being somewhat decrepid, took the earliest start of all. When Hayes was nominated, McMichael folded his tent and quietly stole away with the Hartranft Club to Columbus, to learn to lisp the name of the new deliverer. Hartranft's sun having set rather ingloriously, another luminary had to be found, and Hayes being the one of promise, McMichael, Stokeley, and the "boys" hied themselves toward the Buckeye capital in the stillness of the night, surrounded Hayes' entrenchments at two in the morning, and summoned him to surrender to the tune of "Good-bye, John," and such hearty cheers as could have come only from original Hayes men. Hayes couldn't hold the fort against such an assault at an hour so unseasonable, and he invited the assailants to enter and be welcome. It was then that McMichael was himself again, for in the well-advanced "wee sma' hours" he was inspired as of olden times and his voice rang out toward the richly-jeweled heavens with the promise of forty thousand majority for Hayes and Wheeler in Pennsylvania. Hayes being a novice in the Presidential race, took the cork right under, and looked the Keystone Commonwealth for just forty thousand, with marginal notes of kindly remembrance of McMichael and Stokley and the "boys" who were first from the sepulchre to pay homage, amidst their tears, to the rising sun. It was first blood for McMichael and Stokley; but hard on their heels came the regular band of heraldry, and McPherson subsoiled the ground so assiduously plowed by McMichael. He, too, came with a committee and a procession of banners and music, and he told Hayes how the convention yearned for just such a man and finally found him, and how every member of the convention and of the party and pretty much the whole country, the world and the rest of mankind, were waiting with breathless suspense to be assured that Hayes would accept. And Hayes accepted and there was peace throughout civilization, and great expectations lodged in the breasts of many gallant Pennsylvanians. While the average Pennsylvania politician doesn't waste time about the tombs of fallen idols, he can be safely trusted to hasten through night and day, sunshine and tempest, to greet the birth of a new dispensation. Where was Bingham? Who remained to administer on Blaine? and who tarried to toot the dirge of Hartranft?—*Phila. Times.*

A Murderer Hanged.

ST. LOUIS, June 19.—C. M. Foster, who murdered an unknown colored man in Warren county last August, was hanged at Warrenton between 7 and 8 o'clock this morning. Foster had two trials and was convicted at both. Great efforts had been made to obtain a commutation of his sentence, but Governor Harding declined to interfere.

FORTY-FOURTH CONGRESS.

FIRST SESSION.

WASHINGTON, June 19, 1876.

SENATE.

Postoffice Appropriation.

The Senate insisted upon its amendments to the Postoffice Appropriation bill, and agreed to the conference asked for by the House of Representatives.

The Articles of Impeachment.

Legislative business was then suspended, and the Senate resumed consideration of the articles of impeachment against Belknap.

Mr. Ingalls asked the opinions of the managers as to the authority of the Senate to sit for trial during the recess.

Manager Lord said the managers were divided on this point, although he himself thought the Senate possessed such authority.

The Senate then went into secret session on the question of postponing the trial till November.

After the doors were closed Mr. Howe moved to reconsider the vote by which it was ordered that they be closed. Rejected—yeas 19, nays 24.

The question then being on the motion submitted on Saturday to postpone the trial until some convenient time in the month of November next, Mr. Thurman moved that the application of the respondent for the postponement of the trial be overruled. Agreed to.

On motion of Mr. Edmunds the Senate sitting as a Court of Impeachment then proceeded to consider the question of filing a paper read on Friday last by Judge Black, of the counsel for the defense, assigning the reasons why the defendant declines to further answer the articles of impeachment as required by the order of the Senate adopted on the 6th inst., which paper Judge Black requested to have placed on file.

Mr. Sherman submitted the following for consideration: "Ordered, that the paper presented by the defendant on the 16th inst. be filed in this cause, and the defendant having failed to answer to its merits within the ten days allowed by the order of the Senate of the 6th inst., the trial shall proceed on the 6th of July next as upon a plea of 'not guilty.'"

Mr. Thurman moved to amend by inserting the word "not" after the word "be," so as to read "be not filed," &c. Rejected.

The question recurring on the order of Mr. Sherman, Mr. Howe demanded a division of the order, and the question being on the first clause thereof, viz: "Ordered, that the paper presented by the defendant on the 16th inst. be filed in this cause," it was so decided in the affirmative—yeas 26, nays 24.

The question then recurring on the last clause of the order of Mr. Sherman, as follows: "And the defendant having failed to answer to its merits within the ten days allowed by the order of the Senate of the 6th inst., the trial shall proceed on the 6th of July next, as upon a plea of not guilty."

Mr. Allison moved to amend the clause by striking out the "6th of July" and inserting in lieu thereof the "13th of November." Rejected—yeas 9, nays 37. Those who voted in the affirmative were Messrs. Allison, Christianey, Clayton, Jones (Nev.), Logan, Morrill (Me.), Wadleigh, Windom and Wright.

Mr. Morton moved to amend the second clause of the order submitted by Mr. Sherman by inserting at the end thereof the following: "Provided that the impeachment can only proceed in the presence of the House of Representatives."

Mr. Frelinghuysen moved to amend by striking out the words proposed by Mr. Morton and insert in lieu thereof the following: "While Congress is in session."

Mr. Morton then withdrew the amendment proposed by him, and that submitted by Mr. Frelinghuysen was agreed to.

Mr. Conkling moved to further amend the clause so as to make it read "Provided that the impeachment can only proceed while Congress is in session." Agreed to.

Mr. Morton moved to further amend the clause by adding thereto as follows: "And in the presence of the House of Representatives."

After discussion Mr. Thurman moved to lay the second clause of the order on the table. Rejected—yeas 21, nays 26.

The question recurring on the amendment of Mr. Morton, it was rejected—9 to 28.

The second clause of the order as amended by Messrs. Frelinghuysen and Conkling was then agreed to—yeas 21, nays 16.

Mr. Edmunds submitted the following: "Ordered, that the Secretary issue the subpœnas that may be applied for by the respondent for such witnesses to be summoned at the expense of the United States as shall be allowed by a committee, to consist of Senators Frelinghuysen, Thurman and Christianey, and that the subpœnas for all those witnesses for the respondent shall contain a statement that the witnesses therein named are to attend upon the tender, on behalf of the respondent, of their lawful fees." Agreed to.

The doors were then reopened, and the Senate sitting as a court of impeachment adjourned until July 6th.

Legislative business was resumed.

Mr. WINDOM called up the Indian Appropriation bill, but before it was read the Senate adjourned.

HOUSE.

Speaker Pro Tem.

Mr. RANDALL offered a resolution appointing Mr. COX Speaker *pro tem.* in the absence of the Speaker, which resolution was adopted.

The House went into Committee of the Whole on

The Army Appropriation Bill.

Mr. THORNBURG offered an amendment appropriating $200,000 for the construction of two military posts in the Yellowstone region, and providing that all existing military posts which shall be thus rendered unnecessary shall be abandoned. Adopted.

After completing the bill the committee rose and reported the bill to the House. The House refused to agree to the amendment of Mr. Thornburg, which had been adopted in committee, and it was struck out of the bill. The bill was then passed.

The Impeachment Case.

Mr. LORD, chairman of the impeachment managers, asked and was granted leave to withdraw the resolution which he offered on Saturday providing that Congress should meet in November next in order to proceed with the trial of W. W. Belknap.

District of Columbia Business.

The House went into Committee of the Whole on the bill authorizing the repavement of Pennsylvania avenue, and a joint resolution providing for a commission to frame a suitable form of government for the District.

After debate the committee rose and reported the bill and resolution to the House, and they were passed.

Adjourned.

NOTES FROM THE CAPITAL.

WASHINGTON, June 19, 1876.

THE German Minister here says that the report telegraphed from London that he has charged some of the members of the German Commission to the Philadelphia Exhibition with corrupt practices, and requested their removal, is entirely without foundation, that he has made no such charges, that there have been no corrupt practices, and he has not asked for the removal of any of them.

THE House Committee on Appropriations will to-morrow report, among others, the following appropriations: Custom House and Postoffice at Cincinnati, $200,000; Custom House, Court House and Postoffice at Evansville, Ind., $50,000; Court House and Postoffice at Lincoln, Neb., $15,000; Court House and Postoffice at St. Louis, $450,000; Court House and Postoffice at Parkersburg, W. Va., $50,000; repair and preservation of public buildings, $100,000.

NOTWITHSTANDING the vote of the Senate to-day against postponing the Belknap impeachment trial until November, it is the opinion of several prominent Senators that after the argument shall have been heard on the paper which the respondent's counsel were to-day allowed to file, all further proceedings will forthwith be postponed to an early day in November, or until the commencement of the next session.

A BROKEN HEART.

Why a Young Man Put an End to His Own Life.

SAN FRANCISCO, June 19.—Cunningham Watts, a son of Wm. Watts, a dry goods merchant of New York, committed suicide last night on board the ship Mary Whitridge, lying at Greenwich dock, by taking laudanum. The following letter, addressed to Mrs. Wm. Watts, No. 112 East Sixteenth street, New York, was found in his state room:

"SAN FRANCISCO, June 18, 1876.

"*Dear Mother:*

"When this reaches you I shall be dead. You know so well why it must be so, that I will not even try to explain. My darling mother, my heart is breaking. Good bye.

(Signed) "CUNNINGHAM."

Young Watts had been away from his home several months, having made the journey via Cape Horn to this port, and subsequently from San Francisco to China and return. He returned only a few days ago, very much depressed in spirits.

Bluford Wilson Resigns.

LOUISVILLE, June 19.—Bluford Wilson, Solicitor of the Treasury, will make known his resignation in a few days. Mr. Wilson left Louisville for Washington on Saturday night last, and before going stated positively that he would immediately tender his resignation.

THE CALDWELL DISPATCH.

The Efforts Made to Prove it to be Not Genuine.

PHILADELPHIA, June 19.—A Washington special to the *Evening Telegraph* says: It can be stated on unquestionable authority that the cable telegram purporting to have been sent by Mr. Caldwell from London was never seen by him, although it was actually sent from London with his name as the signature. It is not certain that the thing started from New York, but it is pretty certain that it passed over the wires from New York, having been started from that city or from some point between New York and Washington, either Baltimore or Philadelphia. It was embraced in a cable telegram sent from the starting point on this side of the Atlantic to an assumed address in London, which had been agreed upon previously, probably through the agency of the cable, and the exact words were then sent back to this country by the confederate in London in pursuance of the instructions he had received.

WASHINGTON, June 19.—The following dispatches were produced to-day before the Committee on Judiciary by Mr. Hicks, cable clerk of the New York Western Union Telegraph office. The first dispatch is from A. P. Robinson, a former chief engineer of the Fort Smith & Little Rock road, and is as follows:

"WASHINGTON, D. C., May 26.

"*To Josiah Caldwell*, 115 *Common st., London, Eng.:*

"See Scott's testimony in papers of the 16th. Telegraph Scott at Philadelphia, as you truthfully can, the strongest endorsement of his statement.

"A. P. ROBINSON."

[TELEGRAM NO. 2.]

"JUNE 1, 1876.

'*Josiah Caldwell, Tunbridge Wells, England:*

"Don't permit newspaper men and others to interview you."

[TELEGRAM NO. 3.]

JUNE 7, 1876.

"*Josiah Caldwell, Tunbridge Wells, London:*

"If false, authorize me to deny you paid Blaine. SICKLES.

"St. James' Hotel, care Mr. Denickla."

The above dispatch brought out Caldwell's reply to Sickles.

[TELEGRAM NO. 4.]

(Received at the Western Union Building, Broadway and Dey street, May 31, 1876.)

"*Josiah Caldwell, Cannon street, London:*

"Thanks for your cable confirming all my statements. SCOTT."

[TELEGRAM NO. 5.]

(Received at Western Union building, Broadway and Dey streets, May 21, 1876.)

"*Favo, London:*

"Dispatch received. Cable this immediately to the Chairman of the House Judiciary Committee, Washington: 'Have just read Scott's evidence about our bond transaction in New York papers, and fully corroborate it. I never gave Blaine any Little Rock bonds, directly or otherwise. Am now building three European railroads, and cannot leave without great pecuniary loss, or would gladly voluntarily come home and testify. Can make affidavit to that effect to mail it if desired.' (Not signed.)

"PHILADELPHIA."

[TELEGRAM NO. 6.]

(Received at Western Union Building, Broadway and Dey sts., May 30, 1876.)

"*Favo, London:*

"Cable nobody excepting Scott.

"PHILADELPHIA."

The testimony of Hicks was mainly in explanation of the operator's marks on the above dispatches produced by him. The only important point in it was that the word "Favo" was the registered address of Josiah Caldwell in London. He knew it from the fact that the office was so notified by an office dispatch from the other side. He could not give the date of that notification, but he thought it was somewhere about the 24th of May last.

Caldwell to Blaine.

WASHINGTON, June 19.—Mr. Blaine received by mail this morning a letter from Josiah Caldwell, of which the following is a copy. It authenticates the cablegram received by the Judiciary Committee:

"NO. 115 CANNON STREET, LONDON, E. C., 8th June, 1876.

"*Hon. J. G. Blaine, Dear Sir:*

"I read in the New York papers of the 16th ult. Col. Scott's evidence before the Congressional Committee, and I at once cabled him as follows: Thomas A. Scott, Philadelphia—Your statement before the Congressional Committee on the 15th, relating to Ft. Smith Railway bonds which you purchased of me, is perfectly correct. I can more fully substantiate if necessary.' I have also cabled to the Chairman of the Judiciary Committee as follows: 'Have just read in the New York papers Scott's evidence about our bond transactions, and can fully corroborate it. I never gave Blaine any Fort Smith Railway bonds, directly or otherwise. I have three foreign railway contracts upon my hands, which makes it impossible for me to leave without great pecuniary loss, or I would gladly voluntarily come home and so testify. Can make affidavit to this effect and mail it if desired.' I am sorry that I am not able to go personally before the committee and give my testimony, but I presume that Colonel Scott's evidence will be sufficient to prove that you had nothing to do with the transaction in question. If you wish for any further testimony or affidavit from me to prove the facts as cabled to the committee, I shall be glad to forward it under oath. The charges are so void of foundation that I have no fear of their doing you any permanent injury, and I hope your persecutors will be able to show as clear a record as yours in connection with the Little Rock and Fort Smith railway.

"Yours faithfully,

"JOSIAH CALDWELL."

Decision in the New York Canal Suit.

ALBANY, June 19.—In the canal suit of the people vs. W. C. Stevens, Thomas Gale and others, Judge Westbrook, of the Supreme Court, has given a decision, non-suiting the State, upon two grounds: First, the action is barred by a former judgment of the Supreme Court rendered in an action in which the same plaintiffs were parties; second, the officers of the State and Legislature thereof having, with the full knowledge of the alleged unlawful combination by which the price fixed in the contract was secured, ordered and required the performance thereof, the State is in no situation to recover damages by acts which itself, through its officers and Legislature, directed and required.

OUR PETROLEUM LETTER.

Review of the Market—Dull and Inactive—The New Warren Oil Field.

Special Correspondence to the Pittsburgh Gazette.

OIL CITY, June 17, 1876.

There has been a trifle more animation in the crude petroleum markets in the producing districts this week than last, though the amount of business done has been decidedly small in comparison with what it should have been under ordinary circumstances. The restricted demand from shippers and the general inactivity of the trade seems to prevent any decisive upward movement, and the almost unprecedented innate strength which the market seems to possess also prevents a decline. Wednesday a little upward movement was inaugurated, and for a time it looked as though the turning point had been reached. The price of United spot advanced rapidly from $1.98¾ to $2.05, with only a few sales. For three days, Wednesday, Thursday and Friday, the price remained above $2, but Saturday a reaction took place and there was a decline to $1.97½ again, with a subsequent recovery to $1.98½, which is the closing quotation of the week. The sudden check to the advance is attributable to the striking of the Bell well, in Warren, which commenced flowing at the rate of 200 barrels per diem. This well is in new territory, and the prevailing supposition is that it opens a section of undeveloped territory which will prove so prolific as to affect the market quite perceptibly. This Warren oil field has been something of a mystery for some time, but now it is feared that it may prove so productive as to create a good deal of trouble among the holders of two-dollar oil. A little more than a year ago David Beatty completed the first test well in that district, the producing capacity of which was never made known to the public, though the most strenuous exertions were made to ascertain it. When the well was struck it made a few fine blows, but the owner, Mr. Beatty, being at the time a holder of large quantities of oil, shut down the well and forbade any one entering the enclosure which enclosed it. This naturally caused other parties to surmise that he wished to keep the prolific qualities of the territory a secret until he should dispose of the oil he had in stock, and they accordingly determined to find out for themselves. Other wells were soon started and several have been completed since, but none of them so large as the Bell, the one completed this week. The new well has gradually declined, and at this writing is doing only 125 barrels per day. Beatty also has a well in the sand which is flowing at the rate of 40 barrels per day, and still drilling. In the other districts there has been nothing in the producing line that would affect the market very materially, about the usual number of small wells having been completed.

The following table exhibits in the successive columns the opening, highest and closing quotations for United spot for each day of the week:

Monday........	$1.97½	$1.97½	$1.96¾
Tuesday........	1.97¾	1.98¾	1.98¾
Wednesday	1.98¾	2.05	2.05
Thursday	2.05	2.05	2.01½
Friday..... ...	1.98¾	2.00	2.00
Saturday.......	1.98¾	1.98¾	1.98½

Shipment remains steady. River delivery could be quoted nominal at $2 22½, and the other deliveries somewhat below.

RATIFICATION MEETINGS.

A Large and Enthusiastic Gathering in Washington.

A Rousing Speech by Ex-Speaker Blaine.

A Monster Meeting in St. Louis.

WASHINGTON, June 19.—There was an immense mass meeting held in this city to-night to ratify the Cincinnati nominations. The meeting was voted as the largest that has occurred in this city since the war. Prominent men on the platform were President Grant, Senators Sherman, Morton, Frelinghuysen and Oglesby, Secretary Chandler, the Attorney General, Treasurer New, General Butler, Rev. Dr. Newman, and very many other prominent persons. The meeting was presided over by Senator Logan. Speeches were made by Senators Sherman, Morton, Frelinghuysen and Oglesby, Attorney General Taft and General Butler. The speakers all gave unbounded approbation to the nominations. Senator Morton was the only one of those present who was a candidate for the nomination. Letters were read from Governor Jewell, Senator Conkling and Secretary Bristow, expressing their hearty approval of the nominations and their determination to give the ticket their support.

General Butler said he desired to repel a slander upon Massachusetts at the convention. One of the delegates said they would only vote for one man. He would say they give a majority for any man nominated at the convention. The speakers generally alluded to their principles in favor of hard money, and General Butler said they could not stop to quarrel over minor questions of policy. He might differ from some of his political friends on some of the questions, but he was chained to the oar, and must pull in the boat until every negro in the South can sleep in his cabin as well protected as he (the speaker) could in Massachusetts.

Attorney General Taft alluded to his personal knowledge of Gov. Hayes, his political principles, etc., and commented upon the principles of the Republican party. He concluded with saying: "Popular education is the hope of the republic. I trust that the time be not far distant when all people will acquiesce in sustaining the common schools, and when they who would ask a division of the school fund will yield to the genius of Republicanism, and be satisfied to give religious instruction and enjoy religious worship in the family and in the church, while the State, with a sovereign impartiality, shall perform its great duty of making education universal through the best system of common schools the world ever saw."

After the adjournment of the meeting the crowd proceeded to the residence of Mr. Blaine, who was received with the most intense manifestations of favor. He addressed the assemblage as follows:

Mr. Blaine's Speech.

Fellow Republicans: The condition of my health forbids that I should address you at length, and I fear my voice may fail to reach any considerable portion of the large crowd to whom I am so much indebted for the compliment of this call. Let me say, in brief, that I heartily join with you in ratifying the nominations of Hayes and Wheeler. I know both candidates, and have known them long. They are true and tried, honest and competent, strong and popular. I do not believe it was possible for a National Convention to present a more acceptable ticket to the great mass of the American voters, and I have no doubt of its triumphant election in November. To that great result your efforts and mine will, I am sure, be devoted with the most earnest zeal. If I may be permitted to refer to the connection of my own name with the Republican nomination, let me say, gentlemen, that I look back upon it with pride and satisfaction, with not one tinge of regret at the final result. I owe much to the true friends who so faithfully supported me, and I am sure that I do not entertain the slightest feeling of unkindness towards those who opposed me. I hope I can go further, and say that out of all the fierce conflicts within the past half year I do not this moment cherish a trace of ill-will or uncharitable feeling towards any political rival or any political opponent. Let us look forward hopefully to the future for the peace and prosperity of the American people, wisely guarded by a Republican administration of the Government, which shall be just to all sections and all citizens of our own common country. Thanking you again, gentlemen, for the honor of your call, I bid you a cordial good night.

A Monster Meeting at St. Louis.

ST. LOUIS, June 19.—The Republicans held a monster ratification meeting in Lucas market space to-night. The space was literally packed with crowds that could not have numbered less than five or six thousand. Speeches were made by ex-Senator J. B. Henderson and D. T. Jewell, ex-Congressman Geo. A. Finkelberg, District Attorney Dyer, Postmaster Filley, several gentleman from interior counties, and Mr. Clendin, of Arkansas, all of whom heartily endorsed the Cincinnati nominees and predicted their election in November. Finkelberg, who for a long time past has acted with the Liberatels, said: "The Republican party has given us a ticket which deserves the cordial support of every Republican in the country, and the platform is broad enough for every patriot in the land to stand upon. He heartily endorsed them both, and felt sure of their triumph at the polls."

Gen. Henderson said he was personally acquainted with Hayes and Wheeler, knew them to be true and able men, and representatives of the highest Republican principles should support them cordially, and believed their triumph certain.

Colonel Dyer, who was a strong Bristow man before the nomination, and worked hard for his nomination, accepted the nominees most cordially, and should labor for their election. He believed they would be elected, and that the administration of the Government would be pure and able. He said the action of the Cincinnati Convention means unity of the Republican party, and unity means victory.

It was expected that General Schurz would be present and speak, but General Shields, chairman of the meeting, stated that gentleman was called East from Cincinnati. He would soon be heard in support of the ticket. The spirit of the meeting was fair, but not enthusiastic. The pyrotechnic display was very beautiful and the whole passed off with considerable *eclat.*

GOVERNORSHIP OF OHIO.

The Question Whether Gov. Hayes Will Resign the Present Office—Desire of the Republicans of the State That He Should Not—A New Election Necessary If He Does.

CINCINNATI, June 19.—Whether or not Gov. Hayes will resign the Governorship of Ohio at once has already become a question of much interest with the Republicans of the State. The habit of the Governor has been, when a candidate for one office, to immediately resign whatever other one he might happen to hold, and if he followed his own inclinations he would undoubtedly do so in the present case; but if he should do so, under the law of the State there would necessarily be an election for Governor in October, for it is provided that if the office of Governor becomes vacant for any reason thirty days before the day of the State election it shall be filled at that time by popular suffrage. The Republicans do not want the embarrassment which would be caused by the election of a Governor this year, and are already seeking to convince Gov. Hayes that it is his duty to retain his present office until late in September, so that Lieut. Gov. Thomas L. Young can legally succeed to the position and hold it until the expiration of the term for which Gov. Hayes was elected. The Governor has not given any indication of his determination in the matter, but his intimate friends say that he will accede to the wishes and not resign the present place until the time indicated.

TROUBLES IN THE SOUTH.

Negroes Following the Example of the Whites—One Man Killed for Opinion's Sake.

BATON ROUGE, June 19.—A riot occurred at Mount Pleasant, near Port Gibson, on Saturday. The negroes, following the example of the whites, organized a band of regulators, and ordered a Democratic negro to leave the place. Refusing to leave, he was attacked by the regulators and killed. A constable and posse attempted to arrest the murderers, but were driven off. The Sheriff of Baton Rouge, with a posse, went to Mt. Pleasant on Sunday and captured fourteen negroes, including the murderers. A party of armed negroes passed Baton Rouge on the opposite side of the river, going towards Blaquemine. When they reached Brusle Landing they were disarmed by the whites. The Sheriff's posse making the arrest at Mt. Pleasant report being fired upon by negroes. Two of them were wounded and two horses were killed.

NEWS FROM FOREIGN LANDS.

The Freshest Gleanings from the Old World.

The Present Attitude of the Eastern Question.

LONDON, June 19.—The Paris correspondent of the *Times*, in a letter reviewing the present attitude of the Eastern question, concludes as follows:

The Czar yesterday, in taking leave of a lady who wished him a good journey, replied with undisguised satisfaction: "I hope I shall spend more tranquil days at Jugenheim than those I have passed at Ems." Such a remark as this is tantamount to a specified promise, and it may be inferred that the European powers are determined to remain spectators of what passes between Turkey and her subjects and vassals. This does not mean that the pacification of Turkey is an accomplished fact, or that we are on the eve of its being effected. The insurgents do not seem disposed to lay down their arms, nor Montenegro and Servia to abandon their pretension of annexing, the one Herzegovina and the other Bosnia, with the consent of Turkey herself. But what is known to-day appears to indicate that the European powers will support the insurgents and their neighbors, though none will endeavor to thwart their designs, and when the insurgents and the Porte come face to face and Europe is seen to remain a spectator, this insurrection will perhaps finish as it began, that is, without anybody knowing the reason why. At the present moment everybody, particularly the six powers, are convinced that the peace will not be disturbed beyond the frontiers of Turkey.

The Louisville Forger.

Application was made to-day before the Court of Queen's bench for the discharge of Charles Brent, the Louisville forger. The Attorney General offered no opposition to his release, but made a statement in relation to the case. The Court accordingly granted an order for the prisoner's release.

Fires in Russia.

MOSCOW, June 19.—A fire here last night destroyed over fifty houses. The loss is large. Three-fourths of the town of Kadschory, in Caucasus, including Bazoar, was burned on Saturday.

The Late Riots at Barbadoes.

LONDON, June 19.—The Bishop and Archdeacon of Barbadoes and thirty-four clergymen, constituting the entire body of the Barbadoes clergy, and four Moravian missionaries, have signed a statement for presentation to Earl Carnarvon, Colonial Minister, detailing the outrageous character of the late riots on that island. They say the riots were not caused by any suffering, but by a general impression among the negroes that the land and property of the planters would be divided among them, with the Governor's consent. They state that they cannot tell how this impression was created, but it was undoubtedly general, and the belief is still very general that all this property has been awarded to the negroes by the Queen at the Governor's instance, and is being wrongfully withheld from them. Consequently the feeling against all property owners is intensely bitter and hostile, and it will require firmness and judgment on the part of the authorities to remove this impression, even if it is removable during the present generation.

Explosion of Coal Gas.

LONDON, June 19.—An explosion of coal gas to-day on board the ship Atlanta for Hong Kong, while in Penarth docks, at Cardiff, killed six men and injured several. The vessel was seriously damaged.

Business Suspension.

Kenaway & Rees, grain merchants, of Cardiff, have suspended. Their liabilities are one million dollars.

Rowing Race on the Thames.

A match rowing race for $500 a side took place to-day on the Thames, from Putney to Mortlake, between Henry Thomas, of Hammersmith, and Thomas Muship, of New Castle. Thomas, the favorite in the start, won the race in 24 minutes and 32 seconds.

Detention of Englishmen by Peru.

LONDON, June 19.—In the House of Commons to-night Bourke, Under Secretary of the Foreign Department, stated that Lord Derby had recently written to the Peruvian Minister in regard to the continued detention of the Captain and mate of the Talisman, as follows: "I have remonstrated in the strongest manner in the name of Her Majesty's Government against the continued detention of the prisoners and the unfriendly conduct of the Peruvian Government. Unless the matter is brought to a speedy termination it is impossible that the friendly relations can continue." To this the Peruvian Minister replied, recapitulating the facts in the case, and defending the conduct of Peru, but not really altering the situation. Bourke said, in conclusion: "It appears to the Government that the further detention of the prisoners is unjustifiable, and we consider it our duty to request their immediate release." This declaration was received by the House with loud cheers.

Difference of Opinion in the Turkish Cabinet.

CONSTANTINOPLE, June 19.—The Ministers of the Sultan differ among themselves on the question of creating a National Assembly, and the constitution which was promised will probably be indefinitely postponed.

Turkish Excesses in Jerusalem.

LONDON, June 20.—The *Prussian Cross Gazette* publishes a private letter from Jerusalem, which says great excitement and anxiety prevail there in consequence of the excesses of the Turkish authorities and the threatened rising of the populace. On the 2nd of June the Christians, fearing an attack, barricaded their houses, and foreign residents kept an armed watch throughout the night. The Germans met at their Consulate, organized for their mutual defense, and sent to their home Government a formal application for military assistance. The Turkish soldiers have since permanently encamped in the public square.

Agitation in Constantinople.

A Berlin dispatch says accounts received from all sources are full of apprehension of further violence, and perhaps a general rising in Constantinople.

Ministerial Crisis in Spain.

LONDON, June 20.—A special from Madrid says there are rumors of a Ministerial crisis in consequence of a disagreement between Minister Salaverria and the Budget Committee in regard to the two per cent. increase in the land tax. The *Imparcial* thinks it probable that Senor Salaverria will resign.

TREASURY RESIGNATIONS.

The Chief Clerk of the Treasury Resigns—Treasurer New to Retire at the End of the Present Fiscal Year—The Correspondence Between Secretary Bristow and the President.

WASHINGTON, June 19.—Wilson, Chief Clerk of the Treasury Department, to-day tendered his resignation, to take effect on the 1st of July.

For a long time it has been known that Mr. New, Treasurer, has remained in his position at the request of Mr. Bristow and others, and there is now good reason to assert that he will certainly resign by the end of the present fiscal year.

The correspondence between Bristow and the President on the occasion of Bristow's resignation has not been given to the press for publication. The formal reply of the President to the Secretary's letter of Saturday was written to-day. The correspondence, it is understood, is brief, and contains the usual formal expressions on communications of this character, Mr. Bristow saying in his letter that he hereby tendered his resignation, to take effect on the 20th inst., and thanked the President for the honor of the appointment he had confered upon him, also stating his desire to give attention to private affairs. The President accepts the resignation, with expressions of a hope that in his retirement from public office the Secretary will find that rest which he could not have in his present position, and desiring that the personal relations between them shall remain in their present pleasant attitude.

WAR ON THE CHINESE.

A Chinese Cabin at Truckee, Cal., Fired, and Two of the Inmates Shot.

SAN FRANCISCO, June 19.—A dispatch from Truckee says: Last night a number of men, supposed to belong to the Circassian League, set fire to a Chinese cabin occupied by three Chinamen, about a mile north of this place. As the Chinamen ran out of the cabin they were fired upon by the mob, one being killed instantly and another seriously wounded. About forty shots are reported to have been fired.

Pennsylvania Transportation Co. vs. Oil Creek R. R. Co.

CLEVELAND, June 19.—In the case of the Pennsylvania Transportation Company against the Oil Creek Railroad Company, which was tried in May last in the Common Pleas Court of Crawford county, Pennsylvania, for $197,285, and which was decided in favor of the plantiff, the question was raised as to wether the contract sued upon was in the powers of the contracting parties, which point was reserved by the Court for future adjudication. To-day Hon. W. H. Lowrie, presiding Judge, read an opinion, wherein he affirmed the validity and legality of the contract, and directed final judgment to be entered for the plaintiff for the full amount of the verdict.

THE APPROPRIATION BILLS.

Probability of Stopping the Wheels of Government—Belief that Delay in Passing the Bills is for a Purpose—What the President Will Do in an Emergency.

WASHINGTON, June 18.—The debate in the House on Saturday afternoon furnished a pretty clear indication that a dead-lock between the two Houses upon the Appropriation bills is certain, and that neither of the political parties is likely speedily to give way. Mr. Kasson and Mr. Hurlbut showed how indefensible the position of the Democrats is as regards these bills. They clearly proved that for demigogical purposes the Democrats have deliberately set to work to cripple the Government, and, while they constitute a majority in one branch of the Government, set at defiance the two other branches. The President has very clearly defined his position in the message which he sent to the House late on Saturday afternoon, in which he notifies the Democrats that if the appropriation bills are not passed and signed by June 30, next, or the unexpired balances made available until the appropriation bills are passed, the entire machinery of the Government will be suspended. It will then be impossible to send a letter, to manage the Postoffice, to move a ship, to transport a soldier, or to pay a salary in the Government service.

Private information shows that the President will be quite as good as his word, and that if the Democrats continue in their obstinate course the entire machinery of the Government will probably be suspended by July 1st next. There remains now of the fiscal year less than two weeks. Meanwhile the St. Louis Convention will meet, which will probably be attended by a very considerable portion of the House Democrats. As the situation looks at present, it does not seem possible for the House to pass the appropriation bills before the end of the fical year.

THE FIRE RECORD.

A $400,000 Conflagration at White Elephant Depot, N. Y.

NEW YORK, June 19.—A dispatch from Hudson, N. Y., reports that the White Elephant depot, N. Y., and four hundred loaded cars were burned last night. The fire originated on the propeller John Taylor, which was burned, with two canal boats. The loss is estimated at $400,000.

Three Persons Burned to Death.

DETROIT, MICH., June 19.—A fire at Port Sanilac, Mich., on Saturday night destroyed the dwelling of Levi French. His wife and two children perished in the flames before assistance could be rendered. Mr. French was absent, and knew nothing of the sad event until it was over.

Inundations in Tennessee.

KNOXVILLE, TENN., June 19.—Almost the entire crop on French Broad River has been destroyed by the recent freshet. There was twenty feet of a rise up to midnight last night, but it is falling rapidly this morning. The fields and islands are entirely submerged from five to ten feet. Some of the farmers will replant corn. Below Knoxville the farmers will lose about one-fourth of the crop. There is very slight damage on the Halston river.

Indianians Ratify.

INDIANAPOLIS, June 19.—The Republicans ratified the Cincinnati nominations by a mass meeting at the Academy of Music, at which Governor Baker presided. Addresses were made by Generals Coburn, Kimball, Harmon, Hons. J. W. Corden, D. E. Williamson, A. G. Porter, and others.

POLITICAL NOTES.

THE longer the Democrats look at the Cincinnati ticket the less they like it.

THE Democrats expect to see the Pope's toe at St. Louis and go the Republicans one better.—*Cincinnati Commercial.*

IT may now be said that Blaine's is the biggest "pullback" in the country, but, considering its immense size, he wears it gracefully.

AN ex-Congressman said in Boston, Friday night that Mr. Blaine told him two month ago that Hayes was the only man he was afraid of.

ADVICES from Oregon to the 19th say that the Legislature will probably be composed of forty-two Republicans, forty-four Democrats and four Independents.

THE mud machines may as well be set aside. There will be no use for them in the coming campaign unless the Democrats are a little more foolish than usual at St. Louis.

THE New York *Express* says: "The Democrat whose nomination will give us Indiana in October, and that State and New York in November, can be elected. No other need apply."

THE nominations receive hearty and unanimous approval from the Republican newspapers, while the Democratic press expresses equally hearty disgust. The latter fact is significant.

IF a man who has been in Congress, has been made a Major General, has been three times elected Governor of the third State in the Union, is unknown, how many of us shall ever become famous?

GEN. FITZHUGH LEE announces that he is not pledged to vote for Gen. Hancock at St. Louis, as report said he was. Like all the rest of the delegates he is in favor of the man who has the best chance of being elected.

VERY many papers think the Tilden and Hendricks ticket, first suggested by the New York *Sun*, the very thing. The Buffalo *Courier* believes a stronger ticket could not be made, since it would harmonize the party East and West and make success certain in doubtful States."

THE Augusta (Ga.) *Chronicle* says that the indications are that Hon. Alexander H. Stephens will be returned to Congress without opposition, either in the Convention or at the polls. His health is improving rapidly and it expects to hear of him in his seat before Congress adjourns.

BOTH factions in the Pennsylvania delegation had their revenge, one in killing Conkling, and the other in killing Blaine, and from that they extracted the nourishment of satisfaction, and left for home as satisfied as any set of men could be, who did not secure precisely what they wanted.—*Cincinnati Gazette.*

THE Executive Committee of the Independent Republican Central Committee of New York passed resolutions on Saturday evening approving the nomination of Hayes and Wheeler at the Cincinnati Convention, recognizing them "worthy standard-bearers of the cause of the peple against dictation of the machine party managers."

SPEAKING of Hayes, the Wilmington (Del.) *Herald*, a Democratic paper, says that the greatest card that his spokesman could offer for him was that he had gotten into the way of beating the Democrats, having defeated successively Thurman, Pendleton, and Allen, and being in the habit to beat Democrats, would do it again if nominated.

HANCOCK seems to be the coming man, so far as the Democracy of Pennsylvania are concerned. Hon. Wm. McClelland, Chairman of the State Committee, says in reply to an interviewer, "We cannot be defeated in Pennsylvania with Gen. Hancock," and Congressman Hopkins in the same connection is moved to remark: "The nomination of Gen. Hancock will drive the Republican party into bankruptcy. Its entire stock in trade, 'the bloody shirt,' will not be an available asset in the event."

A THEORY that Governor Hayes, the Republican candidate for President, is carefully reminded that he is indebted for his nomination to the personal welfare made upon Mr. Blaine by the Camerons of this State, is ingeniously pressed; and it is followed by the declaration that anybody who dares to resist these royalties is to be forever debarred the favor of the incoming Chief Magistrate. The latter may not know, perhaps, that we are accustomed to this sort of ostracism here-away, and that the intense enthusiasm for Blaine in Pennsylvania grew out of the longing of all classes to escape from under the galling fetters of the boasted Cameronian inferiority. And we beg to say to the incoming President Hayes that our good people saw in Blaine a release from an insupportable local despotism, which General Grant encouraged to the full, and they had a wild, insane idea that if Blaine was elected he might lift the lid from the cauldron in which they have been smothering. This is the plain, honest truth; and if Governor Hayes chooses to keep us where we have been for so many years, we have at any rate the delicious consolation of the eels, which, according to the fisherman's adage, did not really like the process of skinning, but they submitted because, poor things, they were used to it!—*Philadelphia Press.*

THERE was no rest in the Hayes' mansion Friday night. From long before twilight till after breakfast Saturday morning the Governor and his excellent wife were receiving the Orson-like embraces of the "first man" to congratulate His Excellency on his nomination.

> We are coming, Father Rutherford,
> Six hundred thousand more!

was the refrain that came up from railroad, canal, turnpike, corduroy road and the backs of horses, mules, jacks and other means of conveyance, as the "first man to congratulate Hayes" sped on in countless crowds to the Executive Mansion at Columbus. It was a terrible ordeal to the worthy couple. The bell-wire gave out at an early hour, and new comers had finally to be announced by an old-fashioned fishhorn. The rush of the "first man" finally became so great that the front door could not accommodate him, and hundreds of the fellows squeezed in unannounced over the stoop transom. When, at 3:30, the buckboard of Dan Reynolds swept up to the front gate, and Dan himself was shown in, redolent of perspiration and Sixth ward enthusiasm, the Governor's lady said she was sorry Rutherford had got it. But the crowd kept coming, and at this writing the Executive Mansion looks like the "Wigwam" on election day, surrounded, covered and filled with the "first man to congratulate Hayes."—*Cleveland Plain Dealer.*

IN whatever the Pennsylvania delegation may have differed, and however disgracefully they may have their dissensions at times, they should be credited with agreeing on one thing with sublime unanimity. When the rising sun first threw out his faintest rays to gild the day of the future Republican administration, with one accord the Pennsylvanians hastened thither to pay their devotions; and our venerable friend McMichael, being somewhat decrepid, took the earliest start of all. When Hayes was nominated, McMichael folded his tent and quietly stole away with the Hartranft Club to Columbus, to learn to lisp the name of the new deliverer. Hartranft's sun having set rather ingloriously, another luminary had to be found, and Hayes being the one of promise, McMichael, Stokeley, and the "boys" hied themselves toward the Buckeye capital in the stillness of the night, surrounded Hayes' entrenchments at two in the morning, and summoned him to surrender to the tune of "Good-bye, John," and such hearty cheers as could have come only from original Hayes men. Hayes couldn't hold the fort against such an assault at an hour so unseasonable, and he invited the assailants to enter and be welcome. It was then that McMichael was himself again, for in the well-advanced "wee sma' hours" he was inspired as of olden times and his voice rang out toward the richly-jeweled heavens with the promise of forty thousand majority for Hayes and Wheeler in Pennsylvania. Hayes being a novice in the Presidential race, took the cork right under, and booked the Keystone Commonwealth for just forty thousand, with marginal notes of kindly remembrance of McMichael and Stokley and the "boys" who were first from the sepulchre to pay homage, amidst their tears, to the rising sun. It was first blood for McMichael and Stokley; but hard on their heels came the regular band of heraldry, and McPherson subsoiled the ground so assiduously plowed by McMichael. He, too, came with a committee and a procession of banners and music, and he told Hayes how the convention yearned for just such a man and finally found him, and how every member of the convention and of the party and pretty much the whole country, the world and the rest of mankind, were waiting with breathless suspense to be assured that Hayes would accept. And Hayes accepted and there was peace throughout civilization, and great expectations lodged in the breasts of many gallant Pennsylvanians. While the average Pennsylvania politician doesn't waste time about the tombs of fallen idols, he can be safely trusted to hasten through night and day, sunshine and tempest, to greet the birth of a new dispensation. Where was Bingham? Who remained to administer on Blaine? and who tarried to toot the dirge of Hartranft?—*Phila. Times.*

A Murderer Hanged.

ST. LOUIS, June 19.—C. M. Foster, who murdered an unknown colored man in Warren county last August, was hanged at Warrenton between 7 and 8 o'clock this morning. Foster had two trials and was convicted at both. Great efforts had been made to obtain a commutation of his sentence, but Governor Harding declined to interfere.

FIRST EDITION.

FORTY-FOURTH CONGRESS.

FIRST SESSION.

WASHINGTON, June 19, 1876.

SENATE.

Postoffice Appropriation.

The Senate insisted upon its amendments to the Postoffice Appropriation bill, and agreed to the conference asked for by the House of Representatives.

The Articles of Impeachment.

Legislative business was then suspended, and the Senate resumed consideration of the articles of impeachment against Belknap.

Mr. Ingalls asked the opinions of the managers as to the authority of the Senate to sit for trial during the recess.

Manager Lord said the managers were divided on this point, although he himself thought the Senate possessed such authority.

The Senate then went into secret session on the question of postponing the trial till November.

After the doors were closed Mr. Howe moved to reconsider the vote by which it was ordered that they be closed. Rejected—yeas 19, nays 24.

The question then being on the motion submitted on Saturday to postpone the trial until some convenient time in the month of November next, Mr. Thurman moved that the application of the respondent for the postponement of the trial be overruled. Agreed to.

On motion of Mr. Edmunds the Senate sitting as a Court of Impeachment then proceeded to consider the question of filing a paper read on Friday last by Judge Black, of the counsel for the defense, assigning the reasons why the defendant declines to further answer the articles of impeachment as required by the order of the Senate adopted on the 6th inst., which paper Judge Black requested to have placed on file.

Mr. Sherman submitted the following for consideration: "Ordered, that the paper presented by the defendant on the 16th inst. be filed in this cause, and the defendant having failed to answer to its merits within the ten days allowed by the order of the Senate of the 6th inst., the trial shall proceed on the 6th of July next as upon a plea of 'not guilty.'"

Mr. Thurman moved to amend by inserting the word "not" after the word "be," so as to read "be not filed," &c. Rejected.

The question recurring on the order of Mr. Sherman, Mr. Howe demanded a division of the order, and the question being on the first clause thereof, viz: "Ordered, that the paper presented by the defendant on the 16th inst. be filed in this cause," it was so decided in the affirmative—yeas 26, nays 24.

The question then recurring on the last clause of the order of Mr. Sherman, as follows: "And the defendant having failed to answer to its merits within the ten days allowed by the order of the Senate of the 6th inst., the trial shall proceed on the 6th of July next, as upon a plea of not guilty."

Mr. Allison moved to amend the clause by striking out the "6th of July" and inserting in lieu thereof the "13th of November." Rejected—yeas 9, nays 37. Those who voted in the affirmative were Messrs. Allison, Christiancy, Clayton, Jones (Nev.), Logan, Morrill (Me.), Wadleigh, Windom and Wright.

Mr. Morton moved to amend the second clause of the order submitted by Mr. Sherman by inserting at the end thereof the following: "Provided that the impeachment can only proceed in the presence of the House of Representatives."

Mr. Frelinghuysen moved to amend by striking out the words proposed by Mr. Morton and insert in lieu thereof the following: "While Congress is in session."

Mr. Morton then withdrew the amendment proposed by him, and that submitted by Mr. Frelinghuysen was agreed to.

Mr. Conkling moved to further amend the clause so as to make it read "Provided that the impeachment can only proceed while Congress is in session." Agreed to.

Mr. Morton moved to further amend the clause by adding thereto as follows: "And in the presence of the House of Representatives."

After discussion Mr. Thurman moved to lay the second clause of the order on the table. Rejected—yeas 21, nays 26.

The question recurring on the amendment of Mr. Morton, it was rejected—9 to 28.

The second clause of the order as amended by Messrs. Frelinghuysen and Conkling was then agreed to—yeas 21, nays 16.

Mr. Edmunds submitted the following: "Ordered, that the Secretary issue the subpœnas that may be applied for by the respondent for such witnesses to be summoned at the expense of the United States as shall be allowed by a committee, to consist of Senators Frelinghuysen, Thurman and Christiancy, and that the subpœnas for all those witnesses for the respondent shall contain a statement that the witnesses therein named are to attend upon the tender, on behalf of the respondent, of their lawful fees." Agreed to.

The doors were then reopened, and the Senate sitting as a court of impeachment adjourned until July 6th.

Legislative business was resumed.

Mr. WINDOM called up the Indian Appropriation bill, but before it was read the Senate adjourned.

HOUSE.

Speaker Pro Tem.

Mr. RANDALL offered a resolution appointing Mr. COX Speaker *pro tem.* in the absence of the Speaker, which resolution was adopted.

The House went into Committee of the Whole on

The Army Appropriation Bill.

Mr. THORNBURG offered an amendment appropriating $200,000 for the construction of two military posts in the Yellowstone region, and providing that all existing military posts which shall be thus rendered unnecessary shall be abandoned. Adopted.

After completing the bill the committee rose and reported the bill to the House. The House refused to agree to the amendment of Mr. Thornburg, which had been adopted in committee, and it was struck out of the bill. The bill was then passed.

The Impeachment Case.

Mr. LORD, chairman of the impeachment managers, asked and was granted leave to withdraw the resolution which he offered on Saturday providing that Congress should meet in November next in order to proceed with the trial of W. W. Belknap.

District of Columbia Business.

The House went into Committee of the Whole on the bill authorizing the repavement of Pennsylvania avenue, and a joint resolution providing for a commission to frame a suitable form of government for the District.

After debate the committee rose and reported the bill and resolution to the House, and they were passed.

Adjourned.

NOTES FROM THE CAPITAL.

WASHINGTON, June 19, 1876.

THE German Minister here says that the report telegraphed from London that he has charged some of the members of the German Commission to the Philadelphia Exhibition with corrupt practices, and requested their removal, is entirely without foundation, that he has made no such charges, that there have been no corrupt practices, and he has not asked for the removal of any of them.

THE House Committee on Appropriations will to-morrow report, among others, the following appropriations: Custom House and Postoffice at Cincinnati, $200,000; Custom House, Court House and Postoffice at Evansville, Ind., $50,000; Court House and Postoffice at Lincoln, Neb., $15,000; Court House and Postoffice at St. Louis, $450,000; Court House and Postoffice at Parkersburg, W. Va., $50,000; repair and preservation of public buildings, $100,000.

NOTWITHSTANDING the vote of the Senate to-day against postponing the Belknap impeachment trial until November, it is the opinion of several prominent Senators that after the argument shall have been heard on the paper which the respondent's counsel were to-day allowed to file, all further proceedings will forthwith be postponed to an early day in November, or until the commencement of the next session.

A BROKEN HEART.

Why a Young Man Put an End to His Own Life.

SAN FRANCISCO, June 19.—Cunningham Watts, a son of Wm. Watts, a dry goods merchant of New York, committed suicide last night on board the ship Mary Whitridge, lying at Greenwich dock, by taking laudanum. The following letter, addressed to Mrs. Wm. Watts, No. 112 East Sixteenth street, New York, was found in his state room:

"SAN FRANCISCO, June 18, 1876.

"*Dear Mother:*

"When this reaches you I shall be dead. You know so well why it must be so, that I will not even try to explain. My darling mother, my heart is breaking. Good bye.

(Signed) "CUNNINGHAM."

Young Watts had been away from his home several months, having made the journey via Cape Horn to this port, and subsequently from San Francisco to China and return. He returned only a few days ago, very much depressed in spirits.

Bluford Wilson Resigns.

LOUISVILLE, June 19.—Bluford Wilson, Solicitor of the Treasury, will make known his resignation in a few days. Mr. Wilson left Louisville for Washington on Saturday night last, and before going stated positively that he would immediately tender his resignation.

THE CALDWELL DISPATCH.

The Efforts Made to Prove it to be Not Genuine.

PHILADELPHIA, June 19.—A Washington special to the *Evening Telegraph* says: It can be stated on unquestionable authority that the cable telegram purporting to have been sent by Mr. Caldwell from London was never seen by him, although it was actually sent from London with his name as the signature. It is not certain that the thing started from New York, but it is pretty certain that it passed over the wires from New York, having been started from that city or from some point between New York and Washington, either Baltimore or Philadelphia. It was embraced in a cable telegram sent from the starting point on this side of the Atlantic to an assumed address in London, which had been agreed upon previously, probably through the agency of the cable, and the exact words were then sent back to this country by the confederate in London in pursuance of the instructions he had received.

WASHINGTON, June 19.—The following dispatches were produced to-day before the Committee on Judiciary by Mr. Hicks, cable clerk of the New York Western Union Telegraph office. The first dispatch is from A. P. Robinson, a former chief engineer of the Fort Smith & Little Rock road, and is as follows:

"WASHINGTON, D. C., May 26.

"*To Josiah Caldwell, 115 Common st., London, Eng.:*

"See Scott's testimony in papers of the 16th. Telegraph Scott at Philadelphia, as you truthfully can, the strongest endorsement of his statement.

"A. P. ROBINSON."

[TELEGRAM NO. 2.]

"JUNE 1, 1876.

'*Josiah Caldwell, Tunbridge Wells, England:*

"Don't permit newspaper men and others to interview you."

[TELEGRAM NO. 3.]

JUNE 7, 1876.

"*Josiah Caldwell, Tunbridge Wells, London:*

"If false, authorize me to deny you paid Blaine. SICKLES.

"St. James' Hotel, care Mr. Denickla."

The above dispatch brought out Caldwell's reply to Sickles.

[TELEGRAM NO. 4.]

(Received at the Western Union Building, Broadway and Dey street, May 31, 1876.)

"*Josiah Caldwell, Cannon street, London:*

"Thanks for your cable confirming all my statements. SCOTT."

[TELEGRAM NO. 5.]

(Received at Western Union building, Broadway and Dey streets, May 21, 1876.)

"*Favo, London:*

"Dispatch received. Cable this immediately to the Chairman of the House Judiciary Committee, Washington: 'Have just read Scott's evidence about our bond transaction in New York papers, and fully corroborate it. I never gave Blaine any Little Rock bonds, directly or otherwise. Am now building three European railroads, and cannot leave without great pecuniary loss, or would gladly voluntarily come home and testify. Can make affidavit to that effect to mail it if desired.' (Not signed.)

"PHILADELPHIA."

[TELEGRAM NO. 6.]

(Received at Western Union Building, Broadway and Dey sts., May 30, 1876.)

"*Favo, London:*

"Cable nobody excepting Scott.

"PHILADELPHIA."

The testimony of Hicks was mainly in explanation of the operator's marks on the above dispatches produced by him. The only important point in it was that the word "Favo" was the registered address of Josiah Caldwell in London. He knew it from the fact that the office was so not fied by an office dispatch from the other side. He could not give the date of that notification, but he thought it was somewhere about the 24th of May last.

Caldwell to Blaine.

WASHINGTON, June 19.—Mr. Blaine received by mail this morning a letter from Josiah Caldwell, of which the following is a copy. It authenticates the cablegram received by the Judiciary Committee:

"No. 115 CANNON STREET, LONDON, E. C., 8th June, 1876.

"*Hon. J. G. Blaine, Dear Sir:*

"I read in the New York papers of the 16th ult. Col. Scott's evidence before the Congressional Committee, and I at once cabled him as follows: Thomas A. Scott, Philadelphia—Your statement before the Congressional Committee on the 15th, relating to Ft. Smith Railway bonds which you purchased of me, is perfectly correct. I can more fully substantiate if necessary.' I have also cabled to the Chairman of the Judiciary Committee as follows: 'Have just read in the New York papers Scott's evidence about our bond transactions, and can fully corroborate it. I never gave Blaine any Fort Smith Railway bonds, directly or otherwise. I have three foreign railway contracts upon my hands, which makes it impossible for me to leave without great pecuniary loss, or I would gladly voluntarily come home and so testify. Can make affidavit to this effect and mail it if desired.' I am sorry that I am not able to go personally before the committee and give my testimony, but I presume that Colonel Scott's evidence will be sufficient to prove that you had nothing to do with the transaction in question. If you wish for any further testimony or affidavit from me to prove the facts as cabled to the committee, I shall be glad to forward it under oath. The charges are so void of foundation that I have no fear of their doing you any permanent injury, and I hope your persecutors will be able to show as clear a record as yours in connection with the Little Rock and Fort Smith railway.

"Yours faithfully,

"JOSIAH CALDWELL."

Decision in the New York Canal Suit.

ALBANY, June 19.—In the canal suit of the people vs. W. C. Stevens, Thomas Gale and others, Judge Westbrook, of the Supreme Court, has given a decision, non-suiting the State, upon two grounds: First, the action is barred by a former judgment of the Supreme Court rendered in an action in which the same plaintiffs were parties; second, the officers of the State and Legislature thereof having, with the full knowledge of the alleged unlawful combination by which the price fixed in the contract was secured, ordered and required the performance thereof, the State is in no situation to recover damages by acts which itself, through its officers and Legislature, directed and required.

OUR PETROLEUM LETTER.

Review of the Market—Dull and Inactive—The New Warren Oil Field.

Special Correspondence to the Pittsburgh Gazette.

OIL CITY, June 17, 1876.

There has been a trifle more animation in the crude petroleum markets in the producing districts this week than last, though the amount of business done has been decidedly small in comparison with what it should have been under ordinary circumstances. The restricted demand from shippers and the general inactivity of the trade seems to prevent any decisive upward movement, and the almost unprecedented innate strength which the market seems to possess also prevents a decline. Wednesday a little upward movement was inaugurated, and for a time it looked as though the turning point had been reached. The price of United spot advanced rapidly from $1.98¾ to $2.05, with only a few sales. For three days, Wednesday, Thursday and Friday, the price remained above $2, but Saturday a reaction took place and there was a decline to $1.97½ again, with a subsequent recovery to $1.98¼, which is the closing quotation of the week. The sudden check to the advance is attributable to the striking of the Bell well, in Warren, which commenced flowing at the rate of 200 barrels per diem. This well is in new territory, and the prevailing supposition is that it opens a section of undeveloped territory which will prove so prolific as to affect the market quite perceptibly. This Warren oil field has been something of a mystery for some time, but now it is feared that it may prove so productive as to create a good deal of trouble among the holders of two-dollar oil. A little more than a year ago David Beatty completed the first test well in that district, the producing capacity of which was never made known to the public, though the most strenuous exertions were made to ascertain it. When the well was struck it made a few fine blows, but the owner, Mr. Beatty, being at the time a holder of large quantities of oil, shut down the well and forbade any one entering the enclosure which enclosed it. This naturally caused other parties to surmise that he wished to keep the prolific qualities of the territory a secret until he should dispose of the oil he had in stock, and they accordingly determined to find out for themselves. Other wells were soon started and several have been completed since, but none of them so large as the Bell, the one completed this week. The new well has gradually declined, and at this writing is doing only 125 barrels per day. Beatty also has a well in the sand which is flowing at the rate of 40 barrels per day, and still drilling. In the other districts there has been nothing in the producing line that would affect the market very materially, about the usual number of small wells having been completed.

The following table exhibits in the successive columns the opening, highest and closing quotations for United spot for each day of the week:

Monday	$1.97½	$1.97½	$1.96½
Tuesday	1.97⅞	1.98¾	1.98¾
Wednesday	1.98¾	2.05	2.05
Thursday	2.05	2.05	2.01½
Friday	1.98¾	2.00	2.00
Saturday	1.98¾	1.98¾	1.98¼

Shipment remains steady. River delivery could be quoted nominal at $2.22½, and the other deliveries somewhat below.

RATIFICATION MEETINGS.

A Large and Enthusiastic Gathering in Washington.

A Rousing Speech by Ex-Speaker Blaine.

A Monster Meeting in St. Louis.

WASHINGTON, June 19.—There was an immense mass meeting held in this city to-night to ratify the Cincinnati nominations. The meeting was voted as the largest that has occurred in this city since the war. Prominent men on the platform were President Grant, Senators Sherman, Morton, Frelinghuysen and Oglesby, Secretary Chandler, the Attorney General, Treasurer New, General Butler, Rev. Dr. Newman, and very many other prominent persons. The meeting was presided over by Senator Logan. Speeches were made by Senators Sherman, Morton, Frelinghuysen and Oglesby, Attorney General Taft and General Butler. The speakers all gave unbounded approbation to the nominations. Senator Morton was the only one of those present who was a candidate for the nomination. Letters were read from Governor Jewell, Senator Conkling and Secretary Bristow, expressing their hearty approval of the nominations and their determination to give the ticket their support.

General Butler said he desired to repel a slander upon Massachusetts at the convention. One of the delegates said they would only vote for one man. He would say they give a majority for any man nominated at the convention. The speakers generally alluded to their principles in favor of hard money, and General Butler said they could not stop to quarrel over minor questions of policy. He might differ from some of his political friends on some of the questions, but he was chained to the oar, and must pull in the boat until every negro in the South can sleep in his cabin as well protected as he (the speaker) could in Massachusetts.

Attorney General Taft alluded to his personal knowledge of Gov. Hayes, his political principles, etc., and commented upon the principles of the Republican party. He concluded with saying: "Popular education is the hope of the republic. I trust that the time be not far distant when all people will acquiesce in sustaining the common schools, and when they who would ask a division of the school fund will yield to the genius of Republicanism, and be satisfied to give religious instruction and enjoy religious worship in the family and in the church, while the State, with a sovereign impartiality, shall perform its great duty of making education universal through the best system of common schools the world ever saw."

After the adjournment of the meeting the crowd proceeded to the residence of Mr. Blaine, who was received with the most intense manifestations of favor. He addressed the assemblage as follows:

Mr. Blaine's Speech.

Fellow Republicans: The condition of my health forbids that I should address you at length, and I fear my voice may fail to reach any considerable portion of the large crowd to whom I am so much indebted for the compliment of this call. Let me say, in brief, that I heartily join with you in ratifying the nominations of Hayes and Wheeler. I know both candidates, and have known them long. They are true and tried, honest and competent, strong and popular. I do not believe it was possible for a National Convention to present a more acceptable ticket to the great mass of the American voters, and I have no doubt of its triumphant election in November. To that great result your efforts and mine will, I am sure, be devoted with the most earnest zeal. If I may be permitted to refer to the connection of my own name with the Republican nomination, let me say, gentlemen, that I look back upon it with pride and satisfaction, with not one tinge of regret at the final result. I owe much to the true friends who so faithfully supported me, and I am sure that I do not entertain the slightest feeling of unkindness towards those who opposed me. I hope I can go further, and say that out of all the fierce conflicts within the past half year I do not this moment cherish a trace of ill-will or uncharitable feeling towards any political rival or any political opponent. Let us look forward hopefully to the future for the peace and prosperity of the American people, wisely guarded by a Republican administration of the Government, which shall be just to all sections and all citizens of our own common country. Thanking you again, gentlemen, for the honor of your call, I bid you a cordial good night.

A Monster Meeting at St. Louis.

ST. LOUIS, June 19.—The Republicans held a monster ratification meeting in Lucas market space to-night. The space was literally packed with crowds that could not have numbered less than five or six thousand. Speeches were made by ex-Senator J. B. Henderson and D. T. Jewell, ex-Congressman Geo. A. Finkelberg, District Attorney Dyer, Postmaster Filley, several gentleman from interior counties, and Mr. Clendin, of Arkansas, all of whom heartily endorsed the Cincinnati nominees and predicted their election in November. Finkelberg, who for a long time past has acted with the Liberatels, said: "The Republican party has given us a ticket which deserves the cordial support of every Republican in the country, and the platform is broad enough for every patriot in the land to stand upon. He heartily endorsed them both, and felt sure of their triumph at the polls."

Gen. Henderson said he was personally acquainted with Hayes and Wheeler, knew them to be true and able men, and representatives of the highest Republican principles should support them cordially, and believed their triumph certain.

Colonel Dyer, who was a strong Bristow man before the nomination, and worked hard for his nomination, accepted the nominees most cordially, and should labor for their election. He believed they would be elected, and that the administration of the Government would be pure and able. He said the action of the Cincinnati Convention means unity of the Republican party, and unity means victory.

It was expected that General Schurz would be present and speak, but General Shields, chairman of the meeting, stated that gentleman was called East from Cincinnati. He would soon be heard in support of the ticket. The spirit of the meeting was fair, but not enthusiastic. The pyrotechnic display was very beautiful and the whole passed off with considerable *eclat*.

GOVERNORSHIP OF OHIO.

The Question Whether Gov. Hayes Will Resign the Present Office—Desire of the Republicans of the State That He Should Not—A New Election Necessary If He Does.

CINCINNATI, June 19.—Whether or not Gov. Hayes will resign the Governorship of Ohio at once has already become a question of much interest with the Republicans of the State. The habit of the Governor has been, when a candidate for one office, to immediately resign whatever other one he might happen to hold, and if he followed his own inclinations he would undoubtedly do so in this present case; but if he should do so, under the law of the State there would necessarily be an election for Governor in October, for it is provided that if the office of Governor becomes vacant for any reason thirty days before the day of the State election it shall be filled at that time by popular suffrage. The Republicans do not want the embarrassment which would be caused by the election of a Governor this year, and are already seeking to convince Gov. Hayes that it is his duty to retain his present office until late in September, so that Lieut. Gov. Thomas L. Young can legally succeed to the position and hold it until the expiration of the term for which Gov. Hayes was elected. The Governor has not given any indication of his determination in the matter, but his intimate friends say that he will accede to the wishes and not resign the present place until the time indicated.

TROUBLES IN THE SOUTH.

Negroes Following the Example of the Whites—One Man Killed for Opinion's Sake.

BATON ROUGE, June 19.—A riot occurred at Mount Pleasant, near Port Gibson, on Saturday. The negroes, following the example of the whites, organized a band of regulators, and ordered a Democratic negro to leave the place. Refusing to leave, he was attacked by the regulators and killed. A constable and posse attempted to arrest the murderers, but were driven off. The Sheriff of Baton Rouge, with a posse, went to Mt. Pleasant on Sunday and captured fourteen negroes, including the murderers. A party of armed negroes passed Baton Rouge on the opposite side of the river, going towards Blaquemine. When they reached Brusle Landing they were disarmed by the whites. The Sheriff's posse making the arrest at Mt. Pleasant report being fired upon by negroes. Two of them were wounded and two horses were killed.

NEWS FROM FOREIGN LANDS.

The Freshest Gleanings from the Old World.

The Present Attitude of the Eastern Question.

LONDON, June 19.—The Paris correspondent of the *Times*, in a letter reviewing the present attitude of the Eastern question, concludes as follows:

The Czar yesterday, in taking leave of a lady who wished him a good journey, replied with undisguised satisfaction: "I hope I shall spend more tranquil days at Jugenheim than those I have passed at Ems." Such a remark as this is tantamount to a specified premise, and it may be inferred that the European powers are determined to remain spectators of what passes between Turkey and her subjects and vassals. This does not mean that the pacification of Turkey is an accomplished fact, or that we are on the eve of its being effected. The insurgents do not seem disposed to lay down their arms, nor Montenegro and Servia to abandon their pretension of annexing, the one Herzegovina and the other Bosnia, with the consent of Turkey herself. But what is known to-day appears to indicate that the European powers will support the insurgents and their neighbors, though none will endeavor to thwart their designs, and when the insurgents and the Porte come face to face and Europe is seen to remain a spectator, this insurrection will perhaps finish as it began, that is, without anybody knowing the reason why. At the present moment everybody, particularly the six powers, are convinced that the peace will not be disturbed beyond the frontiers of Turkey.

The Louisville Forger.

Application was made to-day before the Court of Queen's bench for the discharge of Charles Brent, the Louisville forger. The Attorney General offered no opposition to his release, but made a statement in relation to the case. The Court accordingly granted an order for the prisoner's release.

Fires in Russia.

MOSCOW, June 19.—A fire here last night destroyed over fifty houses. The loss is large. Three-fourths of the town of Kadschory, in Caucasus, including Bazoar, was burned on Saturday.

The Late Riots at Barbadoes.

LONDON, June 19.—The Bishop and Archdeacon of Barbadoes and thirty-four clergymen, constituting the entire body of the Barbadoes clergy, and four Moravian missionaries, have signed a statement for presentation to Earl Carnarvon, Colonial Minister, detailing the outrageous character of the late riots on that island. They say the riots were not caused by any suffering, but by a general impression among the negroes that the land and property of the planters would be divided among them, with the Governor's consent. They state that they cannot tell how this impression was created, but it was undoubtedly general, and the belief is still very general that all this property has been awarded to the negroes by the Queen at the Governor's instance, and is being wrongfully withheld from them. Consequently the feeling against all property owners is intensely bitter and hostile, and it will require firmness and judgment on the part of the authorities to remove this impression, even if it is removable during the present generation.

Explosion of Coal Gas.

LONDON, June 19.—An explosion of coal gas to-day on board the ship Atlanta for Hong Kong, while in Penarth docks, at Cardiff, killed six men and injured several. The vessel was seriously damaged.

Business Suspension.

Kenaway & Rees, grain merchants, of Cardiff, have suspended. Their liabilities are one million dollars.

Rowing Race on the Thames.

A match rowing race for $500 a side took place to-day on the Thames, from Putney to Mortlake, between Henry Thomas, of Hammersmith, and Thomas Muship, of New Castle. Thomas, the favorite in the start, won the race in 24 minutes and 32 seconds.

Detention of Englishmen by Peru.

LONDON, June 19.—In the House of Commons to-night Bourke, Under Secretary of the Foreign Department, stated that Lord Derby had recently written to the Peruvian Minister in regard to the continued detention of the Captain and mate of the Talisman, as follows: "I have remonstrated in the strongest manner in the name of Her Majesty's Government against the continued detention of the prisoners and the unfriendly conduct of the Peruvian Government. Unless the matter is brought to a speedy termination it is impossible that the friendly relations can continue." To this the Peruvian Minister replied, recapitulating the facts in the case, and defending the conduct of Peru, but not really altering the situation. Bourke said, in conclusion: "It appears to the Government that the further detention of the prisoners is unjustifiable, and we consider it our duty to request their immediate release." This declaration was received by the House with loud cheers.

Difference of Opinion in the Turkish Cabinet.

CONSTANTINOPLE, June 19.—The Ministers of the Sultan differ among themselves on the question of creating a National Assembly, and the constitution which was promised will probably be indefinitely postponed.

Turkish Excesses in Jerusalem.

LONDON, June 20.—The *Prussian Cross Gazette* publishes a private letter from Jerusalem, which says great excitement and anxiety prevail there in consequence of the excesses of the Turkish authorities and the threatened rising of the populace. On the 2nd of June the Christians, fearing an attack, barricaded their houses, and foreign residents kept an armed watch throughout the night. The Germans met at their Consulate, organized for their mutual defense, and sent to their home Government a formal application for military assistance. The Turkish soldiers have since permanently encamped in the public square.

Agitation in Constantinople.

A Berlin dispatch says accounts received from all sources are full of apprehension of further violence, and perhaps a general rising in Constantinople.

Ministerial Crisis in Spain.

LONDON, June 20.—A special from Madrid says there are rumors of a Ministerial crisis in consequence of a disagreement between Minister Salaverria and the Budget Committee in regard to the two per cent. increase in the land tax. The *Imparcial* thinks it probable that Senor Salaverria will resign.

TREASURY RESIGNATIONS.

The Chief Clerk of the Treasury Resigns—Treasurer New to Retire at the End of the Present Fiscal Year—The Correspondence Between Secretary Bristow and the President.

WASHINGTON, June 19.—Wilson, Chief Clerk of the Treasury Department, to-day tendered his resignation, to take effect on the 1st of July.

For a long time it has been known that Mr. New, Treasurer, has remained in his position at the request of Mr. Bristow and others, and there is now good reason to assert that he will certainly resign by the end of the present fiscal year.

The correspondence between Bristow and the President on the occasion of Bristow's resignation has not been given to the press for publication. The formal reply of the President to the Secretary's letter of Saturday was written to-day. The correspondence, it is understood, is brief, and contains the usual formal expressions on communications of this character, Mr. Bristow saying in his letter that he hereby tendered his resignation, to take effect on the 20th inst., and thanked the President for the honor of the appointment he had confered upon him, also stating his desire to give attention to private affairs. The President accepts the resignation, with expressions of a hope that in his retirement from public office the Secretary will find that rest which he could not have in his present position, and desiring that the personal relations between them shall remain in their present pleasant attitude.

WAR ON THE CHINESE.

A Chinese Cabin at Truckee, Cal., Fired, and Two of the Inmates Shot.

SAN FRANCISCO, June 19.—A dispatch from Truckee says: Last night a number of men, supposed to belong to the Circassian League, set fire to a Chinese cabin occupied by three Chinamen, about a mile north of this place. As the Chinamen ran out of the cabin they were fired upon by the mob, one being killed instantly and another seriously wounded. About forty shots are reported to have been fired.

Pennsylvania Transportation Co. vs. Oil Creek R. R. Co.

CLEVELAND, June 19.—In the case of the Pennsylvania Transportation Company against the Oil Creek Railroad Company, which was tried in May last in the Common Pleas Court of Crawford county, Pennsylvania, for $197,285, and which was decided in favor of the plantiff, the question was raised as to wether the contract sued upon was in the powers of the contracting parties, which point was reserved by the Court for future adjudication. To-day Hon. W. H. Lowrie, presiding Judge, read an opinion, wherein he affirmed the validity and legality of the contract, and directed final judgment to be entered for the plaintiff for the full amount of the verdict.

THE APPROPRIATION BILLS.

Probability of Stopping the Wheels of Government—Belief that Delay in Passing the Bills is for a Purpose—What the President Will Do in an Emergency.

WASHINGTON, June 18.—The debate in the House on Saturday afternoon furnished a pretty clear indication that a dead-lock between the two Houses upon the Appropriation bills is certain, and that neither of the political parties is likely speedily to give way. Mr. Kasson and Mr. Hurlbut showed how indefensible the position of the Democrats is as regards these bills. They clearly proved that for demigogical purposes the Democrats have deliberately set to work to cripple the Government, and, while they constitute a majority in one branch of the Government, set at defiance the two other branches. The President has very clearly defined his position in the message which he sent to the House late on Saturday afternoon, in which he notifies the Democrats that if the appropriation bills are not passed and signed by June 30, next, or the unexpired balances made available until the appropriation bills are passed, the entire machinery of the Government will be suspended. It will then be impossible to send a letter, to manage the Postoffice, to move a ship, to transport a soldier, or to pay a salary in the Government service.

Private information shows that the President will be quite as good as his word, and that if the Democrats continue in their obstinate course the entire machinery of the Government will probably be suspended by July 1st next. There remains now of the fiscal year less than two weeks. Meanwhile the St. Louis Convention will meet, which will probably be attended by a very considerable portion of the House Democrats. As the situation looks at present, it does not seem possible for the House to pass the appropriation bills before the end of the fical year.

THE FIRE RECORD.

A $100,000 Conflagration at White Elephant Depot, N. Y.

NEW YORK, June 19.—A dispatch from Hudson, N. Y., reports that the White Elephant depot, N. Y., and four hundred loaded cars were burned last night. The fire originated on the propeller John Taylor, which was burned, with two canal boats. The loss is estimated at $400,000.

Three Persons Burned to Death.

DETROIT, MICH., June 19.—A fire at Port Sanilac, Mich., on Saturday night destroyed the dwelling of Levi French. His wife and two children perished in the flames before assistance could be rendered. Mr. French was absent, and knew nothing of the sad event until it was over.

Inundations in Tennessee.

KNOXVILLE, TENN., June 19.—Almost the entire crop on French Broad River has been destroyed by the recent freshet. There was twenty feet of a rise up to midnight last night, but it is falling rapidly this morning. The fields and islands are entirely submerged from five to ten feet. Some of the farmers will replant corn. Below Knoxville the farmers will lose about one-fourth of the crop. There is very slight damage on the Halston river.

Indianians Ratify.

INDIANAPOLIS, June 19.—The Republicans ratified the Cincinnati nominations by a mass meeting at the Academy of Music, at which Governor Baker presided. Addresses were made by Generals Coburn, Kimball, Harmon, Hons. J. W. Corden, D. E. Williamson, A. G. Porter, and others.

TUESDAY, JUNE 20, 1876.

REPUBLICAN NATIONAL TICKET.

FOR PRESIDENT,
RUTHERFORD B. HAYES,
OF OHIO.

FOR VICE PRESIDENT,
WILLIAM A. WHEELER,
OF NEW YORK.

PETROLEUM at Antwerp 28¾.

BONDS at Frankfort, new 5s, 102¼.

GOLD closed in New York yesterday at 112¼.

THEY profess to have discovered that the CALDWELL telegram was sent from this country to London and then sent back. Its authenticity has been questioned, and the hunt has been steadily kept up to find its authorship.

THE English Government is proceeding on the rule of releasing all prisoners claimed by this country, under the extradition treaty. BRENT, the forger, was released yesterday, and the treaty is evidently regarded as a dead letter by the English Government.

BRISTOW goes out of office to-day, irrespective of the appointment of a successor. The positiveness of his purpose carries with it the question whether there is not something more than private business involved in the resignation. Be that as it may, rumor attaches to DON CAMERON as his probable successor.

THE Czar of Russia has left Ems in a very uncomfortable frame of mind. He is of the opinion that while peace will be maintained in Europe generally, it is not so sure in Turkey and her provinces. The annoyances of disagreeable political discussion have been keenly felt, and he has gone to another watering place for the sake of quiet. The opinion is prevalent in Europe that the Turkish provinces will achieve their independence, if not interfered with by the Great Powers.

THE assassination of two of the principal ministers of the government at Constantinople, although accomplished by a crazy fanatic, smarting under some fancied injury, is regarded as likely to exert a very serious influence upon the superstitious Softas and Mussulmen generally. It casts a cloud of disaster over the formation of the new government, and may be accepted as an omen of misfortune. Aside from the influence of this character, it is also very doubtful if others as experienced and liberal in their views can be readily secured to fill the high positions so tragically vacated. It thus constitutes, altogether, a very unfortunate beginning for the new government. The new Sultan evidently has serious work before him, and will be fortunate if he manages to successfully organize his government and get clear of existing complications.

THE *Leader* claims that the break over of four BLAINE men, united to the decision of Chairman MCPHERSON's ruling, justified the after-abandonment of the unit rule by CAMERON and friends. In another article we refer to the difference between Mr. MCPHERSON's ruling as Chairman of the National Convention, and the binding force of the caucus agreement. Our point is, not that one or the other of the two parties did right, but that the wrong-doing of four men did not justify twenty-eight others in breaking their pledge. More than this, their final action merely evidenced an original intention, not at all affected by the foolish bolt of the four, to deliver the State against BLAINE. We have a knowledge that this intention existed, and would have been carried into effect all the same, whether the bolt of the four had occurred or not. As we elsewhere say, we have no apologies to offer for the bolt of the four that made the excuse possible, but we do not for a moment believe that, had all of BLAINE's friends stood firm, it would have effected anything to prevent the final breaking of the unit rule. That was determined upon.

THERE is considerable discussion as to the right of Mr. MCPHERSON, as Chairman of the National Convention, to decide that the unit rule should not be binding in a National Convention, and the declaration is made that his decision on the subject was the occasion of the effort to kill BLAINE. The proper bearing of this question on the case under mention can be readily stated. So long as the issue was confined to the delegation, and the members were bound by it, no one had the right to dispute the action taken by the delegation. We are perfectly free to say that, under the rule of the caucus at Cincinnati, we think the several members of our delegation were morally bound to observe the unit rule, in good faith, till some other determination was reached in regular consultation. We do not feel called upon to excuse or palliate the conduct of those who did not keep faith with the delegation, yet who voted for BLAINE. But we insist that their misconduct does not for a moment palliate the grosser misconduct of those who sought to kill BLAINE. The unit rule, as adopted in caucus and thus made morally binding, and the same rule as brought before the open Convention for recognition and enforcement, are two different things. What the caucus might do, the Convention, if it followed established precedents, could not do. At the second National Convention of the Republican party, in which Mr. LINCOLN was nominated, this precedent was made,—that every delegate has the right to vote as he desires, and cannot be bound by the unit rule. As Mr. HALE showed, the same precedent was repeated in 1868. Thus Mr. MCPHERSON simply followed the precedents in the case, in ruling that a delegate has the right to control the casting of his ballot. There was no partisanship whatever in his ruling. He was simply compelled as an honest man to rule as he did. We stated these points, in an article on the "Unit Rule," before the Convention assembled. There was, therefore, nothing in Mr. MCPHERSON's ruling that afforded the slightest excuse for the refusal at the last, to apply the unit rule in favor of BLAINE. The action taken by the leaders, was only in accord with their persuasions to stand up to their leader, even in his hostility to BLAINE. We state these points, clearly and plainly, in order that the fallacy of the apologetic reasoning on the subject may be fully exposed.

WHAT IS THOUGHT.

We have expressed our views of the shameful sell out of this State. The Philadelphia *Press* adds its comment in the following terms: "Poor, betrayed Pennsylvania was dragged into the arena, and set upon the brave young statesman, while her proud people stood aloof and saw their delegates forced to hiss the old Commonwealth to this deed of shame. These men have done their worst, and if there is any consolation to the people of this State especially, it is that in their banded crusade on BLAINE they were not able to find an instrument in Governor HAYES, of Ohio, the Republican candidate for President. He profits by their conspiracy, it is true, but he will not fail to take note of the manner in which they broke down the choice of the Republican party of the nation to gratify their unreasonable ambition—first singly, and then by throwing their whole force against him. Had BLAINE been nominated Pennsylvania would have rung with grateful responses. As it is, even the respected name of Governor HAYES failed at first to awaken even the slightest enthusiasm; and while our people last night retired to their beds satisfied with him, they were thoroughly convinced that they were deprived of their favorite by the lowest arts of conniving politicians. The character of our betrayal is palpably understood."

OUR TICKET.

Amid the pressure of other matters, we have not given the attention to the nominations made at Cincinnati that they deserve. Our news columns have detailed the political histories of the two candidates, and we do not, therefore need to dwell upon these. Our readers may readily gather, from what has appeared, that the ticket is full of merit, and without defect. None of the mistreatment of BLAINE can be charged against the present candidates,—and hence, of all others, the candidates nominated can be best accepted as fully meeting the necessities of the hour. The quiet, home life of Governor HAYES. has prevented the American people from closely inspecting, or clearly analyzing his character, or grading his ability. That he was singularly popular in his own State was known, but the exact basis of that popularity was not clearly understood. He has been, for years, the leader of the forlorn hope in that State, and has never known defeat. The pride and boast of the Democracy in Ohio have fallen before him. PENDLETON, THURMAN and ALLEN, have all succumbed,—the latter after one of the most tremendous State contests on record. The modesty of Governor HAYES is shown by the fact that despite his opportunities for political capital he was chiefly known within the bounds of his own State. There his popularity rests on the basis of a strong and pure character. A church communicant, he is ever in his place at the services of his church, while his means are liberally employed in works of benevolence. Undemonstrative, yet approachable, he carries with him a quiet influence, at all times agreeable. He has filled the office of Governor so dignifiedly and acceptably that there is not a particle of fear that he will not be equal to the Presidency. On the contrary, his great canvass, last year, involved the leading issues of the Presidential canvass—the Finance and non-sectarian School issues. In the heated debate over these he took an active part, displaying ripeness of thought, and clear and statesmanlike perceptions. It need not, therefore, be feared that he will prove a mere figure head, but, on the contrary, will be fully equal to the demands of the high position to which he will be elected. In character and life, he stands irreproachable, while in ability and experience he is amply qualified—and hence worthy the fullest support of the Republican party.

It may be said of Mr. WHEELER, that he is a self-made man, of the broadest and strongest common sense, and of the class that are forced into public life, because of their eminent fitness for it. Bred a lawyer, his preferences have been for his profession, and the quietude of private life. The unsolicited demands of his people forced him into official positions,—first of all as Attorney General, where his vigorous work was of great benefit; then into the Legislature, where, in the Senate, he became Speaker *pro tem.*, then into Congress,—and during an intermediate period in his Congressional career, a member of the Constitutional Convention of New York, over which he presided as Chairman. His latest well known deed was the Louisiana compromise, by which the troubles in that State were equitably settled. His views are broad and statesmanlike, and a robust common sense is always characteristic of him. He is also possessed of a humorous tendency, which lightens up his conversation and speeches. In experience, observation, and scope of mind, he is amply qualified for the high position to which he is nominated; while his presence on the ticket will greatly increase its strength in New York. He was our first choice for the Vice Presidency, and we are abundantly gratified that he was nominated.

Of the election of this ticket we have no doubt. The measure of effort that will be required will be governed, to some extent, by the action of the Democracy at St. Louis. But even with their most formidable combination, we regard the election of our ticket as certain. The Democratic party was unfortunate in that it gained partial power two years ago. That power has been so shamefully prostituted and misused, that there is far more eagerness on the part of the people to displace them than there ever was to give them office. They have utterly failed to redeem their pledges. Where they promised bread they have given a stone, and where they offered a fish they have given a serpent. All political, commercial and labor wrongs were to be rectified,—and the Resumption act stands unrepealed. The tone of political morals was to be lifted up,—and we have had, in place of it, a search after the lowest depths of political infamy, and an unparalleled season of malicious mud-throwing. An era of peace and fraternity was promised, and we have had the worst phases of the old rebellious spirit wolfishly snapping at loyal men. Industry and economy were to be had,—and not a single act of beneficent legislation has been passed. Thus with a grand opportunity before it, the Democratic party, entrusted with power, simply fell back into worship and subservience before its southern demi-god,—the spirit of barbarism and slavery. With this fearful record upon it, the country is appealed to. We could not wish it a more unfortunate position, as regards the chance of defeat.

The duty of the Republican party is at once to rally to the support of its candidates. Let there be no weakening along the lines. There should be ratification meetings at every point, and expression should be given to the fact that we recognize in the ticket leaders worthy to stand at the head of the embattled hosts of the Republican party. We should at once announce our determination to stand bravely by the ticket, until it shall be triumphant. If we do this we have no doubt of the result, and our judgment is that the party, in all its branches, will rally and consolidate, and that HAYES and WHEELER will stand in the forefront with victory on their banners when the battle is over.

WHO THEY ARE.

ALLEGHENY, June 19, 1876.
To the Editors of the Pittsburgh Gazette:

Can you give the vote of the Pennsylvania delegation? Can you tell us who are the *twenty-eight*, and who are the *thirty?* We want to know exactly how the two young men, who lately emigrated to Allegheny, the one to run for Congress and the other for State Senator, voted on the last ballot. It seems to us that they had better re-emigrate to some other part, for their chances are very slim over here. We have far better men for both positions who are not led by Don Cameron and Bob Mackey. Answer, if you can. We want to know.
MANY REPUBLICANS.

We have written to Hon. Ed. McPherson, Chairman of the Convention, for a correct list of the Pennsylvania vote on the seventh ballot, and we will take pleasure in publishing them, with some comments. ED.

Mr. Moore's Tactics.

To the Editors of the Pittsburgh Gazette:

To lament the defeat of Blaine now would only be crying over spilled milk; but it is not too late to speak of the men who, being sent as delegates for Blaine, flagrantly violated their constituents' wishes, and aided in the defeat of the people's choice.

Washington, Blaine's native county, selected as their delegate Hon. W. S. Moore, a classmate and friend of Blaine's, believing that if any man would be true, Moore was the man. Lawrence county of the same Congressional District chose Hon. J. W. Wallace, also a Blaine man. The State Convention came on, and when it was known that Mr. Wallace was a Blaine man at heart, surprising to say the ring leaders put him off and sent Blaine's classmate to Cincinnati. This was looked upon with suspicion. The result is as follows: Mr. Moore became a candidate for Congress in Washington county. To secure Beaver was indispensible to success. All at once Dr. Shurlock was announced in Beaver county. The Cincinnati Convention came on, and lo! Mr. Moore, assuming the disguise of a Hartranft man, kept his vote from Mr. Blaine until he knew that his classmate's chances for the nomination were over and then came only to cast his vote away. It is reported on good authority that Mr. Moore, in case Dr. Shurlock succeeds, is to have Beaver county, thus securing his nomination for Congress at the expense of a violation of his constituents' wishes. Although Mr. Moore had no opposition on Saturday at the Washington primaries, the whole county was inclined to go against him, and if nominated he will have an uphill road to election, as Washington county will not stand by any one who thus went to Cincinnati only to misrepresent her voters.
GAMMA.

THE OLD LANDMARKS.

Associations of the Revolution—Address by Mr. Wendell Phillips.

Mr. Wendell Phillips made a stirring appeal at the meeting in Boston on Wednesday evening for the preservation of the Old South Church. Among other things he said:

"Once, a hundred years ago, our fathers announced this sublime, and, as it seemed then, audacious declaration, that God intended all men to be free and equal—all men without restriction, without qualification, without limit. A hundred years have rolled away almost since that great announcement, and to-day, with a territory that makes ocean kiss ocean, with 40,000,000 of people, with two wars behind her, with the sublime achievement of having grappled with the terrible disease that threatened its central life and put every fetter under its foot, the great Republic launches into the second century of its existence. (Applause.) The history of the world has no such chapter of its breadth, its depth, its significance, or its bearing on future history. Well may we claim that this Centennial year is the baptism of the human race into a new hope for humanity. And we are not entitled, then, going with the sheaves of such a harvest in our hands, to say to the world, 'Behold the blessing of God on the right faith in the human race!' Well, gentlemen, if that is sober prose, without one tittle of exaggeration, without one fond conceit borrowed from our kindred with the actors of our birthplace in these parts—if that is the sober record—with how much pride, with what a thrill, with what tender and loyal reverence, may we not hunt up and cherish and save from change of desecration the spots where the marvellous attempts began—the roof where its first councils were held—where the air still trembles and burns with Otis and Sam Adams? Is there any more grand and majestic place on the face of the earth than the cradle of such a change? Athens has her Necropolis, but the Greek can point to no such immediate results. London has her Palace and Tower and her St. Stephen's Chapel, but the human race owes her no such memories. France has spots marked by the sublimest devotion, but the pilgrimage and the Mecca of the man who believes and hopes for the human race is not to Paris; it is to the seaboard cities of the great republic. And, when the flag was assailed, when the merchant waked up from his gain and the scholar from his studies, and the regiments marched one by one through the streets, which were the pavements that thrilled under their footsteps? What were the walls that they saluted as the regimental flags floated by to Gettysburg and Antietam? These! The boys carried down to the battle-fields the memory of State street and Faneuil Hall and the Old South Church. The consecrations that the Puritans gave to these walls to Christ and the Church, in 1729, is annulled. The ark of God has sought a new and perhaps a better shelter, but these walls received as sincere consecration when Adams and Otis dedicated them to liberty. We don't come here to save the walls that have echoed to the prayers of cotton and Prince and Eckley and the early saints of the colony. We come here to save the walls that echoed the sublime thought of Quincy when he said: 'No matter where nor how nor for what cause, I mean to die a free man, and not a slave!' These arches will echo as long as they stand with this sublime and sturdy religious enthusiasm of Adams, with the unequaled eloquence of Otis, with Warren in his young genius and enthusiasm. I will not say it is a nobler consecration, I will not say that it is a better one; I only say we came here to save what our fathers consecrated to the great memories of the greatest struggle that the race has ever seen for the liberties of man. You spend half a million for a school house. What school so eloquent as these walls to educate citizens? Napoleon turned his great Simplon road aside to save a tree Cæsar had once mentioned. Won't you turn a street or spare a quarter of an acre to remind boys what sort of men their fathers were?"

Anecdote of Lord Dufferin.

Not a great many people know that the popular and genial Governor General (Lord Dufferin) had the misfortune to lose the use of one of his eyes, since by wearing a glass substitute and an eyeglass the useless eye appears "as good as new." This misfortune has more than once been the occasion of amusing rencontres, one of which I especially remember, and no offense could, in telling it, be supposed to be given, since his Lordship has told the story himself.

While traveling through Ireland (his native land) some years ago, Lord Dufferin, when nearing his destination, made use of the traditional jaunting-car. Paddy, the driver, who was on that day particularly loquacious and communicative, and during the journey volunteered a great deal of information on the different subjects that presented themselves, and this flow of conversation was all the more free and easy since he had not the slightest idea of the rank of his passenger. Not to be unsocial, the future Goverorn-General asked Paddy what news he had to tell of the neighborhood. "As for news, yer Honor," replied the unsuspecting driver, "shure I know of no news that would interist a gintleman loike yerself, unless it is that that one-eyed Dufferin is goin' to marry Kate Hamilton." Though his Lordship inwardly enjoyed the joke, he was gracious enough to deny himself the privilege of seeing the state of consternation the talkative car-driver fell into when he found that the "one-eyed Dufferin" he had spoken so familiarly of and his passenger were one and the same person.—*Harper's Magazine for July.*

AFFAIRS OF STATE.

THE Steubenville *Gazette*, Democratic, already virtually concedes the election of Hayes for President.

SIX men were severely injured at the Scranton Steel Works last Friday, by the explosion of a wet mould into which moulten metal was being poured.

ON the first and second counts of indictment against him, Dr. Goodwin, the Lancaster county abortionist has been found guilty. The punishment of his crime will probably be imprisonment for a long term of years.

NEAR Union city, Erie county, a few days ago, Mr. James Wheeler, his wife and children, were out riding in a buggy an accident occured by which they were all thrown out of the vehicle. Mrs. Wheeler regained her feet, and asked if the children were hurt. She was told that they were not and was asked if she was hurt. She replied that her back was broken, then took a few steps forward, sank down and died immediately.

Two ladies of Womelsdorf, Berks county, happened to meet each other in one of the principal stores of that borough, a few days ago, when each of them purchased twenty-four yards of goods for a dress, forty-eight in all, or a whole piece. They were then asked to step upon a platform scales when one took down the scales at 259½ pounds and the other at 251½ pounds, the ages of the ladies being about thirty-eight years respectively.

THE man Devitt, who some time ago gave himself up to the authorities in Philadelphia, professing to be one of the murderers of a railroad boss along the Connellsville Railroad, and who was taken to Uniontown for trial, has been discharged, on account of legal evidence of his identity. A general belief is expressed that he had nothing to do with the murder, but merely made the sham confession with the view of getting free transportation to this part of the State, a trick often resorted to by impecunious wanderers.

Washington Knocked Down.

In 1754, Washington, then in command of the Virginia Rangers at Alexandria, awaited the arrival of General Braddocks' troops, supported Mr. Fairfax in an election contest for the House of Burgesses, against Mr., afterward Colonel, William Payne of the Continental army. This seems to have been one of those rare occasions when Washington's hot blood got the better of his peerless judgment. Fierce words passed between the two gentlemen, in the Market Square of Alexandria, ending by an outburst of rage from Payne, in which he felled Washington to the earth. The Rangers rushed from their barracks and surrounded Payne, but Washington, with calm dignity, dispersed them. A duel seemed inevitable. On the following day, however, Washington sent for Payne, and, extending his hand, said, with a gentle courtesy, which touched the other to the heart: "Mr. Payne, to err is human. I was wrong yesterday; but if you have had sufficient satisfaction, let us be friends." Until the day of his death, Colonel Payne retained for Washington a devoted and unbroken regard.

REPUBLICAN NATIONAL TICKET.

FOR PRESIDENT,
RUTHERFORD B. HAYES,
OF OHIO.

FOR VICE PRESIDENT,
WILLIAM A. WHEELER,
OF NEW YORK.

PETROLEUM at Antwerp 28¾.

BONDS at Frankfort, new 5s, 102¼.

GOLD closed in New York yesterday at 112¼.

THEY profess to have discovered that the CALDWELL telegram was sent from this country to London and then sent back. Its authenticity has been questioned, and the hunt has been steadily kept up to find its authorship.

THE English Government is proceeding on the rule of releasing all prisoners claimed by this country, under the extradition treaty. BRENT, the forger, was released yesterday, and the treaty is evidently regarded as a dead letter by the English Government.

BRISTOW goes out of office to-day, irrespective of the appointment of a successor. The positiveness of his purpose carries with it the question whether there is not something more than private business involved in the resignation. Be that as it may, rumor attaches to DON CAMERON as his probable successor.

THE Czar of Russia has left Ems in a very uncomfortable frame of mind. He is of the opinion that while peace will be maintained in Europe generally, it is not so sure in Turkey and her provinces. The annoyances of disagreeable political discussion have been keenly felt, and he has gone to another watering place for the sake of quiet. The opinion is prevalent in Europe that the Turkish provinces will achieve their independence, if not interfered with by the Great Powers.

THE assassination of two of the principal ministers of the government at Constantinople, although accomplished by a crazy fanatic, smarting under some fancied injury, is regarded as likely to exert a very serious influence upon the superstitious Softas and Mussulmen generally. It casts a cloud of disaster over the formation of the new government, and may be accepted as an omen of misfortune. Aside from the influence of this character, it is also very doubtful if others as experienced and liberal in their views can be readily secured to fill the high positions so tragically vacated. It thus constitutes, altogether, a very unfortunate beginning for the new government. The new Sultan evidently has serious work before him, and will be fortunate if he manages to successfully organize his government and get clear of existing complications.

THE *Leader* claims that the break over of four BLAINE men, united to the decision of Chairman MCPHERSON's ruling, justified the after-abandonment of the unit rule by CAMERON and friends. In another article we refer to the difference between Mr. MCPHERSON's ruling as Chairman of the National Convention, and the binding force of the caucus agreement. Our point is, not that one or the other of the two parties did right, but that the wrong-doing of four men did not justify twenty-eight others in breaking their pledge. More than this, their final action merely evidenced an original intention, not at all affected by the foolish bolt of the four, to deliver the State against BLAINE. We have a knowledge that this intention existed, and would have been carried into effect all the same, whether the bolt of the four had occurred or not. As we elsewhere say, we have no apologies to offer for the bolt of the four that made the excuse possible, but we do not for a moment believe that, had all of BLAINE's friends stood firm, it would have effected anything to prevent the final breaking of the unit rule. That was determined upon.

THERE is considerable discussion as to the right of Mr. MCPHERSON, as Chairman of the National Convention, to decide that the unit rule should not be binding in a National Convention, and the declaration is made that his decision on the subject was the occasion of the effort to kill BLAINE. The proper bearing of this question on the case under mention can be readily stated. So long as the issue was confined to the delegation, and the members were bound by it, no one had the right to dispute the action taken by the delegation. We are perfectly free to say that, under the rule of the caucus at Cincinnati, we think the several members of our delegation were morally bound to observe the unit rule, in good faith, till some other determination was reached in regular consultation. We do not feel called upon to excuse or palliate the conduct of those who did not keep faith with the delegation, yet who voted for BLAINE. But we insist that their misconduct does not for a moment palliate the grosser misconduct of those who sought to kill BLAINE. The unit rule, as adopted in caucus and thus made morally binding, and the same rule as brought before the open Convention for recognition and enforcement, are two different things. What the caucus might do, the Convention, if it followed established precedents, could not do. At the second National Convention of the Republican party, in which Mr. LINCOLN was nominated, this precedent was made,—that every delegate has the right to vote as he desires, and cannot be bound by the unit rule. As Mr. HALE showed, the same precedent was repeated in 1868. Thus Mr. MCPHERSON simply followed the precedents in the case, in ruling that a delegate has the right to control the casting of his ballot. There was no partisanship whatever in his ruling. He was simply compelled as an honest man to rule as he did. We stated these points, in an article on the "Unit Rule," before the Convention assembled. There was, therefore, nothing in Mr. MCPHERSON's ruling that afforded the slightest excuse for the refusal at the last, to apply the unit rule in favor of BLAINE. The action taken by the leaders, was only in accord with their persuasions to stand up to their leader, even in his hostility to BLAINE. We state these points, clearly and plainly, in order that the fallacy of the apologetic reasoning on the subject may be fully exposed.

WHAT IS THOUGHT.

We have expressed our views of the shameful sell out of this State. The Philadelphia *Press* adds its comment in the following terms: "Poor, betrayed Pennsylvania was dragged into the arena, and set upon the brave young statesman, while her proud people stood aloof and saw their delegates forced to hiss the old Commonwealth to this deed of shame. These men have done their worst, and if there is any consolation to the people of this State especially, it is that in their banded crusade on BLAINE they were not able to find an instrument in Governor HAYES, of Ohio, the Republican candidate for President. He profits by their conspiracy, it is true, but he will not fail to take note of the manner in which they broke down the choice of the Republican party of the nation to gratify their unreasonable ambition—first singly, and then by throwing their whole force against him. Had BLAINE been nominated Pennsylvania would have rung with grateful responses. As it is, even the respected name of Governor HAYES failed at first to awaken even the slightest enthusiasm; and while our people last night retired to their beds satisfied with him, they were thoroughly convinced that they were deprived of their favorite by the lowest arts of conniving politicians. The character of our betrayal is palpably understood."

OUR TICKET.

Amid the pressure of other matters, we have not given the attention to the nominations made at Cincinnati that they deserve. Our news columns have detailed the political histories of the two candidates, and we do not, therefore need to dwell upon these. Our readers may readily gather, from what has appeared, that the ticket is full of merit, and without defect. None of the mistreatment of BLAINE can be charged against the present candidates,—and hence, of all others, the candidates nominated can be best accepted as fully meeting the necessities of the hour, The quiet, home life of Governor HAYES, has prevented the American people from closely inspecting, or clearly analyzing his character, or grading his ability. That he was singularly popular in his own State was known, but the exact basis of that popularity was not clearly understood. He has been, for years, the leader of the forlorn hope in that State, and has never known defeat. The pride and boast of the Democracy in Ohio have fallen before him. PENDLETON, THURMAN and ALLEN, have all succumbed,—the latter after one of the most tremendous State contests on record. The modesty of Governor HAYES is shown by the fact that despite his opportunities for political capital he was chiefly known within the bounds of his own State. There his popularity rests on the basis of a strong and pure character. A church communicant, he is ever in his place at the services of his church, while his means are liberally employed in works of benevolence. Undemonstrative, yet approachable, he carries with him a quiet influence, at all times agreeable. He has filled the office of Governor so dignifiedly and acceptably that there is not a particle of fear that he will not be equal to the Presidency. On the contrary, his great canvass, last year, involved the leading issues of the Presidential canvass—the Finance and non-sectarian School issues. In the heated debate over these he took an active part, displaying ripeness of thought, and clear and statesmanlike perceptions. It need not, therefore, be feared that he will prove a mere figure head, but, on the contrary, will be fully equal to the demands of the high position to which he will be elected. In character and life, he stands irreproachable, while in ability and experience he is amply qualified—and hence worthy the fullest support of the Republican party.

It may be said of Mr. WHEELER, that he is a self-made man, of the broadest and strongest common sense, and of the class that are forced into public life, because of their eminent fitness for it. Bred a lawyer, his preferences have been for his profession, and the quietude of private life. The unsolicited demands of his people forced him into official positions,—first of all as Attorney General, where his vigorous work was of great benefit; then into the Legislature, where, in the Senate, he became Speaker *pro tem.*, then into Congress,—and during an intermediate period in his Congressional career, a member of the Constitutional Convention of New York, over which he presided as Chairman. His latest well known deed was the Louisiana compromise, by which the troubles in that State were equitably settled. His views are broad and statesmanlike, and a robust common sense is always characteristic of him. He is also possessed of a humorous tendency, which lightens up his conversation and speeches. In experience, observation, and scope of mind, he is amply qualified for the high position to which he is nominated; while his presence on the ticket will greatly increase its strength in New York. He was our first choice for the Vice Presidency, and we are abundantly gratified that he was nominated.

Of the election of this ticket we have no doubt. The measure of effort that will be required will be governed, to some extent, by the action of the Democracy at St. Louis. But even with their most formidable combination, we regard the election of our ticket as certain. The Democratic party was unfortunate in that it gained partial power two years ago. That power has been so shamefully prostituted and misused, that there is far more eagerness on the part of the people to displace them than there ever was to give them office. They have utterly failed to redeem their pledges. Where they promised bread they have given a stone, and where they offered a fish they have given a serpent. All political, commercial and labor wrongs were to be rectified,—and the Resumption act stands unrepealed. The tone of political morals was to be lifted up,—and we have had, in place of it, a search after the lowest depths of political infamy, and an unparalleled season of malicious mud-throwing. An era of peace and fraternity was promised, and we have had the worst phases of the old rebellious spirit wolfishly snapping at loyal men. Industry and economy were to be had,—and not a single act of beneficent legislation has been passed. Thus with a grand opportunity before it, the Democratic party, entrusted with power, simply fell back into worship and subservience before its southern demi-god,—the spirit of barbarism and slavery. With this fearful record upon it, the country is appealed to. We could not wish it a more unfortunate position, as regards the chance of defeat.

The duty of the Republican party is at once to rally to the support of its candidates. Let there be no weakening along the lines. There should be ratification meetings at every point, and expression should be given to the fact that we recognize in the ticket leaders worthy to stand at the head of the embattled hosts of the Republican party. We should at once announce our determination to stand bravely by the ticket, until it shall be triumphant. If we do this we have no doubt of the result, and our judgment is that the party, in all its branches, will rally and consolidate, and that HAYES and WHEELER will stand in the forefront with victory on their banners when the battle is over.

WHO THEY ARE.

ALLEGHENY, June 19, 1876.
To the Editors of the Pittsburgh Gazette:

Can you give the vote of the Pennsylvania delegation? Can you tell us who are the *twenty-eight*, and who are the *thirty?* We want to know exactly how the two young men, who lately emigrated to Allegheny, the one to run for Congress and the other for State Senator, voted on the last ballot. It seems to us that they had better re-emigrate to some other part, for their chances are very slim over here. We have far better men for both positions who are not led by Don Cameron and Bob Mackey. Answer, if you can. We want to know.

MANY REPUBLICANS.

We have written to Hon. Ed. McPherson, Chairman of the Convention, for a correct list of the Pennsylvania vote on the seventh ballot, and we will take pleasure in publishing them, with some comments. ED.

Mr. Moore's Tactics.

To the Editors of the Pittsburgh Gazette:

To lament the defeat of Blaine now would only be crying over spilled milk; but it is not too late to speak of the men who, being sent as delegates for Blaine, flagrantly violated their constituents' wishes, and aided in the defeat of the people's choice.

Washington, Blaine's native county, selected as their delegate Hon. W. S. Moore, a classmate and friend of Blaine's, believing that if any man would be true, Moore was the man. Lawrence county of the same Congressional District chose Hon. J. W. Wallace, also a Blaine man. The State Convention came on, and when it was known that Mr. Wallace was a Blaine man at heart, surprising to say the ring leaders put him off and sent Blaine's classmate to Cincinnati. This was looked upon with suspicion. The result is as follows: Mr. Moore became a candidate for Congress in Washington county. To secure Beaver was indispensible to success. All at once Dr. Shurlock was announced in Beaver county. The Cincinnati Convention came on, and lo! Mr. Moore, assuming the disguise of a Hartranft man, kept his vote from Mr. Blaine until he knew that his classmate's chances for the nomination were over and then came only to cast his vote away. It is reported on good authority that Mr. Moore, in case Dr. Shurlock succeeds, is to have Beaver county, thus securing his nomination for Congress at the expense of a violation of his constituents' wishes. Although Mr. Moore had no opposition on Saturday at the Washington primaries, the whole county was inclined to go against him, and if nominated he will have an uphill road to election, as Washington county will not stand by any one who thus went to Cincinnati only to misrepresent her voters.

GAMMA.

THE OLD LANDMARKS.

Associations of the Revolution—Address by Mr. Wendell Phillips.

Mr. Wendell Phillips made a stirring appeal at the meeting in Boston on Wednesday evening for the preservation of the Old South Church. Among other things he said:

"Once, a hundred years ago, our fathers announced this sublime, and, as it seemed then, audacious declaration, that God intended all men to be free and equal—all men without restriction, without qualification, without limit. A hundred years have rolled away almost since that great announcement, and to-day, with a territory that makes ocean kiss ocean, with 40,000,000 of people, with two wars behind her, with the sublime achievement of having grappled with the terrible disease that threatened its central life and put every fetter under its foot, the great Republic launches into the second century of its existence. (Applause.) The history of the world has no such chapter of its breadth, its depth, its significance, or its bearing on future history. Well may we claim that this Centennial year is the baptism of the human race into a new hope for humanity. And we are not entitled, then, going with the sheaves of such a harvest in our hands, to say to the world, 'Behold the blessing of God on the right faith in the human race!' Well, gentlemen, if that is sober prose, without one tittle of exaggeration, without one fond conceit borrowed from our kindred with the actors of our birthplace in these parts—if that is the sober record—with how much pride, with what a thrill, with what tender and loyal reverence, may we not hunt up and cherish and save from change of desecration the spots where the marvellous attempts began—the roof where its first councils were held—where the air still trembles and burns with Otis and Sam Adams? Is there any more grand and majestic place on the face of the earth than the cradle of such a change? Athens has her Necropolis, but the Greek can point to no such immediate results. London has her Palace and Tower and her St. Stephen's Chapel, but the human race owes her no such memories. France has spots marked by the sublimest devotion, but the pilgrimage and the Mecca of the man who believes and hopes for the human race is not to Paris; it is to the seaboard cities of the great republic. And, when the flag was assailed, when the merchant waked up from his gain and the scholar from his studies, and the regiments marched one by one through the streets, which were the pavements that thrilled under their footsteps? What were the walls that they saluted as the regimental flags floated by to Gettysburg and Antietam? These! The boys carried down to the battle-fields the memory of State street and Faneuil Hall and the Old South Church. The consecrations that the Puritans gave to these walls to Christ and the Church, in 1729, is annulled. The ark of God has sought a new and perhaps a better shelter, but these walls received as sincere consecration when Adams and Otis dedicated them to liberty. We don't come here to save the walls that have echoed to the prayers of cotton and Prince and Eckley and the early saints of the colony. We come here to save the walls that echoed the sublime thought of Quincy when he said: 'No matter where nor how nor for what cause, I mean to die a free man, and not a slave!' These arches will echo as long as they stand with this sublime and sturdy religious enthusiasm of Adams, with the unequaled eloquence of Otis, with Warren in his young genius and enthusiasm. I will not say it is a nobler consecration, I will not say that it is a better one; I only say we came here to save what our fathers consecrated to the great memories of the greatest struggle that the race has ever seen for the liberties of man. You spend half a million for a school house. What school so eloquent as these walls to educate citizens? Napoleon turned his great Simplon road aside to save a tree Cæsar had once mentioned. Won't you turn a street or spare a quarter of an acre to remind boys what sort of men their fathers were?"

Anecdote of Lord Dufferin.

Not a great many people know that the popular and genial Governor General (Lord Dufferin) had the misfortune to lose the use of one of his eyes, since by wearing a glass substitute and an eyeglass the useless eye appears "as good as new." This misfortune has more than once been the occasion of amusing rencontres, one of which I especially remember, and no offense could, in telling it, be supposed to be given, since his Lordship has told the story himself.

While traveling through Ireland (his native land) some years ago, Lord Dufferin, when nearing his destination, made use of the traditional jaunting-car. Paddy, the driver, who was on that day particularly loquacious and communicative, and during the journey volunteered a great deal of information on the different subjects that presented themselves, and this flow of conversation was all the more free and easy since he had not the slightest idea of the rank of his passenger. Not to be unsocial, the future Goverorn-General asked Paddy what news he had to tell of the neighborhood. "As for news, yer Honor," replied the unsuspecting driver, "shure I know of no news that would interest a gintleman loike yerself, unless it is that that one-eyed Dufferin is goin' to marry Kate Hamilton." Though his Lordship inwardly enjoyed the joke, he was gracious enough to deny himself the privilege of seeing the state of consternation the talkative car-driver fell into when he found that the "one-eyed Dufferin" he had spoken so familiarly of and his passenger were one and the same person.—*Harper's Magazine for July.*

AFFAIRS OF STATE.

THE Steubenville *Gazette*, Democratic, already virtually concedes the election of Hayes for President.

SIX men were severely injured at the Scranton Steel Works last Friday, by the explosion of a wet mould into which moulten metal was being poured.

ON the first and second counts of indictment against him, Dr. Goodwin, the Lancaster county abortionist has been found guilty. The punishment of his crime will probably be imprisonment for a long term of years.

NEAR Union city, Erie county, a few days ago, Mr. James Wheeler, his wife and children, were out riding in a buggy an accident occured by which they were all thrown out of the vehicle. Mrs. Wheeler regained her feet, and asked if the children were hurt. She was told that they were not and was asked if she was hurt. She replied that her back was broken, then took a few steps forward, sank down and died immediately.

Two ladies of Womelsdorf, Berks county, happened to meet each other in one of the principal stores of that borough, a few days ago, when each of them purchased twenty-four yards of goods for a dress, forty-eight in all, or a whole piece. They were then asked to step upon a platform scales when one took down the scales at 259½ pounds and the other at 251½ pounds, the ages of the ladies being about thirty-eight years respectively.

THE man Devitt, who some time ago gave himself up to the authorities in Philadelphia, professing to be one of the murderers of a railroad boss along the Connellsville Railroad, and who was taken to Uniontown for trial, has been discharged, on account of legal evidence of his identity. A general belief is expressed that he had nothing to do with the murder, but merely made the sham confession with the view of getting free transportation to this part of the State, a trick often resorted to by impecunious wanderers.

Washington Knocked Down.

In 1754, Washington, then in command of the Virginia Rangers at Alexandria, awaited the arrival of General Braddocks' troops, supported Mr. Fairfax in an election contest for the House of Burgesses, against Mr., afterward Colonel, William Payne of the Continental army. This seems to have been one of those rare occasions when Washington's hot blood got the better of his peerless judgment. Fierce words passed between the two gentlemen, in the Market Square of Alexandria, ending by an outburst of rage from Payne, in which he felled Washington to the earth. The Rangers rushed from their barracks and surrounded Payne, but Washington, with calm dignity, dispersed them. A duel seemed inevitable. On the following day, however, Washington sent for Payne, and, extending his hand, said, with a gentle courtesy, which touched the other to the heart: "Mr. Payne, to err is human. I was wrong yesterday; but if you have had sufficient satisfaction, let us be friends." Until the day of his death, Colonel Payne retained for Washington a devoted and unbroken regard.

Latest Advices Concerning Money and Stock Matters.

OFFICE OF THE PITTSBURGH GAZETTE, TUESDAY, June 20, 1876.

The money market remains entirely quiet, with no distinctive features of any character. What we have said, during the past several days, is still true in every particular. One of the most noticeable features in finances is the complete reversion in the currency movement in the last few days. There has been but little sent out to any part of the country for several days, but to-day there was scarcely any, and on the contrary there were large amounts coming in from all quarters, thus making it apparent that marketing in the country has stopped, and that the farmers are disposed to hold on to what they have for higher prices.

The telegrams of failures in Europe, including that at Cardiff, England, to-day, point to a worse prostration of the industries of that country than we have here at the present. The general outlook in this country, and particularly in this city, is rather hopeful than otherwise, and that of England is singularly depressed. Yet she has a gold currency and we have not.

—Some interesting statistical facts, recently collated and printed, show that, so far as respects silver, the whole tendency of supply and demand during late years has been to put down its value, and that, in respect to gold, the course of supply and demand has tended only to augment its value. It cannot be denied that the causes leading to the present disturbance of the silver market are of a fundamental character. An intelligent foresight on the parts of the Governments and banks might have prevented the degragement entirely, and the intelligent moderation exercised by the same arbiters might do a great deal towards bringing the two metals back to their usual relative status, but, at the moment, we see little disposition to treat the situation otherwise than in a way that is calculated to aggravate its difficulties. Germany, the chief author of the whole trouble, persists in coining gold; Vienna demands of the Austrian Government the adoption of the gold standard; a school of French scientists, so called, urge the single standard of France; and a class of English investors in India securities are asking that gold be made the lawful money of British India. All these things are difficult, perhaps impossible, but they do not the less on that account stand in the way of adopting the policy of recognizing the claims of both metals to be used as currency.—*Phila. North American.*

—Five million nine hundred thousand dollars worth of soda, it is stated, are yearly imported into the United States for use in the arts. Six hundred miles west of Omaha, and about forty miles north of the line of the Union Pacific Railroad, there is said to be an inexhaustible supply of the carbonate, in a much purer form than the crude imported ash. In one place there is surface deposit many acres in extent, and six feet deep, while alkaline lakes and smaller deposits everywhere abound. It is stated that when the branch railroad is constructed to the deposit, the material can be placed in the markets of the coast at about three-fifths the cost of the foreign article.

—The bill passed by the Connecticut House of Representatives to reduce the legal rate of interest to 6 per cent., provides, however, that the borrower may pay, or agree to pay, the taxes assessed and paid upon the loan, and, in computing interest, 300 days may be considered a year. Any person who shall receive for forbearance more than at the rate authorized shall forfeit the interest for the time so taken.

NEW YORK, June 19, 1876.

Money closed easy at 2@2½; prime mercantile paper 3½@5½. The customs receipts were $333,000. The Assistant Treasurer disbursed $97,000. The clearings were $9,000,000. Sterling was quiet at 488¾@489¾. Gold opened and closed at 112⅛, with sales in the interim at 112⅜. The borrowing rates were 1 to 2 per annum, and 1-64 per diem. Loans were also made flat and at 2 for carrying. Governments were strong and in good demand. Railroad bonds were firm. State securities were steady. The stock market was firm and higher in early dealings for western shares, but otherwise quiet and steady. Later there was a break in the coal roads, which had a depressing influence on the general market. New Jersey Central declined to 76⅛, Delaware, Lackawanna & Western to 104⅛ regular and to 104½ seller sixty, and Delaware & Hudson Canal to 105. Shortly before the close the market became firm and prices advanced ¼ to 1 per cent., with the greatest improvement in the coal roads. The advance was caused by a denial of the report freely circulated during the morning that the Delaware & Hudson would pass a dividend. The transactions were 83,000 shares, of which 11,000 were Western Union, 13,000 Northwests, 5,000 Rock Island, 14,000 St. Pauls, and 20,000 Lake Shore.

Breadstuffs.

Breadstuffs interests yesterday, in the local market, were devoid of life. Prime dry grain—wheat, corn and rye—suited to the export trade, was offered with reserve and at strong prices, checking operations, though the easier range of ocean freights favored shippers. An unusual proportion of the available supply of grain here is soft and otherwise out of condition, and this forms a serious hindrance to a free export movement. Spring wheat of this class, particularly of Minnesota product, was pressed for sale at much lower figures.—*N. Y. Bulletin, 17th.*

PITTSBURGH MARKETS—WEEKLY REVIEW.

OFFICE OF THE PITTSBURGH GAZETTE, MONDAY, June 19, 1876.

General business continues dull, more so than usual, even at this particular time, when it is always sluggish, and it is not probable that there will be any decided change for the better until the fall trade sets in. The Grain business continues very dull, and notwithstanding stocks here are small, prices are weak and drooping. Flour also dull. The Hog products have stiffened up materially, and as will be seen, we have advanced our quotations from ¼ to ½ a cent ℔ ℔. In Groceries, trade continues quiet, and there is nothing new to record, except that both Sugars and Coffees are firmer. Butter continues dull; Eggs firmer and higher. Hay very dull and lower, and the same is true of Mill Feed. Indeed, depreciation in values continues to be the order of the day, hence business is very unsatisfactory, as there has been little or no margin for profit, and there is considerable complaint in regard to collections.

Since the date of our last review, we have had considerable rain, which was badly needed by the growing crops, and the prospects at the present writing are all that could be desired for an abundant harvest.

ASHES—Trade continues dull, and prices are lower: Common Soda, 2¾a3c; Refined do., 3½a3¾c; Arsenic, 5c; Nitrate Soda, 4c.

ALE—There is no change to note in prices and trade is generally reported dull, like everything else, affected by the hard times. X $8 ℔ bbl to the city and $9 to country; XX $10; India $11. half bbls in proportion.

APPLES—In consequence of the abundance of berries and other small fruits, there is very little call for green apples and the supply of old crop is about exhausted; quotable at $4a5 ℔ bbl in a small way.

BEANS—The market continues very dull, and while the supply is small, it is fully equal to present wants—scarcely enough doing to establish quotations; may be quoted, in a jobbing way, at $1a1.10 ℔ bu. for navies. However, it will be some time yet before new crop make their appearance, and if there is any inquiry in the meantime, prices might possibly improve.

BUTTER—The market continues overstocked, and prices are weak and in buyers favor; strictly prime solid packed selling at 15a16c; common to fair, 10a13c. Peddlers and farmers are bringing in enough to supply the market, hence for the present commission merchants are doing next to nothing. However, the feeling begins to prevail that hard pan has been reached; there is no question but the low prices will check receipts, and then the time is at hand when there is always more or less packed for the fall and winter.

BROOM CORN—Dull; sales in small lots only. We quote: Choice No. 1 Hurl, 9c; No. 2 Hurl, 8c; choice green brush, 8c; red tipped, 7c; insides and covers, 5a6½c; crooked, 4a5c.

BRUSHES—White Scrubbing, $10a11 ℔ gross; Gray, $11a20; White Bristle, $22a36; Shoe, $13a0; Horse (wood backs) $22a66; Horse (leather backs) $45a135; Extra white-wash, $36a75; Common do, $24a60.

BELTING—Following are the current rates for best belting:

Inch.	Per Foot	Inch.	Per Foot
1	$ 06	5	$ 54
1½	12	5½	60
2	13	6	66
2½	24	7	78
3	30	8	90
3½	36	10	1 14
4	42	12	1 38
4½	48	14	1 62

Discount 15 to 30 per cent. as to quality and quantity.

BROOM HANDLES—We quote in a jobbing way:

No 1 Plain	$16 00 ℔ thousand	
No 2 do	12 00	do
No 1 Painted	24 00	do
Toy Painted	12 50	do

BEESWAX—There is a steady demand at 30a35c, as to quality.

BROOMS—There is a fair demand, but the market lacks activity, and prices are too low to admit of any further decline. Manufacturers generally complain of meagre profits at present prices.

No 1 Hurl	$1,75
No 2 Hurl	1,85
No 3 Hurl	2,00
No 4 Stalk braid	2,50
No 4 Hurl	2,75
No 5 Stalk Braid	2,75
No 5 Hurl	3,00
No 6 Hurl	3,25
No 3 carpet	3,50
No 4 carpet	3,75
No 5 carpet	4,00

CEMENT, &c., &c.—Following are the jobbing rates: White Lime—Cleveland and Fremont, $1,60a1,75 ℔ bbl; Ohio, $1,50a1.65. Cement—Rosendale $3a3,50 ℔ bbl; Youghiogheny, $2.00a2.25; Louisville, $2,00a2,25; New Lisbon, $2,25a2,75; Portland, $6,50a7,50. Plaster—French's Selected, $4,25; New York, $3,50a3.75; Michigan, $3.50a3.75. Land Plaster, $3a3,50. White Sand, $1,50a1.75 ℔ bbl.

COOPERAGE—Quiet, but prices well sustained with moderate business. Prime dry jointed staves, $32; do matched, 34; bucked staves, 31; do matched, 33; split heading, 40; sawed do, 43; rough staves, $22. Oil barrels dull; countries, $1,05; city make, $1.20a1,25.

CHEESE—There is a fair demand, and the supply here is light, the receipts recently having been small, but prices remain as last quoted; prime new Ohio Factory, 10a10½c in a jobbing way. The general tone of the market is scarcely as firm as it was a week ago, in consequence of unfavorable reports from New York.

CANNED GOODS—Are dull, in consequence of the abundance of fresh vegetables and Berries, and the season is about over; dealers are anxious to close out, and prices are weak and drooping. Following are the current jobbing rates:

2 ℔ Blackberries	$2 50	2 ℔ Bartlett Pears	$3 00
2 ℔ Blueberries	2 00	2 ℔ Common Pears	2 00
2 ℔ White Cherries	2 90	2 ℔ Pine Apple	2 00
2 ℔ Red Cherries	2 00	2 ℔ Quinces	3 00
2 ℔ Gooseberries	1 50	2 ℔ Raspberries	2 75
2 ℔ Green Gages	3 00	2 ℔ Strawberries	3 00
2 ℔ Egg Plums	3 00	2 ℔ Lima Beans	2 00
2 ℔ Damson Plums	2 50	2 ℔ String Beans	1 50
2 ℔ Peaches	1 75	2 ℔ Winslows Corn	2 25
3 ℔ Peaches	2 25	2 ℔ Peas	2 00
3 ℔ pie Peaches	1 60	3 ℔ Tomatoes	1 00

We quote the American Fruit Co.'s fruit as follows:

Rhubarb in bbls—40a42 galls	$14 ℔ bbl
Apples in bbls	40c ℔ gal.
Peaches in half bbls	40c ℔ gal.

COAL AND COKE—Coke remains about as last quoted; $2.40a2.50 per ton delivered here. Coal, 5a5½c ℔ b. in a round lot way, and trade very dull.

CORDAGE AND ROPE—Business continues exceedingly dull, and even the sharp decline noted in our last review does not appear to have stimulated the demand. Following are the current rates:

MANILLA ROPE.

¾ inch diameter and upwards	14½ cts. per lb
½ "	14¾ "
¼ and 5-16 in. diameter	15½ "
Tarred rope and lath yarn	—
Hay, stave and lath Twine	—

OIL WELL DRILLING CABLES.

Hawser laid	14¼ cts. per lb
" " Bolt Rope Yarns	15¾ "
Sand Pump Rope	15¼ "

SISAL ROPE.

¾ inch diameter and upward	9¾ cts. per lb
½ "	10¼ "
¼ and 5-16 in. diameter	10¾ "

JUTE ROPE.

All sizes	9 "

DRIED FRUIT—There is no improvement to note in the demand, nor is it likely that there will be until next winter. In view of the fact that there is an abundance of fresh fruits in the market already and the supply will be increased from this on. Apples quoted nominally at 8½a9½c. per lb; Peaches, at 10a11 for halves, and 14a15 for peeled.

EGGS—The market has stiffened up somewhat within the past few days, and since the date of our last weekly report prices have been advanced 1a2c per dozen; we now quote fresh stock at 14a15c. The improvement to which reference has just been made, was owing more to a diminished receipts than any improvement in the demand, as the consumption is always light during the hot weather.

FLOUR—There is steady consumptive demand for good standard flours. There is no scarcity of low grade offering, and it is very dull, as it is not wanted. Dealers nearly all report that Spring Wheat flour is, to a considerable extent, taking the place of winters in this market, as it is giving much better satisfaction; bakers are using more of the former than for several years, and retailers are selling a much larger proportion than usual. In regard to the immediate future of the market, the probability is that there will be no change in well known brands during the next 30 or 40 days; however, if the yield of the coming wheat crop should turn out as well as it now promises, cheaper flour is only a question of time, unless something extraordinary should occur—a foreign war for instance. We continue former quotations, in a jobbing way: Spring wheat flours, $6.00a6.75, the outside figure for choice Minnesotas; red winters, $6.50a7; ambers, 7.25a7,50; fancy white wheat and patent process, $8.50a9.50. Rye Flour, 4.75a5.

FISH—Mackerel, as will be seen, are down considerably, as are also Lake Herring, while Split Labrador are higher. Following are the current rates:

FEATHERS—In fair demand for this season of the year; sales round lots, 56a57 and 58 for extra fine lots.

GINSENG—New has not arrived in sufficient shippers particularly against shipping root not thoroughly dry.

GROCERIES—Coffee—The late telegram from Rio, dated 14th inst., is favorable to holders, shipments to the United States being light, stock diminished, market firm and a shade higher. The European advices show a firmer market at advanced quotations for all descriptions. The absence of late reports on the current growing crop in Brazil indicates that the crop is at least an average one, if not very large; and will tend to hold prices down. At the moment, however, the market in the U. S. is firm, but there is no speculative demand. The statistical position does not vary much from our last weekly report, showing large stocks in this country. Sugar is held strong, and the demand active. N. O. Molasses firm. Syrups easy. Rice steady. Teas inactive and lower. Spices dull.

GRAIN—Trade in our market continues exceedingly dull, more so than ordinarily at this season of the year, when it is always dull, and there is but little prospect of any improvement; stocks here are light but so is the demand, which is restricted entirely to supplying immediate wants, and while prices are weak, there has been no quotable decline since the date of our last review. Many dealers report that they never knew business to be so dull here as it has been ever since the first of the year, and, in addition, in consequence of an almost uninterrupted shrinkage in values, there has been no margin on the contrary a loss. There is not much call for Wheat, but the supply of strictly No. 1 winter is light, and prices in consequence are still maintained; No. 1 crop 1.75, $1,30a1.35; do 1874, $1,38a1,40. Low grade Wheat is not wanted at any price, and there is no demand for white Wheat. There is considerable fluctuation in Chicago, but there is very little Spring Wheat used hereabouts, hence the fluctuations there have very little influence here excepting on those who are operating there on margins. The Oat market continues overstocked and very dull, and prices have still further declined; we now quote at 34a36 for mixed to white. It was thought that prices would rule higher, as they frequently do just before harvest, but it appears that the supply in first hands is unusually large, and as there is every prospect of a big crop, there is a general disposition to realize. If the present crop should turn out as well as it now promises, prices will no doubt rule very low the coming fall—some operators predict that 25c will be the ruling price. Corn in very limited supply, both Ear and Shelled, but there is very little inquiry, and there is scarcely enough doing to establish rates. Shelled is quotable on track at 52a55, for fair mixed to prime Yellow, and Ear at 50a53. The hot weather and low price of Oats combined, have curtailed the consumption of Ear very materially. Rye continues quiet and unchanged, 78a80.

HEMP—$125a130 ℔ ton for Ky. Rough.

HAY—The market continues very dull, and with liberal receipts, the supply accumulating and a general disposition to sell, prices are weak and lower; we reduce our quotations for baled to $12a13 for No. 1 timothy, and $9a10 for No. 2. Loose from country wagons, $10a15.

HIDES—The prices have declined since our last report. There is a good demand for heavy steers, but cows, bulls and damaged are lower and hard to sell. We quote:

Green Salted Cows	6¾a 7
Green Salted Steers, Light	7½a 8
Green Salted Steers, Heavy	9 a 9½
Green Salted Calf	9 a11
Green Butcher Cows	5½

LEATHER—General market rather quiet. Rough Leather in fair demand for choice article—common grades a drug in the market. Upper and Kip—no demand except for usual hand-to-mouth actual orders. Calf slow. Red Sole in good demand in small lots. We quote:

PEA-NUTS—Dull, especially Tennessee red, which we quote at 5a5½c. Tennessee white selling in job lots only at 6¾a7 for choice well cleaned, 5a5½c for dirty and badly handled. Virginia held at 8½c for strictly choice, while some lots of very inferior are on the market at much less prices.

POULTRY—Live Chickens selling, by the coop, at 50a60c ℔ pair for young, and 65a70c ℔ pair for old.

POTATOES—The supply of old crop has been light during the past week, although fully up to the demand, which was also light; selling at 35a40c ℔ bu. in a jobbing way. New crop coming forward more freely, and prices are lower in consequence; $3a3.50 ℔ bbl.

PROVISIONS—All descriptions have advanced sharply, and the belief is that much higher prices will rule in July for Sugar cured Winter meats. Cincinnati asks 14 cents for spot hams, 16 lbs average, and 14c for delivery July 1, in 100 tierce lots. Lard and Mess Pork higher.

ALLEGHENY LIVE STOCK MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, MONDAY, June 19, 1876.

CATTLE.

The supply was somewhat in excess of that of last week, and with a light demand the market was very dull, and prices 20 to 25c per cwt lower; indeed, rates for all grades of cattle were cheaper to-day than they have been for a number of years. The Chicago bought cattle, which constituted the great bulk of the supply, did not cost as much as those of last week, but this did not offset the decline holders were obliged to submit to-day in order to effect sales, and the market, therefore, was not as good in consequence. Some dealers reported it as having been the worst of the season, and all conceded that it was very unsatisfactory.

The very best cattle brought 5¾; one firm reported having had one car of the choicest butcher cattle that has been offered here for many a day, averaging about 1,300 lbs. yet, 5¾c was the best figure that could be obtained; these same cattle would have brought 6c last Monday. Prime butcher cattle sold to-day at 5¼a5½; and medium to good at 4½a5. Many of our good butchers are not paying above 5a5½c for cattle, and there was no trouble to-day in buying good stock at the rates last quoted.

Stock cattle, of which there were none on sale, may be quoted at 3½a4c; Bulls, 2½a3½c per lb according to quality and condition.

SHEEP AND LAMBS.

The supply was 186 head short of last Monday, and with an increased demand and diminished supply, the market was firmer and more active, but, while better rates may have been obtained in some instances, there was no general advance. Prime stock, the supply of which was scarcely equal to the demand, sold readily at full rates, while common grades were dull. Included in the sales were: 48 at $2¾a3 per head for sheep, and $2.75a3.75 for lambs; 120, at 3½a5c per lb for former, and $2,50a4 per head for latter; 106 fair to extra sheep at $3.25 per head to 5,40c per lb; 40 lambs at $2¾a3¾ per head; 40 at $2a3.25; 30 at $2 per head to 6¼c per lb; 30 at 4½c per lb for sheep and $2⅜ per head for lambs.

PITTSBURGH PETROLEUM MARKET

OFFICE OF THE PITTSBURGH GAZETTE, MONDAY, June 19, 1876.

The Crude market was weak to-day, and prices, as compared with Saturday, were lower. United quoted at $1,97¾a1,96½, and immediate shipment at $1,20a2,17½. Refined quiet and unchanged; Philadelphia delivery, 14½c; Baltimore, 14a14¼c; on cars here, 11½c. The river is again in good condition for shipping to Richmond, via Huntington, and the outside refineries will take advantage of it; it is but proper to state, however, that at no time yet have shipments been suspended in consequence of low water, and we apprehend that the water will not get down low this summer as to stop shipments entirely.

Oil Barrel market continues quiet and unchanged; countries, $1,05; city make, 1,20a1,25.

RIVER NEWS.

State of the Rivers, Movements of Steamboats, &c.

THE stage of water last evening was 3 feet 3 inches by the marks and falling. Cloudy and cool; business at the landing continues very dull.

THE towboat James Gilmore is laid up at Wheeling.

THE barge of coal sunk at Waters' Landing, last Wednesday night, belonged to Lynn & Son of Pittsburgh.

THE towboat Veteran, sunk at Crow's Island and raised, will arrive from Beaver to-day, and go on the docks for repairs.

CAPT. CHAS. ADAMS, of the Whale, has arrived home, as has also Capt. Thos. Darragh, of the Arkansas river steamer Rosa Miller.

CAPT. J. T. STOCKDALE is thinking of building a mammoth stern-wheel freighter, similar to the Paragon, built here by Capt. Darragh.

CAPT. TOM DARRAGH says he has no intention of committing matrimony for the present; however, it is not likely he would own up to it if he had.

THE present rise, while it is not likely to hold out very long, will no doubt let up a number of boats laid up at different points here and Cincinnati.

THE new Arkansas river steamer Gov. Garland was towed from Rees' shop in Allegheny to the main landing, where she will be completed, and at once load and take her departure for the south.

THE veteran river editor of the Cincinnati *Commercial*, is decidedly hostile to the Republican nominee for Vice-President, claiming that his record in Congress is unfavorable to river interests.

THE C. W. Hornbrook arrived from Wheeling with a barge containing a portion of the Jno. L. Rhoads' freight; the Rhoads started up herself yesterday, and will doubtless be found in port this morning.

THE Evansville, Cairo and Memphis Steam Packet Company settled with the Underwriters on Saturday, and received $18,000 cash for the loss of the Pat Cleburne. Capt. Dick Fowler's policies have also been settled for $5,800, and will be paid in September.

THE Polar Star collided with the Danville bridge, tearing away 25 feet of her guards. The tug Ida, in bringing her tow through the Paducah and Louisville bridge, struck one of the piers, sinking 2 barges, containing 21,000 bushels of coal. The tug and coal belonged to the St. Bernard Coal Co.

IT is rumored that Mr. Wm. Harbison, late clerk of the Exchange, has been tendered a responsible and lucrative position in Chicago. Capt. A. McCarty would not object to accepting a similar position; he feels himself capable of discharging the duties of almost any position, no matter how arduous or responsible.

CAPT. JAS. LEE, JR., on Tuesday last contracted, at Metropolis, Ill., with Alf. Cutting for a new hull, to be completed in 60 days, to be 200 feet long, 34 feet beam, 30 feet floor and 6 feet hold. The machinery and cabin of the Quickstep will be transferred to the new boat, and she is intended to be a Friar's Point, Greenville or Vicksburg packet, as occasion may demand.

AT Mound City, last Wednesday, Dan. Rice presented Capt. David Hiner with a piece of one of the logs from the first cabin built by Abraham Lincoln and his father, when they came to Illinois and settled in Macon county, in 1830. It is a historical fact that nine different kinds of wood entered into the composition of that cabin, which was sixteen by eighteen feet, without a window in it. The Captain also has a cane presented to him over forty years ago by 'Old Hickory,' whom he very much resembles, except that the Captain is not so lank as the General was, and much more symmetrical in his make up.

A ST. LOUIS special to the Cincinnati *Commercial*, under date of Saturday, says: The late rains have been heavy and very general, and the water will probably come 3 or 4 feet higher here yet. A good deal of the bottom land along the Lower Missouri is inundated. There were no boats left the ore pile to-day. Capt. James B. Eads arrived from New Orleans this morning, and goes from here to Washington. He says there is now 18 feet of water through the jetties at high tide. Com. Kountz will remain here all next week, superintending the completion of the new Paragon, which will be the next Kountz Line boat to load for New Orleans. The Fannie Lewis, from the Missouri to-day, brought 13,000 sacks of wheat, the largest trip of the season.

Latest Advices Concerning Money and Stock Matters.

OFFICE OF THE PITTSBURGH GAZETTE, TUESDAY, June 20, 1876.

The money market remains entirely quiet, with no distinctive features of any character. What we have said, during the past several days, is still true in every particular. One of the most noticeable features in finances is the complete reversion in the currency movement in the last few days. There has been but little sent out to any part of the country for several days, but to-day there was scarcely any, and on the contrary there were large amounts coming in from all quarters, thus making it apparent that marketing in the country has stopped, and that the farmers are disposed to hold on to what they have for higher prices.

The telegrams of failures in Europe, including that at Cardiff, England, to-day, point to a worse prostration of the industries of that country than we have here at the present. The general outlook in this country, and particularly in this city, is rather hopeful than otherwise, and that of England is singularly depressed. Yet she has a gold currency and we have not.

—Some interesting statistical facts, recently collated and printed, show that, so far as respects silver, the whole tendency of supply and demand during late years has been to put down its value, and that, in respect to gold, the course of supply and demand has tended only to augment its value. It cannot be denied that the causes leading to the present disturbance of the silver market are of a fundamental character. An intelligent foresight on the parts of the Governments and banks might have prevented the degradgement entirely, and the intelligent moderation exercised by the same arbiters might do a great deal towards bringing the two metals back to their usual relative status, but, at the moment, we see little disposition to treat the situation otherwise than in a way that is calculated to aggravate its difficulties. Germany, the chief author of the whole trouble, persists in coining gold; Vienna demands of the Austrian Government the adoption of the gold standard; a school of French scientists, so called, urge the single standard of France; and a class of English investors in India securities are asking that gold be made the lawful money of British India. All these things are difficult, perhaps impossible, but they do not the less on that account stand in the way of adopting the policy of recognizing the claims of both metals to be used as currency.—*Phila. North American.*

—Five million nine hundred thousand dollars worth of soda, it is stated, are yearly imported into the United States for use in the arts. Six hundred miles west of Omaha, and about forty miles north of the line of the Union Pacific Railroad, there is said to be an inexhaustible supply of the carbonate, in a much purer form than the crude imported ash. In one place there is surface deposit many acres in extent, and six feet deep, while alkaline lakes and smaller deposits everywhere abound. It is stated that when the branch railroad is constructed to the deposit, the material can be placed in the markets of the coast at about three-fifths the cost of the foreign article.

—The bill passed by the Connecticut House of Representatives to reduce the legal rate of interest to 6 per cent., provides, however, that the borrower may pay, or agree to pay, the taxes assessed and paid upon the loan, and, in computing interest, 360 days may be considered a year. Any person who shall receive for forbearance more than at the rate authorized shall forfeit the interest for the time so taken.

NEW YORK, June 19, 1876.

Money closed easy at 2@2½; prime mercantile paper 3½@4½. The customs receipts were $333,000. The Assistant Treasurer disbursed $97,000. The clearings were $9,000,000. Sterling was quiet at 488¾@489½. Gold opened and closed at 112⅝, with sales in the interim at 112⅜. The borrowing rates were 1 to 2 per annum, and 1-64 per diem. Loans were also made flat and at 2 for carrying. Governments were strong and in good demand. Railroad bonds were firm. State securities were steady. The stock market was firm and higher in early dealings for western shares, but otherwise quiet and steady. Later there was a break in the coal roads, which had a depressing influence on the general market. New Jersey Central declined to 74⅞. Delaware, Lackawanna & Western to 104⅝ regular and to 104½ seller sixty, and Delaware & Hudson Canal to 105. Shortly before the close the market became firm and prices advanced ¼ to 1 per cent., with the greatest improvement in the coal roads. The advance was caused by a denial of the report freely circulated during the morning that the Delaware & Hudson would pass a dividend. The transactions were 83,000 shares, of which 11,000 were Western Union, 13,000 Northwests, 5,000 Rock Island, 14,000 St. Pauls, and 20,000 Lake Shore.

Breadstuffs.

Breadstuffs interests yesterday, in the local market, were devoid of life. Prime dry grain—wheat, corn and rye—suited to the export trade, was offered with reserve and at strong prices, checking operations, though the easier range of ocean freights favored shippers. An unusual proportion of the available supply of grain here is soft and otherwise out of condition, and this forms a serious hindrance to a free export movement. Spring wheat of this class, particularly of Minnesota product, was pressed for sale at much lower figures.—*N. Y. Bulletin, 17th.*

PITTSBURGH MARKETS—WEEKLY REVIEW.

OFFICE OF THE PITTSBURGH GAZETTE, MONDAY, June 19, 1876.

General business continues dull, more so than usual, even at this particular time, when it is always sluggish, and it is not probable that there will be any decided change for the better until the fall trade sets in. The Grain business continues very dull, and notwithstanding stocks here are small, prices are weak and drooping. Flour also dull. The Hog products have stiffened up materially, and as will be seen, we have advanced our quotations from ¼ to ½ a cent ℔ ℔. In Groceries, trade continues quiet, and there is nothing new to record, except that both Sugars and Coffees are firmer. Butter continues dull; Eggs firmer and higher. Hay very dull and lower, and the same is true of Mill Feed. Indeed, depreciation in values continues to be the order of the day, hence business is very unsatisfactory, as there has been little or no margin for profit, and there is considerable complaint in regard to collections.

Since the date of our last review, we have had considerable rain, which was badly needed by the growing crops, and the prospects at the present writing are all that could be desired for an abundant harvest.

ASHES—Trade continues dull, and prices are lower: Common Soda, 2¾a3c; Refined do., 3½a3¾c; Arsenic, 5c; Nitrate Soda, 4c.

ALE—There is no change to note in prices and trade is generally reported dull, like everything else, affected by the hard times. X $8 ℔ bbl to the city and $9 to country; XX $10; India $11. half bbls in proportion.

APPLES—In consequence of the abundance of berries and other small fruits, there is very little call for green apples and the supply of old crop is about exhausted; quotable at $1a5 ℔ bbl in a small way.

BEANS—The market continues very dull, and while the supply is small, it is fully equal to present wants—scarcely enough doing to establish quotations; may be quoted, in a jobbing way, at $1a1,10 ℔ bu, for navies. However, it will be some time yet before new crop make their appearance, and if there is any inquiry in the meantime, prices might possibly improve.

BUTTER—The market continues overstocked, and prices are weak and in buyers favor; strictly prime solid packed selling at 15a16c; common to fair, 10a13c. Peddlers and farmers are bringing in enough to supply the market, hence for the present commission merchants are doing next to nothing. However, the feeling begins to prevail that hard pan has been reached; there is no question but the low prices will check receipts, and then the time is at hand when there is always more or less packed for the fall and winter.

BROOM CORN—Dull; sales in small lots only. We quote: Choice No. 1 Hurl, 9c; No. 2 Hurl, 8c; choice green brush, 8c; red tipped, 7c; insides and covers, 5a5½c; crooked, 4a5c.

BRUSHES—White Scrubbing, $10a11 ℔ gross; Gray, $11a20; White Bristle, $22a36; Shoe, $13a0; Horse (wood backs) $22a66; Horse (leather backs) $45a135; Extra white-wash, $36a75; Common do, $24a60.

BELTING—Following are the current rates for best belting:

Inch.	Per Foot	Inch.	Per Foot
1	$ 06	5	54
1½	12	5½	60
2	13	6	66
2½	24	7	78
3	30	8	90
3½	36	10	1 14
4	42	12	1 38
4½	48	14	1 62

Discount 15 to 30 per cent. as to quality and quantity.

BROOM HANDLES—We quote in a jobbing way:

No 1 Plain	$16 00	℔ thousand
No 2 do	12 00	do
No 1 Painted	24 00	do
Toy Painted	12 50	do

BEESWAX—There is a steady demand at 30a35c, as to quality.

BROOMS—There is a fair demand, but the market lacks activity, and prices are too low to admit of any further decline. Manufacturers generally complain of meagre profits at present prices.

CEMENT, &C., &C.—Following are the jobbing rates: White Lime—Cleveland and Fremont, $1,60a1,75 ℔ bbl; Ohio, $1,50a1,65. Cement—Rosendale $2a2,50 ℔ bbl; Youghiogheny, $2,00a2,25; Louisville, $2,00a2,25; New Lisbon, $2,25a2,75; Portland, $6,50a7,50. Plaster—French's Selected, $1a4,25; New York, $3,50a3,75; Michigan, $3,50a3,75. Land Plaster, $3a3,50. White Sand, $1,50a1,75 ℔ bbl.

COOPERAGE—Quiet, but prices well sustained with moderate business. Prime dry pointed staves, $33; do matched, 34; bucked staves, 31; do matched, 33; split heading, 40; sawed do, 43; rough staves, $22. Oil barrels dull; countries, $1,05; city make, $1,20a1,25.

CHEESE—There is a fair demand, and the supply here is light, the receipts recently having been small, but prices remain as last quoted; prime new Ohio Factory, 10a10¼c in a jobbing way. The general tone of the market is scarcely as firm as it was a week ago, in consequence of unfavorable reports from New York.

CANNED GOODS—Are dull, in consequence of the abundance of fresh vegetables and berries, and the season is about over; dealers are anxious to close out, and prices are weak and drooping. Following are the current jobbing rates:

2 ℔ Blackberries	$2 00	3 ℔ Bartlett Pears	3 00
2 ℔ Blueberries	2 00	3 ℔ Common Pears	2 25
2 ℔ White Cherries	2 75	2 ℔ Pine Apple	2 75

3 ℔ Peaches	2 25	2 ℔ Peas	1 50
3 ℔ pie Peaches	1 60	3 ℔ Tomatoes	1 00

We quote the American Fruit Co.'s fruit as follows:

Rhubarb in bbls—40a42 galls....$14 ℔ bbl.
Apples in bbls....40c ℔ gal.
Peaches in half bbls....40c ℔ gal.

COAL AND COKE—Coke remains about as last quoted; $2,40a2,50 per ton delivered here. Coal, 5a5½c ℔ bu, in a round lot way, and trade very dull.

CORDAGE AND ROPE—Business continues exceedingly dull, and even the sharp decline noted in our last review does not appear to have stimulated the demand. Following are the current rates:

MANILLA ROPE.

⅜ inch diameter and upwards....14½ cts. per lb
¼ and 5-16 in. diameter....15½ "
Tarred rope and lath yarn....
Hay, stave and leather twine....

OIL WELL DRILLING CABLES.

Hawser laid....14½ cts. per lb
" Bolt Rope Yarns....14½ "
Sand Pump Rope....14½ "

SISAL ROPE.

⅜ inch diameter and upward....9½ cts. per lb
¼ and 5-16 in. diameter....10½ "

JUTE ROPE.

All sizes....

DRIED FRUIT—There is no improvement to note in the demand, nor is it likely that there will be until next winter, in view of the fact that there is an abundance of fresh fruits in the market already and the supply will be increased from this on. Apples quoted nominally at 8½a9½c. per lb; Peaches, at 10½a11 for halves, and 14a15 for pealed.

EGGS—The market has stiffened up somewhat within the past few days, and since the date of our last weekly report prices have been advanced 1a2c per dozen; we now quote fresh stock at 14a15c. The improvement to which reference has just been made, was owing more to a diminished receipts than any improvement in the demand, as the consumption is always light during the hot weather.

FLOUR—There is a steady consumptive demand for good standard flours. There is no scarcity of low grade offering, and it is very dull, as it is not wanted. Dealers nearly all report that Spring Wheat flour is, to a considerable extent, taking the place of winters in this market, as it is giving much better satisfaction; bakers are using more of the former than for several years, and retailers are selling a much larger proportion than usual. In regard to the immediate future of the market, the probability is that there will be no change in well known brands during the next 30 or 40 days; however, if the yield of the coming wheat crop should turn out as well as it now promises, cheaper flour is only a question of time, unless something extraordinary should occur—a foreign war for instance. We continue former quotations, in a jobbing way: Spring wheat flours, $6,00a6,75, the outside figure for choice Minnesotas; red winters, $6,50a7; ambers, 7,25a7,50; fancy white wheat and patent process, $8,50a8,50. Rye Flour, 4,75a5.

FISH—Mackerel, as will be seen, are down considerably, as are also Lake Herring, while Split Labrador are higher. Following are the current rates:

Ex No 1 Mess Mackerel	$24 00	℔ bbl.
No 1 do do	22 00	do
No 1 Shore do	20 00	do
Large No 3 do	14 00	do
Split Labrador Herring	8 00	do
Whitefish	5 75	℔ hf bbl
Lake Herring	2 50	℔ ½bbl
Large Georges Codfish	6½c	℔ ℔
Medium do	6	do
Boneless Codfish	7	do
Halibut	12 50	do
No 1 Herring	40c	℔ box
Scaled do	50	do
Smoked Bloater Herring	$1 75	do

FEATHERS—In fair demand for this season of the year; sales round lots, 56a57 and 18 for extra fine lots.

GINSENG—New has not arrived in sufficient shippers particularly against shipping root not thoroughly dry.

GROCERIES—Coffee—The late telegram from Rio, dated 14th inst., is favorable to holders, shipments to the United States being light, stock diminished, market firm and a shade higher. The European advices show a firmer market at advanced quotations for all descriptions. The absence of late reports on the current growing crop in Brazil indicates that the crop is at least an average one, if not very large; and will tend to hold prices down. At the moment, however, the market in the U. S. is firm, but there is no speculative demand. The statistical position does not vary much from our last weekly report, showing large stocks in this country. Sugar is held strong, and the demand active. N. O. Molasses firm. Syrups easy. Rice steady. Teas inactive and lower. Spices dull.

GRAIN—Trade in our market continues exceedingly dull, more so than ordinarily at this season of the year, when it is always dull, and there is but little prospect of any improvement; stocks here are light but so is the demand, which is restricted entirely to supplying immediate wants, and while prices are weak, there has been no quotable decline since the date of our last review. Many dealers report that they never knew business to be so dull here as it has been ever since the first of the year, and, in addition, in consequence of an almost uninterrupted shrinkage in values, there has been no margin on the contrary a loss. There is not much call for Wheat, but the supply of strictly No. 1 winter is light, and prices in consequence are still maintained; No. 1 crop 1.75, $1,20a1,33; do 1874, $1,38a1,40. Low grade Wheat is not wanted at any price, and there is no demand for white Wheat. There is considerable fluctuation in Chicago, but there is very little Spring Wheat used hereabouts, hence the fluctuations there have very little influence here excepting on those who are operating there on margins. The Oat market continues overstocked and very dull, and prices have still further declined; we now quote at 34a36 for mixed to white. It was thought that prices would rule higher, as they frequently do just before harvest, but it appears that the supply in first hands is unusually large, and as there is every prospect of a big crop, there is a general disposition to realize. If the present crop should turn out as well as it now promises, there will no doubt rule very low the coming fall—some operators predict that 25c will be the ruling price. Corn in very limited supply, both Ear and Shelled, but there is very little inquiry, and there is scarcely enough doing to establish rates. Shelled is quotable on track at 52a55, for fair mixed to prime Yellow, and Ear at 50a53. The hot weather and low price of Oats combined, have curtailed the consumption of Ear very materially. Rye continues quiet and unchanged, 78a80.

HEMP—$125a130 ℔ ton for Ky. Rough.

HAY—The market continues very dull, and with liberal receipts, the supply accumulating and a general disposition to sell, prices are weak and lower; we reduce our quotations for baled to $12a13 for No. 1 timothy, and $9a10 for No. 2. Loose from country wagons, $10a15.

HIDES—The prices have declined since our last report. There is a good demand for heavy steers, but cows, bulls and damaged are lower and hard to sell. We quote:

Green Salted Cows	6½a 7
Green Salted Steers, Light	7½a 8
Green Salted Steers, Heavy	9 a 9½
Green Salted Calf	9 a11
Green Butcher Cows	5½

LEATHER—General market rather quiet. Rough Leather in fair demand for choice article—common grades a drug in the market. Upper and Kip—no demand except for usual hand-to-mouth actual orders. Calf slow. Red Sole in good demand in small lots. We quote:

POULTRY—Live Chickens selling, by the coop, at 50a60c ℔ pair for young, and 65a70c ℔ pair for old.

POTATOES—The supply of old crop has been light during the past week, although fully up to the demand, which was also light; selling at 35a40c ℔ bu. in a jobbing way. New crop coming forward more freely, and prices are lower in consequence; $3a3.50 ℔ bbl.

PROVISIONS—All descriptions have advanced sharply, and the belief is that much higher prices will rule in July for Sugar cured Winter meats. Cincinnati asks 14 cents for spot hams, 16 lbs average, and 14c for delivery July 1, in 100 tierce lots. Lard and Mess Pork higher.

ALLEGHENY LIVE STOCK MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, MONDAY, June 19, 1876.

CATTLE.

The supply was somewhat in excess of that of last week, and with a light demand the market was very dull, and prices 20 to 25c per cwt lower; indeed, rates for all grades of cattle were cheaper to-day than they have been for a number of years. The Chicago bought cattle, which constituted the great bulk of the supply, did not cost as much as those of last week, but this did not offset the decline holders were obliged to submit to-day in order to effect sales, and the market, therefore, was not as good in consequence. Some dealers reported it as having been the worst of the season, and all conceded that it was very unsatisfactory.

The very best cattle brought 5¾; one firm reported having had one car of the choicest butcher cattle that has been offered here for many a day, averaging about 1,300 lbs, yet 5¾c was the best figure that could be obtained; these same cattle would have brought 6c last Monday. Prime butcher cattle sold to-day at 5¼a5½; and medium to good at 4¾a5. Many of our good butchers are not paying above 5a5¼c for cattle, and there was no trouble to-day in buying good stock at the rates last quoted.

Stock cattle, of which there were none on sale, may be quoted at 3½a4c; Bulls, 2¾a3¼c per lb, according to quality and condition.

SHEEP AND LAMBS.

The supply was 136 head short of last Monday, and with an increased demand and diminished supply, the market was firmer and more active, but, while better rates may have been obtained in some instances, there was no general advance. Prime stock, the supply of which was scarcely equal to the demand, sold readily at full rates, while common grades were dull. Included in the sales were: 18 at $2¾a3 per head for sheep, and $2.75a3.75 for lambs; 120, at 3½a5c per lb for former, and $2,50a4 per head for latter; 166 fair to extra sheep at $3.25 per head to 5,40c per lb; 40 lambs at $2¾a3½ per head; 40 at $2a3.25; 30 at $2 per head to 6½c per lb; 30 at 4½c per lb for sheep and $1½ per head for lambs.

PITTSBURGH PETROLEUM MARKET

OFFICE OF THE PITTSBURGH GAZETTE, MONDAY, June 19, 1876.

The Crude market was weak to-day, and prices, as compared with Saturday, were lower. United quoted at $1,97½a1,98¼, and immediate shipment at $2,20a2,17¾. Refined quiet and unchanged; Philadelphia delivery, 14⅝c; Baltimore, 14a14½c; on cars here, 11½c. The river is again in good condition for shipping to Richmond, via Huntington, and the outside refineries will take advantage of it; it is but proper to state, however, that at no time yet have shipments been suspended in consequence of low water, and we apprehend that the water will not get down that low this summer as to stop shipments entirely.

Oil Barrel market continues quiet and unchanged; countries, $1,05; city make, 1,20a1,25.

RIVER NEWS.

State of the Rivers, Movements of Steamboats, &c.

THE stage of water last evening was 3 feet 3 inches by the marks and falling. Cloudy and cool; business at the landing continues very dull.

THE towboat James Gilmore is laid up at Wheeling.

THE barge of coal sunk at Waters' Landing, last Wednesday night, belonged to Lynn & Son of Pittsburgh.

THE towboat Veteran, sunk at Crow's Island and raised, will arrive from Beaver to-day, and go on the docks for repairs.

CAPT. CHAS. ADAMS, of the Whale, has arrived home, as has also Capt. Thos. Darragh, of the Arkansas river steamer Rosa Miller.

CAPT J. T. STOCKDALE is thinking of building a mammoth stern-wheel freighter, similar to the Paragon, built here by Capt. Darragh.

CAPT. TOM DARRAGH says he has no intention of committing matrimony for the present; however, it is not likely he would own up to it if he had.

THE present rise, while it is not likely to hold out very long, will no doubt let up a number of boats laid up at different points between here and Cincinnati.

THE new Arkansas river steamer Gov. Garland was towed from Rees' shop in Allegheny to the main landing, where she will be completed, and at once load and take her departure for the south.

THE veteran river editor of the Cincinnati *Commercial*, is decidedly hostile to the Republican nominee for Vice-President, claiming that his record in Congress is unfavorable to river interests.

THE C. W. Hornbrook, arrived from Wheeling with a barge containing a portion of the Jno. L. Rhoads' freight; the Rhoads started up herself yesterday, and will doubtless be found in port this morning.

THE Evansville, Cairo and Memphis Steam Packet Company settled with the Underwriters on Saturday, and received $18,000 cash for the loss of the Pat Cleburne. Capt. Dick Fowler's policies have also been settled for $5,800, and will be paid in September.

THE Polar Star collided with the Danville bridge, tearing away 25 feet of her guards. The tug Ida, in bringing her tow through the Paducah and Louisville bridge, struck one of the piers, sinking 2 barges, containing 24,000 bushels of coal. The tug and coal belonged to the St. Bernard Coal Co.

IT is rumored that Mr. Wm. Harbison, late clerk of the Exchange, has been tendered a responsible and lucrative position in Chicago. Capt. A. McCarty would not object to accepting a similar position; he feels himself capable of discharging the duties of almost any position, no matter how arduous or responsible.

CAPT. JAS. LEE, JR., on Tuesday last contracted, at Metropolis, Ill., with Alf. Cutting for a new hull, to be completed in 60 days, to be 200 feet long, 34 feet beam, 30 feet floor and 6 feet hold. The machinery and cabin of the Quickstep will be transferred to the new boat, and she is intended to be a Friar's Point, Greenville or Vicksburg packet, as occasion may demand.

AT Mound City, last Wednesday, Dan. Rice presented Capt. David Hiner with a piece of one of the logs from the first cabin built by Abraham Lincoln and his father, when they came to Illinois and settled in Macon county, in 1830. It is a historical fact that nine different kinds of wood entered into the composition of that cabin, which was sixteen by eighteen feet, without a window in it. The Captain also has a cane presented to him over forty years ago by 'Old Hickory,' whom he very much resembles, except that the Captain is not so lank as the General was, and much more symmetrical in his make up.

A ST. LOUIS special to the Cincinnati *Commercial*, under date of Saturday, says: The late rains have been heavy and very general, and the water will probably come 3 or 4 feet higher here yet. A good deal of the bottom land along the Lower Missouri is inundated. There were no boats left the ore pile to-day. Capt. James B. Eads arrived from New Orleans this morning, and goes from here to Washington. He says there is now 18 feet of water through the jetties at high tide. Com. Kountz will remain here all next week, superintending the completion of the new Paragon, which will be the next Kountz Line boat to load for New Orleans. The Fannie Lewis, from the Missouri to-day, brought 13,000 sacks of wheat, the largest trip of the season.

Postponement.

The meeting in the interest of Theological education, and particularly of Drew Theological Seminary, announced for Christ M. E. Church has been postponed from Tuesday evening, June 20th, until the Autumn, the precise date to be determined hereafter. The immediate cause of the postponement was the desire not to conflict with the commencement of the Female College, which occurs this (Tuesday) evening.

Horrible Death.

An accident of a most horrible nature occurred at Elizabeth, on the Monongahela river, yesterday morning, resulting in the death of William Sewart, a farmer residing in Jefferson township, this county. He came to Elizabeth early in the morning in a buggy, to which was attached a young horse. The horse took fright and started to run, when Mr. S. was thrown out. His foot became fastened to the buggy in some way and he was dragged for nearly a mile breaking his neck and literally crushing his head to a jelly.

Suicide by Hanging.

Coroner McCallin yesterday held an inquest on the body of George Allen, at Millvale borough, who committed suicide by hanging himself with a clothes line Sunday evening. He resided with his brother, and it appears has been of unsound mind for some time past, having on a former occasion attempted to take his own life by shooting himself. His brother and wife left home a short time Sunday evening and when they returned found him hanging behind the door dead. The jury returned a verdict in accordance with the above facts.

He is about 60 years of age. Hight 5 feet 11 inches, with whiskers and mustache, wore a drak suit with sack coat, black felt hat and a cane with German Silver head marked K. P.

The Eclectic Medical Association of Pennsylvania will hold its annual Convention in this city, Thursday and Friday, June 22d and 23d, in Council Chambers. Some of the most eminent among the class of physicians and surgeons in the State will be present. From ten o'clock, A. M., until twelve of both days a free clinic will be held at the office of Dr. Warner, No. 10 Ninth street, Pittsburgh, where all those who wish to avail themselves of the opportunity will receive either medical or surgical treatment free of charge. The regular sessions of the Convention will be held in the afternoon. The headquarters of the Association will be at the St. Charles Hotel.

A SPECIAL MEETING.

Allegheny Councils to Consider the Water Supply and Fire Display.

A special meeting of Allegheny Councils has been called for Thursday evening. The object is two-fold: First, to do something about increasing the water supply in the hill districts. The Water Committee will meet to-morrow evening, when some plan will be prepared for the purpose and be presented to Councils for adoption on the following evening. The second object is to adopt a resolution requesting the Mayor not to enforce the ordinance prohibiting the setting off of fireworks on the Fourth of July. The Centennial Committee, as our readers are aware, are making arrangements for a grand display of fireworks on Monument Hill on the evening of the Fourth, but as the ordinance forbids anything of that kind in the city, Councils are to be asked to suspend the ordinance for that one day.

BASE BALL NOTES.

Record of Yesterday's Games.

The Alleghenys won the game with the Sewickleys at Union Park yesterday afternoon, by a score of 12 to 5. On Thursday and Saturday ensuing the Stars, professional, of Covington, Kentucky, will play the Alleghenys, and the Braddocks on Friday. Next Monday the Alleghenys and Red Stockings, of St. Louis, will compete with each other. There is said to be a project on foot to make Ritchie manager of the Allegheny nine. It would be the best movement ever inaugurated for the benefit of that club. It needs a manager badly, and if one should be appointed he ought to be given absolute authority, and the directors, stockholders, nor anybody else should not be allowed to interfere with his management, holding him responsible, of course, for the performance of his duty. Appoint Ritchie by all means, and centralize in him the authority that is now scattered among twelve or fifteen different persons. It will do immense good.

At Columbus, Ohio, yesterday, the Buckeyes defeated the Bostons by a score of 7 to 5. The Neshannocks won their second victory over the Standards, at Wheeling, yesterday, by a score of 7 to 5.

HOWARD STREET WALL.

Additional Developments by the Investigating Committee.

Another meeting of the Howard street Investigating Committee of Allegheny Councils was held last evening, Mr. Knox presiding.

Mr. Biber, of the sub-committee, reported that the Howard street wall had been examined up to that portion erected at the expense of the city. The committee stopped the work of digging the trenches at this point as they did not know whether they had authority to proceed any further with the examination. Since the last meeting the committee has discovered the wall to be short at three different points. At the first it is short nine feet eight inches in width and ten feet eleven inches in height, and at another eight feet four inches in width and four feet in height. At both these points the wall is about eleven feet thick. At the third point it was found to be seven feet three inches short in width and twelve feet short in height; at this point the wall is about fourteen feet thick. The committee has not yet found the offset in search of which the excavating was first commenced. It is supposed to be in that portion of the wall erected by the city.

On motion of Mr. Sholes the sub-committee was directed to examine the resolution under which it is working, and if they have full power in the premises that they proceed at once to complete the examination.

Mr. Carlisle, Assistant City Engineer, said that he had measured the wall, and his measurements did not altogether agree with those made by Mr. Biber. After some discussion it was agreed that Mr. Carlisle should meet with the sub-committee this morning, and that they should make all the measurements together.

On motion of Mr. Wilhelm, Mr. Carlisle was directed to prepare a full plan of the wall according to the original plans, and to mark in colored inks the exact condition in which the wall is now found to be, also to calculate how many perches of stone the wall is short of what it ought to be. The committee then adjourned.

LOCAL OPTION AGAIN.

The Re-enactment of the Law Advocated by a State Temperance Convention—Its Complete Divorcement from Politics Urged—Sessions Yesterday Afternoon and Evening—Resolutions Adopted.

A Temperance Convention was held yesterday afternoon at the Alliance rooms, corner of Penn avenue and Sixth street, for the purpose of taking action looking toward the re-enactment of the local option law. It was called a State Convention, though but few delegates outside of Allegheny county were present. The assembly was called to order by Dr. Jennings, of Moon township, at whose suggestion Hon. F. R. Brunot was elected permanent President. After the delivery of an opening prayer by Rev. F. R. Wotring, of Mansfield, Pa., the following additional officers were elected: Vice Presidents—Rev. Dr. Nesbit; Joseph Wilson, of Homestead; Rev. F. R. Wotring, Rev. Dr. Easton, A. T. Moorhead, of Indiana, and H. David Rodgers, of Mansfield. Secretaries—Rev. J. T. Oxtoby, of Erie county; Rev. S. M. Henderson, of Erie county; R. C. Craft and W. H. Guy, of Allegheny county. In his preliminary remarks Mr. Brunot said that he thought the repeal of the local option law premature, and held that the voters of each township ought certainly to be allowed the privilege of deciding whether or not liquor should be sold within its precincts. Dr. Jennings read a paper expressing his views concerning the particular subjects, all included under the general head of temperance, which he thought the Convention specially called upon to consider. The meeting then proceeded to business by appointing the following committees:

Committee on Business—Dr. Jennings, H. C. Brown, Thomas Lawrence, D. J. Rodgers and Rev. J. B. Waddle.

Executive Committee—Rev. Dr. Ormond, Dr. J. C. Kennedy, Rev. Mr. Shaw, Rev. J. S. McConnell, Gen. F. H. Lane and Dr. D. L. Starr.

Committee on Preparing an Address to the People—Dr. D. L. Starr, Rev. J. T. Oxtoby, Rev. S. C. Jennings, Rev. G. K. Ormond, Rev. J. S. Eastman and Rev. R. Audley Brown.

During the formation of the committees Rev. Deens objected to ministers composing a majority of each, and alleged that the ministry included some "dumb dogs," who were not of much account, and that the people were prone to believe from the fact that ministers were so often prominent in these matters that they assumed the control and management of them to the exclusion of laymen. Rev. Phipps was quick to resent the imputation that he thought Rev. Deens had put upon the ministry. He said that preachers never stood as barriers in the way of progress, and that they were not "dumb dogs" either. The large number present in the Convention was proof of the interest taken by them in the cause of temperance. It looked for a moment as though there would be a wordy warfare between the two gentlemen, but the matter was quieted before a stormy outbreak occurred.

On motion of Dr. Ormond the ladies of the various Temperance Societies in Allegheny county were requested to name two of their members to be added to the Executive Committee.

Dr. Jennings, from the Business Committee, submitted the following:

WHEREAS, The temporal and spiritual interests of the inhabitants of Pennsylvania would be best promoted by prohibiting the manufacture, sale and use of intoxicating drinks as a beverage; and

WHEREAS, The civil power of the State emanates from the people, of whom we are a part; therefore

Resolved, That in the exercise of that power at the ballot box, and by all other lawful means we will seek to secure such legislation as will give us a local option law.

Resolved, That while we lament the existence of other evils in the Commonwealth besides the use and sale of intoxicating drinks as a beverage, we assert that this is the greatest, being the parent of many others, and that it should be promptly removed.

Resolved, That in our choice in civil officers we will give our preference to men of temperance principles and of temperance habits, and that we earnestly invite the press everywhere to encourage and support our cause.

Resolved, That it is hereby recommended to the friends of the local option movement in every county by committees to respectfully interrogate every candidate for the Legislature of Pennsylvania as to his willingness to favor the enactment of a local option law, such as the new Constitution would sanction.

Resolved, That in the counties of the State where the voters for the late local option law were successful, that they be requested in this great struggle for truth and righteousness to ascertain as far as possible the amount of intoxicating liquor sold in their respective counties during as much time before and after the operation of said law as there was during the length of time it was in force, and other facts bearing on the question of the usefulness of said law, and publish them through every possible channel.

Resolved, That we recommend to the friends of such a law to meet in their several counties and appoint a committee of vigilance to carry out the measures proposed and to circulate petitions to the Legislature for such a law, and to do whatever else is wise and just, to save our Commonwealth from the ruin effected by both adulterated and genuine alcoholic liquors.

Resolved, That in reliance on a righteous Providence we will persevere in our object and that the Executive Committee be requested to call another meeting at such time and place as they may think proper.

The resolutions underwent a long discussion, and after numerous emendations they were adopted as reported above. The Convention then adjourned until evening.

Evening Session.

At eight o'clock last night the Convention re-convened in the Smithfield street M. E. church, at the corner of Seventh avenue. Mr. Brunot being absent his place as presiding officer, was filled by Mr. Wm. Little. The audience was a very small one, a fact which Mr. Little deprecated when he spoke of the time when the aisles and seats of this church were filled with people anxious to learn of temperance.

Dr. Starr, from the committee appointed in the afternoon to prepare an address to the people, submitted and read a very elaborate and carefully prepared paper of considerable length. It abounded with statistics, from which the writer culled the following relative to this State. In Pennsylvania there are 16,000 educational institutions of all kinds, and 23,606 dram shops, the latter being nearly 8,000 in excess of the former. The teachers of all grades number 18,783, and the employes of liquor shops 45,490, the proportion in favor of the latter being nearly as great as three to one. $8,399,723 are spent yearly for education and $65,000,000 for liquor, equivalent to $8 for knowledge and $65 for drunkard making. In Allegheny county there are two distilleries and forty-four breweries, employing 460 persons in the manufacture of liquor and 5,400 in selling it. The address further stated that in this county there are 10,800 hopeless drunkards, of which 3,600 are females. It concluded by stating the following as the object which the Convention desires to attain. "Our proposition is to disconnect the license to manufacture and traffic in intoxicating liquors from all other political considerations and let it stand or fall on its own merits. Let the popular vote decide whether this State shall be a copartner in the nefarious business of making drunkards, criminals and paupers, as it certainly is, while for a fee it grants licenses to pursue a business the legitimate and constant fruits of which are drunkards, crime and poverty. If we are convinced that the people of our State are so lost to virtue and philanthropy that they prefer drunkenness to sobriety; crime to innocency, and poverty to competency, then we are in a deplorable condition. Our principal difficulty has been to control the influence of patriots and philanthropists so as to make that influence bear directly on this subject, without effecting others. In our proposed efforts to have the local option law re-enacted we do not ask the Republican to be less a Republican, nor the Democrat less a Democrat, nor do we ask the Prohibitionist to be less a Prohibitionist, but we do say to good men and women of all parties and religious denominations that God and humanity demand our concentrated action. Our Government is founded on the principle that the majority have a right to govern, within certain restrictions, and we want to bring our concentrated influence to bear on our lawmakers to induce them to enact a law equivalent to the repealed local option law, embracing the whole State, so as to present the question to the popular vote, 'Shall license to manufacture and traffic in intoxicating liquors be granted in our State?' It would seem that under our popular form of government nothing could be more consonant with its theory. But when we had such a law it was repealed at the demands of the liquor interests. Do we inquire why it was repealed? We point to the boom investigation of the last session of our Legislature, and ask why members of that Legislature were expelled. Our plain course of action is to demand candidates for office who 'fear God and hate covetousness.' Let our Republican friends say to their candidates, 'We require of you a solemn pledge that you will use your vote and influence if elected to the Legislature to enact a law equivalent to the late local option law.' Let our Democratic friends require the same pledge of their candidates, and our Prohibition friends will stand the same test. If any candidate fails to make the required pledge we must and ought to excise him, though he be our brother, and give our votes and influence to those who are pledged on the side of local option."

The paper was discussed by Rev. Geo. P. Hays, Dr. Ormond, Dr. Jennings, Rev. R. A. Brown, Dr. Starr, Mr. George Finley and others, succeeding which it was adopted. The Convention then adjourned.

THE JURY in the case of the Commonwealth vs. Lafferty and Elliott indicted for rape, which retired Saturday afternoon, were out until yesterday morning when they returned a verdict of guilty as to both defendants. CHARLES T. BARKARY yesterday instituted proceedings in Common Pleas Court No. 1 against James Getty, Jr., to recover damages for false arrest and imprisonment. SINCE the publication of charges against J. C. Golden in the Kreuger case another alleged irregularity has been discovered. A Mrs. Smith, of Allegheny City, was the defendant to an action for damages in the Common Pleas Court, and had employed Mr. Golden, she alleges, to attend to the case, and paid him about $30 in all, he reporting to her that he had effected a compromise. A day or two since, however, she received notice to file an affidavit of defense, or judgment, for $5,000 the full amount claimed would be taken.

IN MEMORIAM.

Resolutions Relative to the Death of Col. Robert Anderson.

A meeting of the members of the Ninth Regiment, Pennsylvania Reserve Association, was held last evening at the office of Swearingen & McCandless, Fourth avenue, to take some action relative to the death of Col. Robert Anderson, late Colonel of the Regiment.

T. Brent Swearingen was called to the chair, and Thos. Hamilton, Esq., was appointed Secretary.

The object of the meeting having been stated, the following named gentlemen were appointed a committee on resolutions: Messrs. Hardtmeyer, Shukle, Abel and Swearingen.

Captains Barber and Hardtmeyer, Col. Snodgrass and Sergeant Gilmore were announced as pall bearers.

RESOLUTIONS OF RESPECT.

The committee reported the following, which were unanimously adopted:

WHEREAS, It has pleased Divine Providence to remove from our midst our comrade and late commander, Colonel Robert Anderson; therefore,

Resolved, That in the death of Colonel Anderson this community has lost an estimable and patriotic citizen, who has in two wars shown his devotion to his country and conspicuous bearing in action.

Resolved, As comrades in arms we desire to pay our tribute to the gallant dead and express our esteem for him as a soldier and friend, always devoted and true.

Resolved, That as a mark of respect the members of the Ninth Regiment Pennsylvania Reserves attend his funeral as an organization.

Resolved, That our sincere sympathy is hereby tendered the family of deceased, and that a copy of these resolutions be published in the daily papers of the city.

On motion, it was ordered that comrades appear in dark suits, with badges and white gloves, and the following order of procession was decided upon: Eighteenth Regiment Band; Company A, Duquesne Greys, Captain John S. Kennedy commanding; Company B, Ninth Reserves, Captain Becker commanding, as escort, uniformed and armed; hearse; members of the Ninth Regiment and of other veteran regiments; family and friends of deceased in carriages.

Members of the Reserves and other veterans will meet at eight o'clock this morning at Armory of Duquesne Greys, Old City Hall, and from thence march to the late residence of deceased. The remains will be taken to the Cathedral and from thence to St. Mary's Cemetery.

An Establishment of Extensive and Reputable Manufacturers.

Croakers and sluggards in business are disposed to fold their hands and rest on their oars, for the reason, as they say, that Pittsburgh has lost its prestige as a business city, and that its especial manufactures have sought pastures new. While this may be the case with regard to those who pursue their business on the fogy system as practiced by their ancestors of a century ago, yet it is entirely inapplicable to an establishment possessed of the industry, energy and enterprise which characterizes the extensive manufactory of Messrs. Riter & Conley, whose office and works are located at Nos. 55 and 56 Water street, and who are builders of Blast Furnaces, Siemen Furnaces, Rolling Mill Stocks, Iron Roofing, Oil Tanks and all kinds of Sheet Iron Work; also Copper work every of description. This firm has just been the recipient of an award, or contract, that proves the old maxim that "the early bird," &c. The contract is that of building the Benwood Iron mills, of Wheeling, West Virginia, which are to be gigantic in their structure and proportions. The factory or main building will be 300 feet by 120 feet span, the forge and puddling department 152 feet span by 272 feet in length, the whole to be supported by iron columns with iron rafters, and covered with corrugated iron. The work could have been entrusted to no abler hands than Messrs. Riter & Conley, and the proprietors can rely upon full satisfaction.

An Hour at Hubley's—Articles of Beauty and Utility in Great Variety—A Wonderful and Useful Invention.

Before we inform our readers of the many useful articles to be had at Geo. W. Hubley's, No. 77 Federal street, Allegheny, a few words as to his rise and progress in business may not be amiss. Mr. Hubley is a pioneer, and also a veteran in his line, having begun his present business at No. 68 Federal street in the year 1849. He continued to extend his capacities and stock until 1874, when he was burned out, but with his characteristic energy he, in two months from the time of the fire, occupied a larger and more commodious building on the old site, with an augmented stock of goods. Mr. Hubley has always been on the *qui vive* to discover and introduce improved and labor saving inventions, as he was the first person west of the mountains to embark in the sale of house furnishing goods. To show his regard for the comfort and welfare of his friends and patrons we may mention that he was the first to introduce the canning of fruits. The first to introduce the refrigerator and ice-chest, the old dominion coffee-pot, the anthracite heating stove, the light patent step-ladder, the steam washer and many other articles of general utility and excellence. His primary aim in business being to subserve the interest of his patrons as to quantity and quality of goods it became a maxim among buyers that anything and everything capable of use could be had at Hubley's, and what he did not have was not worth the buying or the using. And so yet, for if there be any article of ingenuity or convenience to be used in the household, the good housewife's mind instantly reverts to the well stocked emporium of Hubley, as the place most likely at which to secure that which is desired. In this connection we must not omit mention of a genuine home comfort and luxury just secured by Mr. Hubley called "Fowler's Patent Fly Fan," which affords complete protection against the annoyance of flies, and may be used efficiently in the office, the sick room, the dining room, or any other place desired to be rid of the fly nuisance. The machine is light, neat, ornamental, is wound up like a clock, is simple in construction and a perfect automatic, self-acting substitute for the fly brush, and so cheap that every family can afford one. Call at Geo. W. Hubley's, No. 77 Federal street, and see this wonderful machine in operation.

The conveniences, comforts and pleasures attending a sojourn at this hotel are unsurpassed, either in the old world or the new. The traveling public are invited to try the good fare and reduced fees of this popular house.

CHAMBER OF COMMERCE.

The Water Works Question Discussed—Councils Asked to Hurry Up the New Works—Wood Street and Fifth Avenue.

A regular meeting of the Board of Directors of the Chamber of Commerce was held yesterday afternoon.

The minutes of the last meeting were read and approved.

The Executive Committee reported the election of H. Grattan Murphy as Superintendent.

The Special Committee on Wire Gauge reported progress, and the committee was continued.

Mr. Kirk presented the following paper:

Another narrow escape from the calamity of a water famine by the breaking of one of the old engines in the Pittsburgh water works last week, reminds us of the constant danger hanging over the trade and business men of Pittsburgh from the impure, insufficient and uncertain supply of water now furnished to the citizens of Pittsburgh.

At the time the present water works were built the point at which the water is taken from the river was then outside and above all sources of unhealthy impurities. But now both shores of the Allegheny river for miles above the point at which our drinking water is taken out, are lined, we may say, by thousands of sources of disgusting impurities, among which we may mention many miles of hard paved streets, where the dropings of thousands of horses are daily washed into the river. The products of thousands of water closets, wash houses, bath tubs, tanneries, oil refineries, slaughter houses, &c., &c. These combine to pour in a stream of unhealthy ingredients that would condemn the use of the water for any family purpose.

When we take into consideration the fact that these sources of disease are annually increasing very rapidly, and the increased clearing of land on the headwaters of the Allegheny annually increasing the evaporation from the land, and, of course, leaving less water to come down. What with the quantities of the above impurities and the reduced supply of river water to mix with them a quality of drinking water will soon be supplied to the citizens of Pittsburgh (if not so already) the very thought of the disgusting ingredients of which is repulsive; and if we this summer escape the ravages of some deadly epidemic, caused by the use of impure water, we will have more reason to thank the Giver of all Good than the wisdom of the managers of our city affairs.

2d. The present supply is insufficient. Many taxpayers in the rural districts complain that they are taxed for water but cannot get a drop from our water works because the present machinery cannot supply it. This is a gross injustice to rural districts.

3d. Our present supply is uncertain. When it is merely mentioned that some parts of the present machinery have been in constant service near 40 years, day and night, would it surprise any one acquainted with such machinery to hear any day that some crank or bolt had suddenly broken and a whole engine was broken beyond repairs. Again, suppose that a fire should break out at that critical time, and the scenes of 1845 be repeated in our city—and 30 to 50 acres be burned over—not to speak of the private loss, the city's loss in uncollectable taxes in the burned district would go a great way towards finishing our new water works.

In view of the unhealthy water we may soon expect to be furnished with during the warm months, the gross injustice to many citizens, and the great danger from fire, we would therefore recommend that the masterly inactivity policy be abandoned and means adopted to put the new works in operation as soon as possible.

The paper was read and filed and a resolution adopted asking City Councils to take action in the matter.

Joseph D. Weeks, Esq., was elected to fill the vacancy in the Board caused by the resignation of Mr. Young.

Mr. Gregg offered a resolution that the City Councils be requested to take immediate action on the matter of repaving Wood street and Fifth avenue. Adopted.

Adjourned.

Which Shall I Take?

This is often a serious question with the invalid. He finds the market flooded with proprietary medicines, scores of which are recommded as certain cures for his peculiar ailment. He reads the papers, circulars, and almanacs, and finds each sustained by plausible arguments setting forth its virtues and specific action. The recommendations are as strong for one as another. The cures claimed to have been wrought by one are as wonderful as those claimed to have been wrought by another. In his perplexity and doubt, the sufferer is sometimes led to reject all. But it should be borne in mind that this condition of things is one that cannot be remedied. In a land where all are free, the good—the truly valuable—must come into competition with the vile and worthless, and must be brought to public notice by the same instrumentality, which is *advertising*. In such a case, perhaps the only absolute proof that a remedy is what it claims to be, is to try it. The "test of a pudding is the eating of it." "Prove all things, hold fast that which is good," is the apostolic injunction. There may, however, be a stronger presumptive evidence in favor of one remedy than there is in favor of another, and this should be allowed its due weight. A due regard to this may save a vast amount of experimenting and a useless outlay of money. As presumptive evidence in favor of Dr. Pierce's Family Medicines, the Proprietor desires to say, that they are prepared by a new and scientific process by which the virtues of the crude plants and roots are extracted without the use of a particle as alcohol. Not a particle of this destroyer of our race enters into the composition of either his Golden Medical Discovery or Favorite Prescription. This consideration alone ought certainly to rank them high above the vile compounds saturated with alchoi, Jamaica rum, sour beer, or vinegar, which are everywhere offered for sale. Again, they are of uniform strength, and their virtues can never be impaired by age. They are also made from fresh herbs and roots, gathered in their appropriate season, when they are flush with medicinal properties. In support of these claims, the following testimony is offered:

R. V. PIERCE, M. D.: NEWARK, N. J.

Dear Sir,—I have sold a great deal of your excellent remedies, and I prefer to sell them before others, because they give good satisfaction to those who use them. I hear such remarks as "Sage's Remedy completely cured me; it is a splendid thing," or, "Pierce's Discovery is just what I wanted; I feel better than I ever did." One of our celebrated singers uses it for strengthening her voice, and says "there is nothing equals it," and so I might give scores of remarks said about your preparations. A colored woman was using your Discovery, and after taking three bottles was completely cured. She, being in the store, said to me. "I don't want no doctors 'round me so long as I can get the Discovery; it beats all your doctors." And so I might go on.

I am, most respectfully, yours,
ATHA B. CROOKS.

READING CONTEST.

Trial of Elocutionary Skill at Pittsburgh Female College for the Prize Cup.

A very large and brilliant audience filled the chapel of the Pittsburgh Female College last evening to witness the reading contest between a number of young lady pupils of the establishment for the Mrs. Bishop Simpson silver prize cup. The reading programme was interspersed with vocal and instrumental music, making it much more enjoyable. The first piece was a piano solo, "Irish Diamonds," by Miss Fannie Houser, followed by the first reading "Jamie Douglass," by Miss Mattie Carr. No. 2, "The Witch's Daughter," was read by Miss Annie Lucas, succeeded by a vocal duet, "Holy Mother," by Misses Young and Miller. No. 3 was "Washington," read by Garnet Robinson, a little Miss apparently of about ten summers. It was a remarkable performance for one of her age, and in the opinion of many, the writer included, she should have either had the prize or especial mention. Miss Mary Kerr followed with "Cleopatra," an intensely dramatic and passionate piece, requiring rare abilities to render well. She acquitted herself handsomely. An instrumental duet, "Grand Galop de Concert," by Misses Voight and Sallie Gibson was well played and formed a pleasing interlude. No. 5, "The American Flag," was read by Miss Helen Pershing, a little lady about the size and age of Garnet Robinson. Her enunciation was clear and perfect, and her delivery won for her many well deserved enconiums. Miss Mary Canfield was No. 6, and read "The Lost Heir." "Uncle Daniel's Apparition," No. 7, on the programme, was read with winning effect by Miss Hattie Hoag. Miss Lou Young read "Monas' Waters," a very difficult composition to deliver properly. It is but little disparagement of Miss Young's elocutionary abilities to say that she sings better than she reads, for her singing is not only good, but so excellent that she carried off the honors of the evening. Her success as a vocalist should make amends to her for a little mediocrity as an elocutionist. Miss Aggie Wier, a very attractive looking young lady, played with much skill and taste a somewhat difficult piano solo, "Song in the Woods." "Hager in the Wilderness" concluded the reading contest. Miss Mary Hemphill delivered it.

While the Judges, Prof. Delano Jeffries, Rev. D. M. Hollister, and Josiah Cohen, Esq., were out, Miss Effie Voight sang the "Shadow Song." Prof. Hern gave an organ solo, and "Welcome Spring," a beautiful composition, was sung by Misses Lou Young, Merchant, Monroe, and another young lady. So excellently was it given that the audience would not be satisfied until it was repeated by the same performers. After a short wait, the judges came in and announced that while it was a difficult matter for them to reach a decision where so many of the young ladies had done so well, still they had concluded that to Miss Hattie Hoag the cup belonged. Mr. Cohen then presented it to her in appropriate terms, and the contest ended.

On account of the absence of President Pershing, Rev. C. W. Smith, of the Smithfield street M. E. Church, presided, and performed his duties in a very felicitous manner.

The class day exercises took place yesterday, and to-night the commencement exercises come off in the college chapel.

Postponement.

The meeting in the interest of Theological education, and particularly of Drew Theological Seminary, announced for Christ M. E. Church, has been postponed from Tuesday evening, June 20th, until the Autumn, the precise date to be determined hereafter. The immediate cause of the postponement was the desire not to conflict with the commencement of the Female College, which occurs this (Tuesday) evening.

Horrible Death.

An accident of a most horrible nature occurred at Elizabeth, on the Monongahela river, yesterday morning, resulting in the death of William Sewart, a farmer residing in Jefferson township, this county. He came to Elizabeth early in the morning in a buggy, to which was attached a young horse. The horse took fright and started to run, when Mr. S. was thrown out. His foot became fastened to the buggy in some way and he was dragged for nearly a mile breaking his neck and literally crushing his head to a jelly.

Suicide by Hanging.

Coroner McCallin yesterday held an inquest on the body of George Allen, at Millvale borough, who committed suicide by hanging himself with a clothes line Sunday evening. He resided with his brother, and it appears has been of unsound mind for some time past, having on a former occasion attempted to take his own life by shooting himself. His brother and wife left home a short time Sunday evening and when they returned found him hanging behind the door dead. The jury returned a verdict in accordance with the above facts.

M., until twelve of both days a free clinic will be held at the office of Dr. Warner, No. 10 Ninth street, Pittsburgh, where all those who wish to avail themselves of the opportunity will receive either medical or surgical treatment free of charge. The regular sessions of the Convention will be held in the afternoon. The headquarters of the Association will be at the St. Charles Hotel.

A SPECIAL MEETING.

Allegheny Councils to Consider the Water Supply and Fire Display.

A special meeting of Allegheny Councils has been called for Thursday evening. The object is two-fold: First, to do something about increasing the water supply in the hill districts. The Water Committee will meet to-morrow evening, when some plan will be prepared for the purpose and be presented to Councils for adoption on the following evening. The second object is to adopt a resolution requesting the Mayor not to enforce the ordinance prohibiting the setting off of fireworks on the Fourth of July. The Centennial Committee, as our readers are aware, are making arrangements for a grand display of fireworks on Monument Hill on the evening of the Fourth, but as the ordinance forbids anything of that kind in the city, Councils are to be asked to suspend the ordinance for that one day.

BASE BALL NOTES.

Record of Yesterday's Games.

The Alleghenys won the game with the Sewickleys at Union Park yesterday afternoon, by a score of 12 to 5. On Thursday and Saturday ensuing the Stars, professional, of Covington, Kentucky, will play the Alleghenys, and the Braddocks on Friday. Next Monday the Alleghenys and Red Stockings, of St. Louis, will compete with each other. There is said to be a project on foot to make Ritchie manager of the Allegheny nine. It would be the best movement ever inaugurated for the benefit of that club. It needs a manager badly, and if one should be appointed he ought to be given absolute authority, and the directors, stockholders, nor anybody else should not be allowed to interfere with his management, holding him responsible, of course, for the performance of his duty. Appoint Ritchie by all means, and centralize in him the authority that is now scattered among twelve or fifteen different persons. It will do immense good.

At Columbus, Ohio, yesterday, the Buckeyes defeated the Bostons by a score of 7 to 5. The Neshannocks won their second victory over the Standards, at Wheeling, yesterday, by a score of 7 to 5.

HOWARD STREET WALL.

Additional Developments by the Investigating Committee.

Another meeting of the Howard street Investigating Committee of Allegheny Councils was held last evening, Mr. Knox presiding.

Mr. Biber, of the sub-committee, reported that the Howard street wall had been examined up to that portion erected at the expense of the city. The committee stopped the work of digging the trenches at this point as they did not know whether they had authority to proceed any further with the examination. Since the last meeting the committee has discovered the wall to be short at three different points. At the first it is short nine feet eight inches in width and ten feet eleven inches in height, and at another eight feet four inches in width and four feet in height. At both these points the wall is about eleven feet thick. At the third point it was found to be seven feet three inches short in width and twelve feet short in height; at this point the wall is about fourteen feet thick. The committee has not yet found the offset in search of which the excavating was first commenced. It is supposed to be in that portion of the wall erected by the city.

On motion of Mr. Sholes the sub-committee was directed to examine the resolution under which it is working, and if they have full power in the premises that they proceed at once to complete the examination.

Mr. Carlisle, Assistant City Engineer, said that he had measured the wall, and his measurements did not altogether agree with those made by Mr. Biber. After some discussion it was agreed that Mr. Carlisle should meet with the sub-committee this morning, and that they should make all the measurements together.

On motion of Mr. Wilhelm, Mr. Carlisle was directed to prepare a full plan of the wall according to the original plans, and to mark in colored inks the exact condition in which the wall is now found to be, also to calculate how many perches of stone the wall is short of what it ought to be. The committee then adjourned.

LOCAL OPTION AGAIN.

The Re-enactment of the Law Advocated by a State Temperance Convention—Its Complete Divorcement from Politics Urged—Sessions Yesterday Afternoon and Evening—Resolutions Adopted.

A Temperance Convention was held yesterday afternoon at the Alliance rooms, corner of Penn avenue and Sixth street, for the purpose of taking action looking toward the re-enactment of the local option law. It was called a State Convention, though but few delegates outside of Allegheny county were present. The assembly was called to order by Dr. Jennings, of Moon township, at whose suggestion Hon. F. R. Brunot was elected permanent President. After the delivery of an opening prayer by Rev. F. R. Wotring, of Mansfield, Pa., the following additional officers were elected: Vice Presidents—Rev. Dr. Nesbit; Joseph Wilson, of Homestead; Rev. F. R. Wotring, Rev. Dr. Easton, A. T. Moorhead, of Indiana, and H. David Rodgers, of Mansfield. Secretaries—Rev. J. T. Oxtoby, of Erie county; Rev. S. M. Henderson, of Erie county; E. C. Craft and W. H. Guy, of Allegheny county. In his preliminary remarks Mr. Brunot said that he thought the repeal of the local option law premature, and held that the voters of each township ought certainly to be allowed the privilege of deciding whether or not liquor should be sold within its precincts. Dr. Jennings read a paper expressing his views concerning the particular subjects, all included under the general head of temperance, which he thought the Convention specially called upon to consider. The meeting then proceeded to business by appointing the following committees:

Committee on Business—Dr. Jennings, H. C. Brown, Thomas Lawrence, D. J. Rodgers and Rev. J. B. Waddle.

Executive Committee—Rev. Dr. Ormond, Dr. J. C. Kennedy, Rev. Mr. Shaw, Rev. J. S. McConnell, Gen. F. H. Lane and Dr. D. L. Starr.

Committee on Preparing an Address to the People—Dr. D. L. Starr, Rev. J. T. Oxtoby, Rev. S C. Jennings, Rev. G. K. Ormond, Rev. J. S. Eastman and Rev. R. Audley Brown.

During the formation of the committees Rev. Deens objected to ministers composing a majority of each, and alleged that the ministry included some "dumb dogs," who were not of much account, and that the people were prone to believe from the fact that ministers were so often prominent in these matters that they assumed the control and management of them to the exclusion of laymen. Rev. Phipps was quick to resent the imputation that he thought Rev. Deens had put upon the ministry. He said that preachers never stood as barriers in the way of progress, and that they were not "dumb dogs" either. The large number present in the Convention was proof of the interest taken by them in the cause of temperance. It looked for a moment as though there would be a wordy warfare between the two gentlemen, but the matter was quieted before a stormy outbreak occurred.

On motion of Dr. Ormond the ladies of the various Temperance Societies in Allegheny county were requested to name two of their members to be added to the Executive Committee.

Dr. Jennings, from the Business Committee, submitted the following:

WHEREAS, The temporal and spiritual interests of the inhabitants of Pennsylvania would be best promoted by prohibiting the manufacture, sale and use of intoxicating drinks as a beverage; and

WHEREAS, The civil power of the State emanates from the people, of whom we are a part; therefore

Resolved, That in the exercise of that power at the ballot box, and by all other lawful means we will seek to secure such legislation as will give us a local option law.

Resolved, That while we lament the existence of other evils in the Commonwealth besides the use and sale of intoxicating drinks as a beverage, we assert that this is the greatest, being the parent of many others, and that it should be promptly removed.

Resolved, That in our choice in civil officers we will give our preference to men of temperance principles and of temperance habits, and that we earnestly invite the press everywhere to encourage and support our cause.

Resolved, That it is hereby recommended to the friends of the local option movement in every county by committees to respectfully interrogate every candidate for the Legislature of Pennsylvania as to his willingness to favor the enactment of a local option law, such as the new Constitution would sanction.

Resolved, That in the counties of the State where the voters for the late local option law were successful, that they be requested in this great struggle for truth and righteousness to ascertain as far as possible the amount of intoxicating liquor sold in their respective counties during as much time before and after the operation of said law as there was during the length of time it was in force, and other facts bearing on the question of the usefulness of said law, and publish them through every possible channel.

Resolved, That we recommend to the friends of such a law to meet in their several counties and appoint a committee of vigilance to carry out the measures proposed and to circulate petitions to the Legislature for such a law, and to do whatever else is wise and just, to save our Commonwealth from the ruin effected by both adulterated and genuine alcoholic liquors.

Resolved, That in reliance on a righteous Providence we will persevere in our object and that the Executive Committee be requested to call another meeting at such time and place as they may think proper.

The resolutions underwent a long discussion, and after numerous emendations they were adopted as reported above. The Convention then adjourned until evening.

Evening Session.

At eight o'clock last night the Convention re-convened in the Smithfield street M. E church, at the corner of Seventh avenue. Mr. Brunot being absent his place as presiding officer, was filled by Mr. Wm. Little. The audience was a very small one, a fact which Mr. Little deprecated when he spoke of the time when the aisles and seats of this church were filled with people anxious to learn of temperance.

Dr. Starr, from the committee appointed in the afternoon to prepare an address to the people, submitted and read a very elaborate and carefully prepared paper of considerable length. It abounded with statistics, from which the writer culled the following relative to this State. In Pennsylvania there are 16,000 educational institutions of all kinds, and 23,606 dram shops, the latter being nearly 8,000 in excess of the former. The teachers of all grades number 18,783, and the employes of liquor shops 45,490, the proportion in favor of the latter being nearly as great as three to one. $8,399,723 are spent yearly for education and $65,000,000 for liquor, equivalent to $8 for knowledge and $65 for drunkard making. In Allegheny county there are two distilleries and forty-four breweries, employing 460 persons in the manufacture of liquor and 5,400 in selling it. The address further stated that in this county there are 10,800 hopeless drunkards, of which 3,600 are females. It concluded by stating the following as the object which the Convention desires to attain. "Our proposition is to disconnect the license to manufacture and traffic in intoxicating liquors from all other political considerations and let it stand or fall on its own merits. Let the popular vote decide whether this State shall be a copartner in the nefarious business of making drunkards, criminals and paupers, as it certainly is, while for a fee it grants licenses to pursue a business the legitimate and constant fruits of which are drunkards, crime and poverty. If we are convinced that the people of our State are so lost to virtue and philanthropy that they prefer drunkenness to sobriety; crime to innocency, and poverty to competency, then we are in a deplorable condition. Our principal difficulty has been to control the influence of patriots and philanthropists so as to make that influence bear directly on this subject, without effecting others. In our proposed efforts to have the local option law re-enacted we do not ask the Republican to be less a Republican, nor the Democrat less a Democrat, nor do we ask the Prohibitionist to be less a Prohibitionist, but we do say to good men and women of all parties and religious denominations that God and humanity demand our concentrated action. Our Government is founded on the principle that the majority have a right to govern, within certain restrictions, and we want to bring our concentrated influence to bear on our law-makers to induce them to enact a law equivalent to the repealed local option law, embracing the whole State, so as to present the question to the popular vote, "Shall license to manufacture and traffic in intoxicating liquors be granted in our State?" It would seem that under our popular form of government nothing could be more consonant with its theory. But when we had such a law it was repealed at the demands of the liquor interests. Do we inquire why it was repealed? We point to the boom investigation of the last session of our Legislature, and ask why members of that Legislature were expelled. Our plain course of action is to demand candidates for office who 'fear God and hate covetousness.' Let our Republican friends say to their candidates, "We require of you a solemn pledge that you will use your vote and influence if elected to the Legislature to enact a law equivalent to the late local option law." Let our Democratic friends require the same pledge of their candidates, and our Prohibition friends will stand the same test. If any candidate fails to make the required pledge we must and ought to excise him, though he be our brother, and give our votes and influence to those who are pledged on the side of local option."

The paper was discussed by Rev. Geo. P. Hays, Dr. Ormond, Dr. Jennings, Rev. R. A. Browe, Dr. Starr, Mr. George Finley and others, succeeding which it was adopted. The Convention then adjourned.

Court Brevities.

J. C. GOLDEN, Esq., the attorney whose alleged crookedness we noticed yesterday morning, waived a hearing yesterday and in default of bail for his appearance at Court was committed to jail.

THE JURY in the case of the Commonwealth vs. Lafferty and Elliott indicted for rape, which retired Saturday afternoon, were out until yesterday morning when they returned a verdict of guilty as to both defendents. CHARLES T. BARKARY yesterday instituted proceedings in Common Pleas Court No. 1 against James Getty, Jr., to recover damages for false arrest and imprisonment. Failing to give bail Barkary was committed to jail, and remained there ninety-two hours, when he was released, the Grand Jury having ignored the bill. He claims damages in in the sum of $500.

SINCE the publication of charges against J. C. Golden in the Kreuger case another alleged irregularity has been discovered. A Mrs. Smith, of Allegheny City, was the defendant to an action for damages in the Common Pleas Court, and had employed Mr. Golden, she alleges, to attend to the case, and paid him about $30 in all, he reporting to her that he had effected a compromise. A day or two since, however, she received notice to file an affidavit of defense, or judgment, for $5,000 the full amount claimed would be taken.

IN MEMORIAM.

Resolutions Relative to the Death of Col. Robert Anderson.

A meeting of the members of the Ninth Regiment, Pennsylvania Reserve Association, was held last evening at the office of Swearingen & McCandless, Fourth avenue, to take some action relative to the death of Col. Robert Anderson, late Colonel of the Regiment.

T. Brent Swearingen was called to the chair, and Thos. Hamilton, Esq., was appointed Secretary.

The object of the meeting having been stated, the following named gentlemen were appointed a committee on resolutions: Messrs. Hardtmeyer, Shukle, Abel and Swearingen.

Captains Barber and Hardtmeyer, Col. Snodgrass and Sergeant Gilmore were announced as pall bearers.

RESOLUTIONS OF RESPECT.

The committee reported the following, which were unanimously adopted:

WHEREAS, It has pleased Divine Providence to remove from our midst our comrade and late commander, Colonel Robert Anderson; therefore,

Resolved, That in the death of Colonel Anderson this community has lost an estimable and patriotic citizen, who has in two wars shown his devotion to his country and conspicuous bearing in action.

Resolved, As comrades in arms we desire to pay our tribute to the gallant dead and express our esteem for him as a soldier and friend, always devoted and true.

Resolved, That as a mark of respect the members of the Ninth Regiment Pennsylvania Reserves attend his funeral as an organization.

Resolved, That our sincere sympathy is hereby tendered the family of deceased, and that a copy of these resolutions be published in the daily papers of the city.

On motion, it was ordered that comrades appear in dark suits, with badges and white gloves, and the following order of procession was decided upon: Eighteenth Regiment Band; Company A, Duquesne Greys, Captain John S. Kennedy commanding; Company B, Ninth Reserves, Captain Becker commanding, as escort, uniformed and armed; hearse; members of the Ninth Regiment and of other veteran regiments; family and friends of deceased in carriages.

Members of the Reserves and other veterans will meet at eight o'clock this morning at Armory of Duquesne Greys, Old City Hall, and from thence march to the late residence of deceased. The remains will be taken to the Cathedral and from thence to St. Mary's Cemetery.

An Establishment of Extensive and Reputable Manufacturers.

Croakers and sluggards in business are disposed to fold their hands and rest on their oars, for the reason, as they say, that Pittsburgh has lost its prestige as a business city, and that its especial manufactures have sought pastures new. While this may be the case with regard to those who pursue their business on the fogy system as practiced by their ancestors of a century ago, yet it is entirely inapplicable to an establishment possessed of the industry, energy and enterprise which characterizes the extensive manufactory of Messrs. Riter & Conley, whose office and works are located at Nos. 55 and 56 Water street, and who are builders of Blast Furnaces, Siemen Furnaces, Rolling Mill Stocks, Iron Roofing, Oil Tanks and all kinds of Sheet Iron Work; also Copper work every of description. This firm has just been the recipient of an award, or contract, that proves the old maxim that "the early bird," &c. The contract is that of building the Benwood Iron mills, of Wheeling, West Virginia, which are to be gigantic in their structure and proportions. The factory or main building will be 300 feet by 120 feet span, the forge and puddling department 152 feet span by 272 feet in length, the whole to be supported by iron columns with iron rafters, and covered with corrugated iron. The work could have been entrusted to no abler hands than Messrs. Riter & Conley, and the proprietors can rely upon full satisfaction.

PERSONAL.

***City Controller Snodgrass yesterday received from two or three intimate friends a present of a very handsome and costly Knight Templar jewel—a cross suspended from an eagle. It is of solid gold, inlaid with a cross and crown set with diamonds.

***Capt. Jacob Drury who has been a passenger conductor on the Panhandle Railroad for over twelve years, sent in his resignation a day or two ago. The mere mention of his long service is evidence of his good habits, and in leaving the road he carries with him the best wishes of his associates for his future success.

***Rev. W. H. Knox, pastor of the U. P. Church, Wylie avenue, left yesterday evening on the 7:50 train, for Europe. Mr. Knox has been granted a furlough of three months by his congregation, on account of his incessant labors of the last four years, and from which a respite is much needed. We hope he will return invigorated and recuperated for the good work before him.

An Hour at Hubley's—Articles of Beauty and Utility in Great Variety—A Wonderful and Useful Invention.

Before we inform our readers of the many useful articles to be had at Geo. W. Hubley's, No. 77 Federal street, Allegheny, a few words as to his rise and progress in business may not be amiss. Mr. Hubley is a pioneer, and also a veteran in his line, having begun his present, business at No. 68 Federal street in the year 1849. He continued to extend his capacities and stock until 1874, when he was burned out, but with his characteristic energy he, in two months from the time of the fire, occupied a larger and more commodious building on the old site, with an augmented stock of goods. Mr. Hubley has always been on the *qui vive* to discover and introduce improved and labor saving inventions, as he was the first person west of the mountains to embark in the sale of house furnishing goods. To show his regard for the comfort and welfare of his friends and patrons we may mention that he was the first to introduce the canning of fruits. The first to introduce the refrigerator and ice-chest, the old dominion coffee-pot, the anthracite heating stove, the light patent step-ladder, the steam washer and many other articles of general utility and excellence. His primary aim in business being to subserve the interest of his patrons as to quantity and quality of goods it became a maxim among buyers that anything and everything capable of use could be had at Hubley's, and what he did not have was not worth the buying or the using. And so yet, for if there be any article of ingenuity or convenience to be used in the household, the good housewife's mind instantly reverts to the well stocked emporium of Hubley, as the place most likely at which to secure that which is desired. In this connection we must not omit mention of a genuine home comfort and luxury just secured by Mr. Hubley called "Fowler's Patent Fly Fan," which affords complete protection against the annoyance of flies, and may be used efficiently in the office, the sick room, the dining room, or any other place desired to be rid of the fly nuisance. The machine is light, neat, ornamental, is wound up like a clock, is simple in construction and a perfect automatic, self-acting substitute for the fly brush, and so cheap that every family can afford one. Call at Geo. W. Hubley's, No. 77 Federal street, and see this wonderful machine in operation.

Monongahela House.

The reputation of the Monongahela House of this city is world-wide, its proprietor, Mr. J. McDonald Crossan, having no superior as a manager and caterer. As clearly indicative of the man, the rates have been reduced to accord with general reduction, making it the cheapest, as it ever has been the best hotel in the city. The conveniences, comforts and pleasures attending a sojourn at this hotel are unsurpassed, either in the old world or the new. The traveling public are invited to try the good fare and reduced fees of this popular house.

CHAMBER OF COMMERCE.

The Water Works Question Discussed—Councils Asked to Hurry Up the New Works—Wood Street and Fifth Avenue.

A regular meeting of the Board of Directors of the Chamber of Commerce was held yesterday afternoon.

The minutes of the last meeting were read and approved.

The Executive Committee reported the election of H. Grattan Murphy as Superintendent.

The Special Committee on Wire Gauge reported progress, and the committee was continued.

Mr. Kirk presented the following paper:

Another narrow escape from the calamity of a water famine by the breaking of one of the old engines in the Pittsburgh water works last week, reminds us of the constant danger hanging over the trade and business men of Pittsburgh from the impure, insufficient and uncertain supply of water now furnished to the citizens of Pittsburgh.

At the time the present water works were built the point at which the water is taken from the river was then outside and above all sources of unhealthy impurities. But now both shores of the Allegheny river for miles above the point at which our drinking water is taken out, are lined, we may say, by thousands of sources of disgusting impurities, among which we may mention many miles of hard paved streets, where the dropings of thousands of horses are daily washed into the river. The products of thousands of water closets, wash houses, bath tubs, tanneries, oil refineries, slaughter houses, &c., &c. These combine to pour in a stream of unhealthy ingredients that would condemn the use of the water for any family purpose.

When we take into consideration the fact that these sources of disease are annually increasing very rapidly, and the increased clearing of land on the headwaters of the Allegheny annually increasing the evaporation from the land, and, of course, leaving less water to come down. What with the quantities of the above impurities and the reduced supply of river water to mix with them a quality of drinking water will soon be supplied to the citizens of Pittsburgh (if not so already) the very thought of the disgusting ingredients of which is repulsive; and if we this summer escape the ravages of some deadly epidemic, caused by the use of impure water, we will have more reason to thank the Giver of all Good than the wisdom of the managers of our city affairs.

2d. The present supply is insufficient. Many taxpayers in the rural districts complain that they are taxed for water but cannot get a drop from our water works because the present machinery cannot supply it. This is a gross injustice to rural districts.

3d. Our present supply is uncertain. When it is merely mentioned that some parts of the present machinery have been in constant service near 40 years, day and night, would it surprise any one acquainted with such machinery to hear any day that some crank or bolt had suddenly broken and a whole engine was broken beyond repairs. Again, suppose that a fire should break out at that critical time, and the scenes of 1845 be repeated in our city—and 30 to 50 acres be burned over—not to speak of the private loss, the city's loss in uncollectable taxes in the burned district would go a great way towards finishing our new water works.

In view of the unhealthy water we may soon expect to be furnished with during the warm months, the gross injustice to many citizens, and the great danger from fire, we would therefore recommend that the masterly inactivity policy be abandoned and means adopted to put the new works in operation as soon as possible.

The paper was read and filed and a resolution adopted asking City Councils to take action in the matter.

Joseph D. Weeks, Esq., was elected to fill the vacancy in the Board caused by the resignation of Mr. Young.

Mr. Gregg offered a resolution that the City Councils be requested to take immediate action on the matter of repaving Wood street and Fifth avenue. Adopted. Adjourned.

Which Shall I Take?

This is often a serious question with the invalid. He finds the market flooded with proprietary medicines, scores of which are recommded as certain cures for his peculiar ailment. He reads the papers, circulars, and almanacs, and finds each sustained by plausible arguments setting forth its virtues and specific action. The recommendations are as strong for one as for another The cures claimed to have been wrought by one are as wonderful as those claimed to have been wrought by another. In his perplexity and doubt, the suffered is sometimes led to reject all. But it should be borne in mind that this condition of things is one that cannot be remedied. In a land where all are free, the good—the truly valuable—must come into competition with the vile and worthless, and must be brought to public notice by the same instrumentality, which is *advertising*. In such a case, perhaps the only absolute proof that a remedy is what it claims to be, is to try it. The "test of a pudding is the eating of it." "Prove all things, hold fast that which is good," is the apostolic injunction. There may, however, be a stronger presumptive evidence in favor of one remedy than there is in favor of another, and this should be allowed its due weight. A due regard to this may save a vast amount of experimenting and a useless outlay of money. As presumptive evidence in favor of Dr. Pierce's Family Medicines, the Proprietor desires to say, that they are prepared by a new and scientific process by which the virtues of the crude plants and roots are extracted without the use of a particle as alcohol. Not a particle of this destroyer of our race enters into the composition of either his Golden Medical Discovery or Favorite Prescription. This consideration alone ought certainly to rank them high above the vile compounds saturated with alchol, Jamaica rum, sour beer, or vinegar, which are everywhere offered for sale. Again, they are of uniform strength, and their virtues can never be impaired by age. They are also made from fresh herbs and roots, gathered in their appropriate season, when they are flush with medicinal properties. In support of these claims, the following testimony is offered:

R. V. PIERCE, M. D.: NEWARK, N. J.

Dear Sir,—I have sold a great deal of your excellent remedies, and I prefer to sell them before others, because they give good satisfaction to those who use them. I hear such remarks as "Sage's Remedy completely cured me; it is a splendid thing," or, "Pierce's Discovery is just what I wanted; I feel better than I ever did." One of our celebrated singers uses it for strengthing her voice, and says "there is nothing equals it," and so I might give scores of remarks said about your preparations. A colored woman was using your Discovery, and after taking three bottles was completely cured. She, being in the store, said to me. "I don't want no doctors 'round me so long as I can get the Discovery; it beats all your doctors." And so I might go on.

I am, most respectfully, yours,
ATHA B. CROOKS.

READING CONTEST.

Trial of Elocutionary Skill at Pittsburgh Female College for the Prize Cup.

A very large and brilliant audience filled the chapel of the Pittsburgh Female College last evening to witness the reading contest between a number of young lady pupils of the establishment for the Mrs. Bishop Simpson silver prize cup. The reading programme was interspersed with vocal and instrumental music, making it much more enjoyable. The first piece was a piano solo, "Irish Diamonds," by Miss Fannie Houser, followed by the first reading "Jamie Douglass," by Miss Mattie Carr. No. 2, "The Witch's Daughter," was read by Miss Annie Lucas, succeeded by a vocal duet, "Holy Mother," by Misses Young and Miller. No. 3 was "Washington," read by Garnet Robinson, a little Miss apparently of about ten summers. It was a remarkable performance for one of her age, and in the opinion of many, the writer included, she should have either had the prize or especial mention. Miss Mary Kerr followed with "Cleopatra," an intensely dramatic and passionate piece, requiring rare abilities to render well. She acquitted herself handsomely. An instrumental duet, "Grand Galop de Concert," by Misses Voight and Sallie Gibson was well played and formed a pleasing interlude. No. 5, "The American Flag," was read by Miss Helen Pershing, a little lady about the size and age of Garnet Robinson. Her enunciation was clear and perfect, and her delivery won for her many well deserved enconiums. Miss Mary Canfield was No. 6, and read "The Lost Heir." "Uncle Daniel's Apparition," No. 7, on the programme, was read with winning effect by Miss Hattie Hoag. Miss Lou Young read "Monas' Waters," a very difficult composition to deliver properly. It is but little disparagement of Miss Young's elocutionary abilities to say that she sings better than she reads, for her singing is not only good, but so excellent that she carried off the honors of the evening. Her success as a vocalist should make amends to her for a little mediocrity as an elocutionist. Miss Aggie Wier, a very attractive looking young lady, played with much skill and taste a somewhat difficult piano solo, "Song in the Woods." "Hager in the Wilderness" concluded the reading contest. Miss Mary Hemphill delivered it.

While the Judges, Prof. Delano Jeffries, Rev. D. M. Hollister, and Josiah Cohen, Esq., were out, Miss Effie Voight sang the "Shadow Song." Prof. Hern gave an organ solo, and "Welcome Spring," a beautiful composition, was sung by Misses Lou Young, Merchant, Monroe, and another young lady. So excellently was it given that the audience would not be satisfied until it was repeated by the same performers. After a short wait, the judges came in and announced that while it was a difficult matter for them to reach a decision where so many of the young ladies had done so well, still they had concluded that to Miss Hattie Hoag the cup belonged. Mr. Cohen then presented it to her in appropriate terms, and the contest ended.

On account of the absence of President Pershing, Rev. C. W. Smith, of the Smithfield street M. E. Church, presided, and performed his duties in a very felicitous manner.

The class day exercises took place yesterday, and to-night the commencement exercises come off in the college chapel.
